

Summer Intensive Grant Recommendation Summer 2023

A limited number of grants of \$1,000 - \$2,000 are available for Summer Intensive programs recommended by Specialty Faculty. Grants will be considered for recommended programs based on the students' particular skills and potential for advancement and/or to access to opportunities different from those offered in the ASFA curriculum. Grants are intended to support efforts to strategically augment a student's growth in their specialty, as opposed to general exploration of a school, region or topic.

Recommendations completed by 3/1/23 will be reviewed by the
Grant/Financial Aid Committee. Payments will be made directly to the Program.

Student Section – Fill out your section and forward in an email to the Specialty Faculty member who is recommending the program and grant for you.
