Will I have a LIFE and friends in IB?

Our students are probably the most involved kids in the entire school! They participate in every sport and club we offer. They rise to leadership roles and often start their own clubs in collaboration with a faculty advisor. They are in the band, drama, cheer, soccer, tennis, football, baseball, softball, student council and everything else. And our students become like a family – friends for sure – and people who see each other through the good and the challenging. Yes! You will have a social life as well as a great academic experience.

The *IB Learner Profile* helps us develop all the human success skills we need in life:

International Baccalaureate Programme

What is the coursework REALLY like?

Every year, you'll study a different level of coursework in each of six areas. You're already familiar with these areas of study since you do them now in school. In IB, we call them "groups."

Group 1: English Literature
Group 2: World Language Acquisition (Spanish)
Group 3: Individuals and Societies (Social Studies)
Group 4: Experimental Sciences (Biology, Chemistry, Physics option)
Group 5: Mathematics (Algebra, Geometry, Statistics, Calculus)
Group 6: Electives (Inquiry Skills, Music Anthropology, Chemistry, Physics)
