

# 9<sup>th</sup> Grade Course Registration

## Frequently Asked Questions

**Q. How do I know what my student will be taking for his/her core classes next year?**

A. All parents to 8<sup>th</sup> grade students will receive a letter from Lyman Hall next week. The letter will contain your child's core course recommendations.

**Q. I'm having a hard time logging into my PowerSchool account. What should I do?**

A. If you haven't yet done so, please create a PowerSchool account. The instructions for how to do this can be found on the Dag website. If you need your log-in information or your child's log-in information, please contact Jackie Roudie, 203-294-3710 or [jroudie@wallingford.k12.ct.us](mailto:jroudie@wallingford.k12.ct.us)

**Q. I've logged into PowerSchool but it won't let me register.**

A. The window for registration does not open until February 27<sup>th</sup>. It will close on March 9<sup>th</sup>. Please be certain to log-in during that week and register for your child's electives and alternates.

**Q. Do I need to register for their core classes, too?**

A. No. Your child has already been registered for their core courses based off teacher recommendations.

**Q. What if I do not agree with the core classes my child was recommended for?**

A. There is an override process. Please contact your child's school counselor for more information.

**Q. We registered... now what?**

A. Your child must return the letter we sent to you as well as the Program of Studies to their homeroom teacher NO LATER THAN March 11<sup>th</sup>. Please be certain to check off whether or not you registered for electives and alternates at home.

**Q. What if I wasn't able to register from home?**

A. Please check off the box indicating this.

**Q. Why are we registering for electives and alternates from home this year?**

A. We believe that by doing this, parents and students are put into the driver's seat when planning for high school.

**Q. What if I was accepted into the VoAg program? How do I register?**

A. One of your electives will be the Grade 9 course offered within the program you were accepted in. For example, if you were accepted into the Food Science Program, one of your electives will be Food Science 1. Please refer to the VoAg course offerings in the Program of Studies (pg. 19-22).
