Welcome to 6th Grade!

Dear Upcoming 6th Grade Families,

Welcome! One of the most important things that we work on in 6th grade is organization. As the workload increases and students begin switching classes for multiple subjects, we are committed to providing them with the support necessary to navigate these new challenges.

In order to master the skills that are required to juggle assignments, notes and materials for each class, we have worked hard to develop a streamlined system for 6th graders. The supply list on the other side of this paper has been *carefully considered* for organizational, curricular and quality purposes. We would appreciate it if you would purchase these specific items.

While some families love the excitement of shopping for new school supplies, the PTO will once again offer an opportunity to purchase all supplies through a vendor over the summer. If this is your preference, information will be forthcoming.

We look forward to working with your children next fall. Have a wonderful summer!
