

Access Activate Class Product Page

Step 1
Click **Manage Classes**.

Step 2
Click **Activate Class Products**.

Note: You can also activate products as you create new classes.

The Activate Products Tool

Use the **Activate Products** tool to activate one or more products available for teachers to use in their classes.

Activate Your Products in Three Steps:

- 1 Search for one or more products to activate. You must select at least one subject, or enter either a product name or an ISBN, and then click **Search**. You can update the filters at any time.
- 2 Select at least one product to activate.
- 3 Click **Activate**. Optionally, choose one or more classes to activate your selected products to.

Note: Some products require you to accept Knewton Terms and Conditions before you can activate them. For more information, click **Help**.

Did You Know? Activating Class Products is a three-step process as described here.

Search for Products to Activate

The screenshot shows the 'Activate Products' page on the Holt McDougal Online platform. The page title is 'Activate Products' and it includes a sub-header: 'To begin using Holt McDougal Online, find the products you want to use.' The main section is titled '1. Find One or More Available Products:' and contains a search form. The form has a heading 'Select at least one subject to begin your search' and a list of subject checkboxes: 'All', 'World Languages', 'Other', 'Language Arts' (checked), 'Social Studies', 'Mathematics', and 'Science and Health'. Below this is a 'Product Name' field with 'Collections' entered and a 'Search an ISBN' link. A 'Search' button is located to the right of the form. Three callout boxes provide instructions: 'Step 1' points to the subject checkboxes with the text 'Filter your search by subject'; 'Step 2' points to the 'Product Name' field with the text 'Filter your search by product title or partial product title.'; and 'Step 3' points to the 'Search' button with the text 'Click Search.' A 'Note' box at the bottom states: 'You must select at least one subject or enter either a product name or an ISBN, and then click Search.'

Step 1
Filter your search by subject

Step 2
Filter your search by product title or partial product title.

Step 3
Click **Search**.

Note: You must select at least one subject or enter either a product name or an ISBN, and then click **Search**.

Select Products and Classes

You can also refine your search by product name or ISBN.
