

Unit 2 Module 1 Session 3

Problems and Investigations-Stamps

Assessment-Assessment Reflections

Getting Ready-

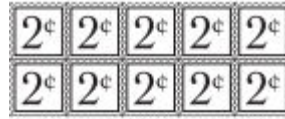

- **TM** T7 Stamps Forum Planner
- SB 36-37 More Groups of Stamps
- **TM** T8 Unit 2 Pre-Assessment Reflection Sheet
- Groups of Stamps Teacher Master from Session 2
- Markers
- Scored Unit 2 Pre-Assessments

I
CAN

- Solve multiplication problems with products to 100 using equal groups and arrays
- Multiply using the commutative property
- Interpret products of whole numbers

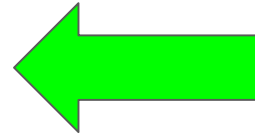

Here are the stamps
from the problem string
from our last session.

Let's look at the bottom
one again as a review.

How would you find out
how much the stamps
cost in all?

PAGE 36 PLEASE

Your Mission:

You can use strategies that you saw in the stamps problem string or the problem you just solved.

- As mathematicians, you are charged with a mission of coming up with and using efficient strategies to solve problems.

In other words, you need to find ways of solving a problem that are quick but are also clear to you and to others.

- Show your work clearly on the sheet

Pass out scored Unit 2
Pre-Assessments and
reflection sheets

Work Places

1A Make the Sum

1B Target Twenty
