Mission Statement

The mission of the West Windsor-Plainsboro Regional School District, valuing our tradition of excellence, is to develop all of our students as passionate, confident, life-long learners who have competence and strength of character to realize their aspirations and thoughtfully contribute to a diverse and changing world.

Core Values

We believe that continuous learning is essential for individual fulfillment and for the advancement of society.

We believe that every individual has intrinsic worth.

We believe that embracing diversity enriches and empowers our community.

We believe that honesty, integrity, and trust are cornerstones for continuing excellence.

We believe that people reach their highest potential when challenged to believe it is possible.

We believe that openness to change is essential to progress and future viability.

The West Windsor-Plainsboro Regional School District will not discriminate on the basis of race, color, religion, national origin, ancestry, age, political affiliation, sex, armed forces liability, physical handicap, or social or economic status in its educational programs or activities and employment policies as required by Title IX of the Educational Amendments of 1972 and N.J.A.C. 6:4-1.1 et. seq.

Introduction

This catalog is a valuable reference manual for students, parents, and school personnel actively involved in curriculum planning at West Windsor – Plainsboro High School North and South. It is a complete guide to the possible course offerings at WWPHS. Each department has described its specific course offerings, highlighting the chief components of each course.

Please understand that final decisions regarding the actual offering of any particular course for the 2014-15 school year will be dependent upon enrollment and budget constraints. Therefore, not all classes listed in this catalog are guaranteed to run every school year.

Planning an individual student's high school program of studies demands a cooperative effort between home and school. The program of studies that a student pursues in high school should reflect his or her aspirations, achievements, and aptitudes. The courses at West Windsor - Plainsboro High School North and South provide students with many opportunities to meet their educational needs. Beyond state, district, college and career requirements, the students are encouraged to select courses that will be academically stimulating and personally enriching. In selecting particular courses, the following criteria should be considered. Does the course:

- a. Meet the high school graduation requirements?
- b. Provide an outlet for interests in specific subject areas?
- c. Reflect a significant proficiency level?
- d. Provide a background for post high school plans leading to career options?
- e. Meet general college entrance requirements?
- f. Meet college entrance requirements specific to schools in which you are interested?

Please note the following when planning your program:

- a. Make sound initial choices. Initial low enrollment totals may lead to the cancellation of a course thus decreasing the options for change once the master schedule is complete.
- b. Choose courses not teachers. *Students and parents should not make the mistake of choosing or refusing a course based on their perception of a particular instructor.* Each choice should be based on the merits of the course content and its value to the student's specific needs. Please understand that requests for schedule adjustments based on the issue of personnel will not be honored.
- c. Discuss specific subject area choices with teachers and/or department supervisors who can share valuable insight into the nature of specific courses.
- d. When planning course level placement, consider taking the most challenging course load that you can handle without creating an undue burden. It may be better for students to experience success in an appropriate placement than to experience extreme difficulty in an inappropriate placement.

Any inquiries regarding scheduling should first be directed to the student's school counselor.

Counseling & Guidance Services

The programs that individuals pursue in high school should reflect their aspirations, aptitudes, and achievements. Because individuals differ, programs too, must differ. Since post-high school requirements for employment, college or vocational technical training are constantly changing, students must frequently reevaluate themselves in terms of their immediate and long-range goals.

Parents/guardians are expected to assist the student in the development of a curriculum plan. They should monitor the student's performance and progress. School counselors are resources to both students and adults in the development and monitoring of educational programs and are available for consultation. Additionally, school counselors conduct individual conferences and group lessons to help students with educational planning.

Students who are having severe difficulty in reading, mathematics, and/or writing may receive supplemental instruction upon the recommendation of the department supervisor and/or the evaluation and approval of Special Services. Parents or students may initiate this service by contacting the appropriate department supervisor, school counselor or Child Study Team case manager.

Lead Counselors: Lee Riley, High School North – Michelle Walsh, High School South

Guidance Staff: Michael Alberto - Chelsea Allen - Eric Becker - Jenna Cavadas - Melissa DeMuth - Antonella Facchini - Laura Foster - Mary Fregosi - Debra Levinson - Neeru Narang - Brooke Parrott - Theresa Riley - Molly Rooney - Cheryl Smith.

Child Study Team Staff: - Anita Anantharaman - Rachaele Cianci - Alba Fynn - Mary Jane Gosselin - Mary Kate Gonzales - Diane Lantz-Hecker - Diane Heiser - Sue Kemler - Alexandra Lawrence - Diane McGovern-Jennifer Medina - Lori Moser - Donna Ritz - Leslie Wyers.

