

OP-ART Thumbnail Sketches

Name _____ p_____

Make a (non-objective) black and white design simulating the OP art style. This project introduces the elements and principles of design. Your design must use symmetrical balance (POA) and contain line and shape (EOA). You should use a variety of line styles such as horizontal, vertical, diagonal, curved, and jagged with various line thicknesses. The shapes can be geometric and/or organic.

Make 2 thumbnail sketches; one will be approved by teacher for final drawing.
