- Black, Red, black and blue markers or colored pencils
- TM T3 Base Ten Grid Paper

VOCABULARY

Array

Estimate

multiply

I
CAN

- Represent the product of two numbers as the area of a rectangle with side lengths equal to those two numbers
- Fluently multiply with products to 100 with strategies

Problems and Investigations- Story Problems and Arrays

LET'S
ESTIMATE

Four classes of third graders went to the museum for a field trip. Each class had 27 students. How many third graders went in all?

The 4 is the number of classes and the 27 is the number of kids in each class. So 27×4 .

Let's use the base ten Grid Paper to solve it!

Fill in black lines for rods and dots for units