Course Levels

It is the responsibility of the parent/guardian to review course eligibility and requests through the Parent Portal in Infinite Campus. Initial course level eligibility is based on 1st semester average and successful completion of prerequisite courses. Students and parents/guardians who would like a reevaluation of course eligibility must request a course entrance criteria review by April 1st.

There are two levels of courses utilized for the purpose of calculating weighted grade point average.

1. Weighted:
 - AP** (Advanced Placement courses)
 - HNS** (Honors courses)
 - PU** (Princeton University courses)

2. Unweighted:

Any course not designated AP, HNS, or PU.

AP, HNS and all courses taken at Princeton University are weighted. Grade point equivalents increase for grades earned in weighted courses. For example: Standard "B" = 3.0, HNS "B" = 4.0.

Both weighted and unweighted grade point averages (WGPA and GPA) are calculated. Weighted grade point average is based on an open-ended scale beginning with 0.00 and having no ceiling. Only the final grade achieved in each course is used to compute GPA and WGPA. All graded (non-pass/fail) courses (with the exception of Physical Education) are used in the calculation of WGPA. Physical Education is only calculated in unweighted GPA. Please note that while Physical Education is not factored into the weighted GPA, Health Education is part of the weighted GPA. A student's cumulative GPA and WGPA are tabulated and posted on the transcript at the conclusion of each school year. Coursework will **not** count towards WGPA or GPA unless there is a formal articulation agreement between that institution and WWPHS. Each letter grade is assigned a numeric equivalent as indicated in the following table:

Numeric Equivalents

Grade	Grading Scale	Numeric Equivalents	
		WEIGHTED AP/HNS/PU	UNWEIGHTED Standard
A	90 - 100	5.00	4.00
B	80 - 89	4.00	3.00
C	70 - 79	3.00	2.00
D	60 - 69	2.00	1.00
F	0 - 59	0	0

Steps in determining GPA & WGPA:

1. For each graded (non-pass/fail) course the student completes, with the exception of physical education for WGPA, multiply the numeric equivalent of the grade received times the number of credits earned to determine the number of quality points awarded.
2. Determine the sum of quality points earned for all courses for each separate year.
3. Divide the quality point total for one year by the total number of credits attempted for that year. This will yield the grade point average for that year. The same method is used for calculating WGPA and GPA. For AP, HNS, and PU courses, grade point equivalents increase 1.0.
4. To determine the overall GPA or WGPA, divide the total number of weighted quality points earned (sum of quality points from each year in high school) by the total number of credits attempted (sum of all credits attempted in high school).

Important additional procedures:

- All students who are enrolled at WWPHS North or South by the first day of their fourth or senior year shall have their grade point average calculated.
- With regard to transfer students, WWPHS North and South shall consider as weighted those courses taken at other schools when the corresponding WWPHS course is weighted.

- All summer school make-up courses taken in approved programs shall be non-weighted. A pass/fail grade will be recorded resulting in no adjustment to the student's GPA.
- Sequential courses taken at Princeton University with the approval of the appropriate supervisor and the guidance director shall be given a letter grade and be weighted. Students shall receive 3.0 high school credits for each successfully completed semester course.
- Independent study shall be graded pass-fail and be non-weighted.
- See page 8 for recording of non-traditional coursework on the WWPHS permanent record.

Scheduling Parameters

Minimum Scheduling Requirements:

Every West Windsor - Plainsboro High School North and South student should be scheduled for a minimum of 30 credits per year. Within the school day, students should be scheduled for seven classes and a study hall.

Graduation Requirements

In order for a student to graduate and receive a high school diploma from West Windsor - Plainsboro High School North or South, each student must:

A. Pass the High School Proficiency Assessment (HSPA) or equivalent NJDOE graduation assessment.

And

B. Fulfill the requirements as described utilizing one or both of the following two options:

1) Earn a minimum of 120 credits by successful completion of the prescribed courses listed in the chart on the following page. This requirement may be met in whole or in part through a traditional program where a "credit" means the award for student participation in the equivalent of a class period of instruction (commonly referred to as "option 1").

