Graduation Photos & Water Slide Field Trip Drivers Needed

May 24, 2019

Superintendent/Principal Message

Dear Parents and Families,

If you are planning to go to the water slides with us on June 7th please let us know as we are working on putting together a list of drivers. Next week is a short one with no school on Monday. Our last Delphic Dollar Store will be on May 30th and Mr. Singleton will visit one last time for this school year on May 31st for Hands on Science.

If you are a parent of a kinder or 8th grade student, please send in a baby photo(s) for display at graduation. On graduation day we will be serving a sizable after school supper and snack for kids who stay in SAFE until graduation begins. All students will be transported to Montague Community Hall by 6:00pm unless other arrangements are made by parents. If students will be performing (drumming and piano) or are in Mrs. Kuck's class, they will travel to the hall earlier in the day for rehearsal and decorating.

The 8th graders will be completing their job shadow experience in the next two weeks. Each student has been set up with a unique experience based on their career interests. The 8th graders will also be working on resume and cover letter development for future opportunities.

Don't forget there is no school on Monday, May 27th. Please enjoy the three-day weekend. For the kids!

Jami Thomas, Superintendent/Principal

K-2 GRADE

- The kindergartners are being tested for the last time this year. They made puppets and had a puppet show. All students planted seeds and we are waiting for them to sprout. First and second grades are working on measurement and attributes in math. The second graders performed a play on Friday. The first and second grades took their reading tests in preparation for their report cards. Have a great three-day weekend!

3-5 GRADE

- This week most of the 3rd-5th graders finished up testing! Good job to all the students who took their time and put in a ton of effort. In science we also discovered how to turn dull pennies into shiny pennies. Then we took a steel nail and watched how the copper coats the nail. There was a lot of fun science this week!

6-8 GRADE

- This week the upper grade class has been working on finishing up our core subjects and state testing. We are finalizing our plans for graduation.

SAFE Notes

(Safe Afterschool For Everyone)

Our SAFE student of the week is Andrew! Andrew is patient and always a good role model for other students. Great job! We have purchased ROCK BAND! for our middle school students during SAFE. Rock Band will be played on Mondays and Thursdays.
