### **Custody Issues**

### Parent Disputes over Custody in School Setting

Parents may try to use the school as a forum for disputing custody matters. If needed, the school district may consider including the following form in their annual notification to parent and legal guardians.

Custody disputes must be handled by the courts. The school has no legal jurisdiction to refuse a biological parent access to their child. The only exception is when a signed restraining order or proper divorce papers, specifically stating visitation limitations, are on file in the school office. Any student release situation which leaves the student's welfare in question will be handled at the discretion of the site administrator or designee. Should any such situation become a disruption to the school, law enforcement will be contacted and an officer requested to intervene. Unless Educational Rights have been revoked, both parents have access to student records.

Parents are asked to make every attempt not to involve school sites in custody matters.

The school will make every attempt to reach the custodial parent when a parent or any other person not listed on the emergency card attempts to pick up a child.

I nave read and understand the above stateme	ent.
