### **Biome Brochure Research Project Reflection**

Partner up with **three** different people with **three** different biomes (and different than your own). Exchange your brochures and answer the following questions:

**Student's name** \_\_\_\_\_

1. What is the biome described in the brochure?
2. Where is the biome located?
3. Give one characteristic of the biome:
4. What is a special landmark or land feature in the biome?
5. Name one biotic factor of the biome (a plant or animal), describe how it survives in its environment.
6. Which month would be the best time to travel to the biome? Why?
7. Describe one path that energy is transferred through the biome (look at food chain/web/pyramid)
8. What is an environmental, social or Economic issue people deal with who live in the biome? Describe how they are successful or not successful.
