

Montgomery Public Schools Academic Dual Enrollment for Dual Credit (DE/DC) Guidance Packet 2021-2022 School Year

Montgomery Public Schools (MPS) maintains academic DE/DC partnerships with the following postsecondary institutions:

[Alabama State University](#), [Auburn University \(Auburn First\)](#),
[Auburn University at Montgomery](#), [Faulkner University](#),
[South University](#), [Trenholm State Community College](#),
[Troy University \(ACCELERATE\)](#), and [the University of Alabama Early College](#)

General Information

- Dual Enrollment (DE) occurs when a student is enrolled in a college-level course while still in high school. **College credit is earned and recorded on college transcript only.**
- Dual Enrollment for Dual Credit (DE/DC) courses allow students to earn both high school and college credit at the same time. **These credits are recorded on both high school and college transcripts.**
- Any MPS high school student who is interested in participating in academic DE/DC courses must consult with his/her high school counselor and must have prior, written approval from his/her principal **before** enrolling in dual credit courses.
- **Any student athlete who is interested in participating in academic DE/DC coursework must meet and consult with his/her high school counselor and athletic director to review related NCAA requirements.**

Student Eligibility/Qualifications

- Students eligible to apply and enroll in this program must be able to meet the entrance requirements established by the institutions of higher education, have a “B” average in completed high school courses, and have written approval of the principal and the superintendent.
- This program is open to all students in grades 10, 11, and 12. In accordance with Chapter 290-080-090.17 of the Administrative Code, exceptions may be made by the participating postsecondary institution for gifted and talented students enrolled in grades below grade 10 upon the recommendation of the high school principal and the superintendent.
- **Students who meet the criteria for initial admission for a DE/DC program will maintain continuous eligibility so long as they earn a grade of C or better in all attempted college courses.** Students who fail to meet this minimum grade requirement or who withdraw from a course will be suspended from the program for a minimum of one term. The one-term suspension may not be served during the summer. The student may not re-enroll until the suspension has been served. For re-entry, the student must reapply to the program and must meet the minimum grade point average requirements. (ALSDE May 2019)

- Failing a DE/DC course will cause the student to not receive college credit as well as equivalent high school credit. Course grade information received from the university will be recorded on high school and college transcripts.
- Placement in a high school level credit course will be guaranteed only for students withdrawing from a DE/DC course within four weeks of the start of the semester. Students who miss high school coursework as a result of DE/DC participation will be required to complete any missed assignments. It is the **responsibility of the student/parent to make sure proper postsecondary withdrawal procedures have been followed and proper documentation is given to the high school counselor**. Withdrawing after four weeks from the start of the semester may result in a loss of credit for that course. Course grade information received from the postsecondary institution will be recorded on the student's high school transcript.
- **Note: Any student who withdraws from a DE/DC course prior to the end of the academic term must provide official withdrawal documentation to his/her high school counselor to ensure that his/her schedule is adjusted and graduation requirements are met.**

DE/DC Courses

- Eligible MPS students may participate in up to 4 approved DE/DC courses per academic school year (August – July). No more than 2 DE/DC courses may be taken during a semester.
- Student high school DE/DC course replacement/selection will be based on approved MPS DE/DC course list.
- Dual enrollment for dual credit courses offered by the postsecondary institution shall be of postsecondary/college level. Students may be exposed to and be involved in discussions of mature subject-matter. Course curricula will not be modified. (ALSDE Updated May 2019)
- Courses may be offered after normal high school hours during the week day, on weekends, or in the summer. (MPS Policy Manual Feb. 2019) High school students may enroll in courses offered during the normal school day on or off the high school campus only with prior permission of the principal, the superintendent, and the applicable postsecondary institution president.
- Courses at the postsecondary institution may not conflict with the student's regular high school schedule.
- Upon completion of DE/DC courses, students must provide the high school with the final course grade. Evidence: official copy of student college/postsecondary transcript **or** official grade report from college/postsecondary.

DE/DC Weighted Courses

- Grading in Advanced Placement (AP)/Dual Enrollment courses taken for dual credit is the same as in all other courses. Grades, however, are to be weighted for purposes of honor roll, eligibility for honor clubs, rank in class, and GPA. That is, for example, A is to be one (1) point higher than a regular A; B is to be weighted as A; C is to be weighted as B; D is to be weighted as C; "Fs" are not to be weighted. A student who is enrolled in an AP or Dual Enrollment course must complete the entire scope and sequence of the course to fulfill requirements for graduation.

