

Pop Art Project - 200pts

This project consists of two parts:

1. Reflective/Research Paper
2. Pop Art related work of art

To get familiar with the different aspects of the POP ART movement, gather information by searching the internet, going to the library, and reading books or magazine articles. Your research can be on a particular artist of the movement, historical or cultural influences, the style of art, all the above or anything you find pertinent to your understanding of the POP ART movement.

The Reflective-Research Paper: 100pts

Write a paper that reflects your research of this movement and include in the paper what, how or who in the POP ART movement inspired you to create the work of art you made. The style paper I am looking for is more of a reflective paper than a research paper. Your finished paper should present your own thinking backed up by ideas and information of the movement. If you are going to cite from a reference be sure to use proper citation.
