*** As you know we were thrown into providing Remote Learning in March of last year and students/staff had to start to utilize a digital platform. Obviously we will need to keep this rolling with our hybrid model and/or 100% remote learning model. Since we have made this move we are now offering students to BYOD (bring your own device) to school. Some parents have asked about the requirements for the computer. Experience has shown that devices with the following minimum specifications work well.

Device Type	Chromebook	Mac Laptop	Windows Laptop
Operating System	Latest Chrome OS	OS X 10.10 and up	Windows 7 and up
Memory Min Requirements (RAM)	4 GB	4 GB	4 GB
Storage	32 GB	256 GB	256 GB
Screen Size	11" diagonal	11" diagonal	10" diagonal
Wireless	Dual Band 802.11n	Dual Band 802.11n	Dual Band 802.11n
Min. Battery Life	7 hours	7 Hours	7 Hours

Please know that WMS is not requiring these specifications for electronic devices. They are only intended as a guide. Devices with these specifications will work best for use in the classroom. Students bringing their own device will be required to download the free Chrome browser.

* Please have these supplies by the end of the first week, Monday, September 14th.

* All items should be labeled with your child's first and last name.
