## Concussion Awareness Course

### Puma Nation!

The Arizona Interscholastic Association has partnered up with the Barrow Neurological Institute to produce concussion awareness training for all high school athletes in the state of Arizona. The course must be completed immediately to create more awareness regarding concussions. The Brainbook course is now a requirement for all student-athletes prior to athletic participation. Please contact the Perry High School Athletic Department if you have any questions. Thanks in advance for your support and willingness to assist in the process of concussion awareness.
