Math Essentials

I am the 8<sup>th</sup> grade case manager for students with mild to moderate needs and have IEPs. I teach intervention classes for students who are not at grade level proficiency in reading, writing, and/or math. I also impact other classes such as Social Studies and Science.

Character traits that are admired and help to make successful individuals are perseverance, self-control, respect, integrity, honesty, and responsibility. My expectation for all students in my classes is that they come prepared daily with a pencil and paper, and a mindset ready to learn. As 8<sup>th</sup> grade students, it is essential that they start thinking about high school transition, becoming more independent, and good self-advocates.