Course Transferability

- It is very important for high school students who are planning to earn college credit through dual enrollment to consider the transferability of credits to the postsecondary institution that they plan to attend after high school. **Students/Parents are strongly encouraged to confirm earned credit transferability with the college that they plan to attend after graduation from high school prior to dual enrollment registration.** STARS Transfer Guide System: http://stars.troy.edu/how_to_use_stars.html

Transportation

- Transportation is the responsibility of the parent or guardian of the student unless otherwise assumed by the LEA. If not assumed by the LEA, all costs associated with student transportation, including automobile insurance, traffic tickets, etc., would accrue to the student. The postsecondary institution or MPS assumes no responsibility or liability for students during the times they are commuting to the DE or DE/DC site. [Reference: Ala. Code 290-3-1-.02(11) MPS Policy 7.7]

Tuition, Textbooks, and Other Fees

- Tuition, textbooks, and other applicable fees for all academic dual enrollment courses are the responsibility of the students and/or their parents. A student who participates in the academic DE/DC program will be required to pay regular tuition as required by the postsecondary institution unless awarded an MPS DE/DC scholarship or other scholarship.
- All questions about tuition should be directed to the postsecondary institution. Course tuition varies by institution.
- Ask your high school counselor about scholarship opportunities.

Getting Started

- Schedule a meeting with high school counselor to discuss eligibility and establish college/course options from MPS approved course replacement/selection list.
- Contact postsecondary representative and review application/enrollment guidance/deadlines for postsecondary institutions through which course(s) may be taken.
- Complete the MPS academic DE/DC approval form and submit to high school counselor for consideration and principal approval prior to registering for any DE/DC course(s). **Courses taken through postsecondary institutions may not conflict with the student's regular high school schedule.**
- Upon receiving MPS approval, consult with postsecondary institution representative to successfully complete application/enrollment/registration process. Complete and submit DE/DC scholarship and student driver forms as needed.
- Provide high school counselor with proof of college course enrollment (e.g. college course schedule) no later than 7 days after enrolling in college course(s).

Course Information

Below is a listing of approved MPS academic DE/DC replacement courses.
(Courses subject to change and space availability.)

Policy & Forms

Montgomery County Board of Education

Instructional Program

Policy Manual
February 26, 2019

Adopted

7.7 Dual Enrollment The Alabama State Board of Education has authorized each local board of education, the State Department of Education, and the Department of Postsecondary Education to establish a program whereby high school students may enroll in postsecondary institutions in order to dually earn credits for a diploma/degree at both the high school and participating postsecondary levels. Courses may be offered after normal high school hours during the week day, on weekends, or in the summer. High school students may enroll in courses offered during the normal school day on or off the high school campus only with prior permission of the principal, the superintendent, and the applicable postsecondary institution president. If courses are offered off the high school campus during the school day, board of education policies shall address parent permission and travel.

Students eligible to apply and enroll in this program must be able to meet the entrance requirements established by the institutions of higher education, have a "B" average in completed high school courses, and have written approval of the principal and the superintendent.

This program is open to all students in grades 10, 11, and 12. In accordance with Chapter 290-080-090.17 of the Administrative Code, exceptions may be made by the participating postsecondary institution for gifted and talented students enrolled in grades below grade 10 upon the recommendation of the high school principal and the superintendent. The Montgomery County Board of Education permits dual enrollment/dual credit under the rules of the Alabama Department of Education and Southern Association of Colleges and Schools and in conformance with appropriate policies and procedures of Montgomery Public Schools.

Transportation is the responsibility of the parent or guardian of the student unless otherwise assumed by the LEA. If not assumed by the LEA, all costs associated with student transportation, including automobile insurance, traffic tickets, etc., would accrue to the student. The postsecondary institution or MPS assumes no responsibility or liability for students during the times they are commuting to the DE or DE/DC site. [Reference: Ala. Admin. Code 290-3-1-.02(11)]

Scholarship Details:

- Tuition scholarships are available for students who are taking academic DE/DC courses through the postsecondary institutions listed above and are NOT receiving scholarship funds from other sources (including the state CTE funding).
- Scholarship funds are available for up to 2 DE/DC courses per semester not to exceed 4 courses per academic school year (August – July).
- Scholarship funds are applicable for academic DE/DC courses with prior approval.
- **Scholarship funds cover tuition only.** \$450.00 maximum for 1 course/\$1,800.00 maximum per academic school year (August – July) for up to 4 courses. Textbooks and any additional fees are the responsibility of the student.
- Scholarship funds for tuition will be paid directly to the postsecondary, not to the student.
- Students **must earn a minimum grade of a “C” in each** completed course. Students who do not maintain good academic standing and complete coursework may be subject to repayment of scholarship funds.
- Scholarships are open to all MPS students who meet the eligibility requirements listed in the MPS Policy Manual, Academic DE/DC Guidance Packet, and the scholarship details listed above.
- Students awarded scholarships must provide proof of postsecondary enrollment before being added to the high school’s scholarship cohort list.
- Scholarship and approval forms must be submitted to high school counselor no later than the school’s identified deadline(s).
- Students receiving scholarships must ensure MPS high school counselor receives DE/DC course grades.
