## Montgomery Township School District: Standards-Based Report Card Philosophy

The Montgomery Township School District works diligently to develop and adopt a rigorous and relevant curriculum aligned to the New Jersey Student Learning Standards. This standards-based report card communicates specific grade level learning goals (standards) and measures your child's learning progress and achievement towards those goals. Along with identifying your child's strengths, this report card will help foster more high-quality conversations between you, your child, and your child's teachers. Doing so can result in the development of meaningful goals for continued growth.

Standards-Based Report Card Performance Indicators		
<u>3</u>	Meeting Learning Standards/Competencies	
	Student currently demonstrates an understanding and application of this particular knowledge and/or skill	
	expected at this grade level	
<u>2</u>	Approaching Learning Standards/Competencies	
	Student currently demonstrates progress towards an understanding and application of this particular	
	knowledge and/or skill expected at this grade level	
<u>1</u>	Not Yet Meeting Learning Standards/Competencies	
	Student currently demonstrates limited progress towards an understanding and application of this	
	particular knowledge and/or skill expected at this grade level	
N/A	Not Assessed At This Time

Subject Areas Competencies - Classroom Teacher:		
English Language Arts: Reading Literature & Informational Text	Sem. 1	Sem. 2
Reads and comprehends literature at grade level text complexity.		
Summarizes text including theme and main idea.		
Interprets characters in depth through setting and events.		
Compares and contrasts perspectives in both literature and informational text by using textual evidence and making connections.		
Determines meaning of words using textual context clues.		
English Language Arts: Reading Foundational Skills	Sem. 1	Sem. 2
Knows and applies grade level phonics and word analysis skills in decoding and encoding words.		
Reads grade level texts with sufficient accuracy and fluency to support comprehension.		
English Language Arts: Language Skills	Sem. 1	Sem. 2
Applies conventions and writing mechanics of standard English.		
English Language Arts: Writing	Sem. 1	Sem. 2
Writes evidence supported arguments to support claims based on analysis of texts and topics.		
Writes informative/explanatory texts to examine a topic and convey ideas and information clearly.		
Writes narratives to develop real or imagined experiences or events using narrative technique, descriptive details, and clear event sequences.		

Subject Areas Competencies - Classroom Teacher:		
Mathematics	Sem. 1	Sem. 2
Fluently divides within 100.		
Generalizes place value understanding for multi-digit whole numbers.		
Applies rounding and estimation skills to aid in multi-digit computation.		
Performs multi-digit addition and subtraction equations and use symbols to express unknown values.		
Performs multi-digit multiplication and division equations and use symbols to express unknown values.		
Identifies a multiplication equation as a comparison, recognizing equal group/inverse relationships, and apply knowledge to real-life scenarios.		
Interprets remainders in division with valid reasoning when solving multi-step word problems		
Compares, builds, and represents fractions from unit fractions.		
Applies previous understandings of whole number operations when using fractions.		
Express decimal notation for fractions and compare decimals to fractions.		
Draws and identifies lines and angles, and group shapes by their properties.		
Determines the area and perimeter of rectangles in real world problems and applications.		
Science	Sem. 1	Sem. 2
Uses evidence to construct or support explanations verbally and/or written.		
Builds and revises models to represent, describe, and/or predict phenomena, and design solutions.		
Explains that the faster an object is moving, the more energy it possesses. When objects collide, the energy is transferred to change the object's motions.		
Identifies internal and external structures and explains the specific functions of those structures in animals.		
Explains and/or models that water, ice, wind, living organisms, and/or gravity break down rocks, soils, and sediments into smaller particles and move them around.		
Social Studies	Sem. 1	Sem. 2
Understands how rules and laws created by community, state, and national governments protect the		
rights of people, help resolve conflicts, and promote the common good.		
Understands how the United States government is organized and how the United States Constitution		
rights of people, help resolve conflicts, and promote the common good.  Understands how the United States government is organized and how the United States Constitution defines and limits the power of government.  Recognizes important events before, during and after the Revolutionary War.
