Student Debrief

 Lesson Objective: Solve two-step word problems involving all four operations and assess the reasonableness of solutions.

In Problem 1, you found that Sasha gives Rose a piece of yarn that is 27 centimeters long. Into how many 9-centimeter pieces can Rose cut this piece?

In Problem 2, did Julio spend more time on his spelling homework or his math homework? How do you know?

Student Debrief

 Lesson Objective: Solve two-step word problems involving all four operations and assess the reasonableness of solutions.

How are Problems 3 and 4 similar? Discuss with a partner.

In Problem 5, if Cora weighs 5 pencils, what is the total weight for the pencils and the ruler? How do you know?

Discuss with a partner the importance of checking the reasonableness of your answer.
