Course Description:

He's a video camera. She's a Mac. Together they make the perfect couple: Multimedia. This school year don't miss out on the breakout performance of a lifetime. Two new young digital media are brought together as one. Exploration, hands-on activities, self-expression, and creativity are but just a few of the fun antics you will find in this little gem of a course. Art, music, text, and visuals are united in a digital world unlike any other. Come join the fun! Coming soon to a classroom near you.

Major Instructional Goals:

Students will:

- Learn how to use and manipulate various types of digital media with intent.
- Learn about and be able to create, edit and assemble multimedia formats into finished products.
- Develop computer and technological fluency using a variety of software and digital equipment.
- Develop self-confidence through a fuller understanding and appreciation of their own creative capabilities and self-guided activities.
- Develop the skills to marriage art, music, text and visuals in a personalized expressive capacity.

General Rules:

Be on time, be prepared, be respectful and be responsible.

Preparation for Class:

Students are encouraged to use a flash drive to save his/her work on and are required to bring it every class period. Alternatively, students can save work on their personal share folder found on the computer's desktop. Saving to any other location will result in loss work!

Grading:

A = 100 - 90

B = 89 - 80

C = 79 - 70

D = 69 - 60

F = 59 - 0
