

9th Grade Course Progression Guide

Please use this guide as a planning tool during registration. The Course Selection Sheet was handed to students in Advisory and is posted on the West Counseling Canvas Page.

Begin by selecting your 4 core classes:

- English 10 or Advanced English 10
- Math
 - Algebra → Geometry
 - Geometry → Algebra 2
 - Algebra 2 → PreCalc or College Math Foundations
- Chemistry or Advanced Chemistry
- AP Human Geography

Next select your elective classes.

- Most 10th graders take Health and PE

You can choose up to 7 classes per semester so after your core classes you have room for 3 year long electives or a combination of year long and semester long courses.
