

# Delphic Elementary School Weekly News

At Delphic School Students and Staff are Safe, Respectful, and Responsible

## April Showers Bring May Flowers

April 13, 2018

### Superintendent/Principal Message

Dear Parents and Families,

Welcome back to school! We hope everyone had a great spring break! We have had a busy week back. The 3rd through 8th grade students are preparing for state testing. Track for 4th- 8th grade students will begin next week. Please see the flyer on the back for more information.

On April 27th, K-2nd grade will be traveling to Turtle Bay in Redding. If you would like to attend, please contact Mrs. Day. We are excited about this field trip for our youngest learners. For your planning, we also will "field trip" to the Redding Water Slides on the last day of school, Wednesday, June 6th.

Please check out our new Delphic Facebook and Instagram pages! We will be posting positive school news and reminders, but please still continue to read the newsletter to stay up on all the current events at the school.

For the kids!

Jami Thomas

### CLASSROOM UPDATES

#### K-2 GRADE

- The Kindergarteners have finished all their letters and are working hard on reading. Welcome to our new student, Dayla! The first and second grades are having fun writing similes. They have also been learning about how to treat the American flag and why it is important to our country. This information was donated by the Veterans.

#### 3-5 GRADE

- This week the 3rd through 5th graders have had great discussions about their stories. They have been working hard rereading passages and finding more details that they didn't know or understand before. They are continuing to work on the insect powerpoints. The powerpoints will be due next Friday, April 20. Many of the older classmates have been helping and teaching the others how to use powerpoint! Great Job!

#### 6-8 GRADE

- We are in a rush to finish up our standards based academics. The students have completed many educational milestones and have grown tremendously. Be sure to ask them to show you their Google Drawing frog or one of their other skills based projects. We started a new Google Slides report on amphibians. The itineraries for our class trips went home today. Please contact Mrs. Kuck if you have any questions. More information will be available next week. Permission slips for students attending the STEAM program went home today. Please sign them and return them by 4/18/18.

### SAFE Notes

(Safe Afterschool For Everyone)