Each full year course that meets routinely for one non-extended class period shall yield 5 credits. Semester courses that meet routinely for one non-extended class period shall yield 2.5 credits and quarter courses meeting routinely for one class period shall yield 1.25 credits. Courses meeting for extended periods, a portion of a year, or a portion of a week shall be prorated. For example, a lab course shall be awarded 1.0 additional credits if that class routinely meets an additional 20 minutes per four-day cycle.

Graduation Requirements Chart*

	Entering 2011, '12, '13, '14 Class of 2015, '16, '17, '18
Language Arts Literacy ¹	At least 20 credits
Social Studies ² Am. History World History	At least 10 credits At least 5 credits
Science ³	At least 15 credits
Mathematics ⁴	At least 15 credits including algebra I and geometry or the content equivalent
Health, Safety, and Physical Education ⁵	At least 5 credits for each year of enrollment
Visual and Performing Arts ⁶	At least 5 credits
21st Century Life and Careers or Vocational Technical Education ⁷	At least 5 credits
World Languages ⁸	At least 10 credits or student demonstration of proficiency for all students who have attended a WWPRSD high school full time for three years or more. At least 5 credits or student demonstration of proficiency for all other students.
Financial, Economic Business, and Entrepreneurial Literacy ⁹	At least 2.5 credits
Technological Literacy	Integrated throughout the curriculum
Total Minimum Credits Required	120

¹ **Language Arts Program Requirements:** See page 13

² **Social Studies:** 15 credits including satisfaction of NJSA 18A:35-1 and 2; five credits in world history; and the integration of civics, economics, geography and global content in all course offerings.

³ **Science:** 15 credits including at least 5 credits in laboratory biology/life science or the content equivalent and, beginning with the class of 2014, one additional laboratory/inquiry-based science course which shall include chemistry, environmental science or physics. Beginning with the class of 2016, a third laboratory/inquiry based science course is required.

⁴ **Math:** Beginning with the class of 2016, 15 credits including algebra I and geometry or the content equivalent* and a third year of math that builds on the concepts and skills of algebra and geometry and prepares students for college and 21st century careers.

⁵ **Health, Safety, and Physical Education:** Includes driver education theory and family life education. Students with an authorized excuse may be excused from the physical activity part of the regular program and will be assigned an alternative activity. This core curriculum content area is required for every year of student attendance in grades 9-12. A minimum of 3 3/4 (150 minutes per week) or a maximum of 5 credits will be awarded for each year of successful participation.

⁶ **Visual & Performing Arts:** We may count all courses in the Music Dept., all courses in the Art Department, English electives (Speech/Drama, Dramatic Arts, Advanced Drama), and Business/Computer Department electives (Graphic Computer Applications I and II). Also, practical arts courses that have "a visual component" and are aligned with the NJDOE Core Content Standards may be considered such as TV Production starting with the class of 2018. Also, related offerings within the Program of Studies which are certified by the principal under 6A:8-5.1(a)1.ii may be used to fulfill this requirement.

⁷ **21st Century Life and Careers or Vocational-Technical Education:** We may count all courses in the Life Skills Dept.; all courses in the Business/Computer Dept. with the exception of AP Computer Science A, Advanced Topics in Computer Science and Graphic Computer Applications I and II; Senior Option; International Business and Cultures; IPLE; Economics/Social Problems; Fundamentals of Sports Medicine; Broadcast Writing; Advanced Broadcast Writing; TV Production; Journalism; Advanced Journalism Honors; or Vocational Technical Education. Also, related offerings within the Program of Studies which are certified by the principal under 6A:8-5.1(a)1.ii may be used to fulfill this requirement.

⁸ **World Language:** All students will be encouraged to fulfill the two year **World Language** requirement. Students may choose to fulfill the West Windsor-Plainsboro World Language High School Graduation Requirement by demonstrating the proficiency level of Intermediate Mid, as defined by the American Council on the Teaching of Foreign Languages (ACTFL). Students must contact the Supervisor of World Languages, who will provide the student with the information necessary for an approved competency-based assessment. The student is responsible for the expense of the assessment, as well as the registration/paperwork concerning all aspects of the assessment. In order to use this process for placement, students must take the assessment by March 15th of the prior academic year. Credit towards the high school graduation requirement (10 credits) will be received according to the level of both the oral and writing proficiency. If the student receives two different proficiency levels on the oral and writing, the lowest level will be granted credit (Example: OPI: Novice High (5 credits) and WPT Intermediate Mid (10 credits). Only a total of 5 credits will be awarded). Please refer to the following guidelines for credit: Novice High/Intermediate Low: 5 credits; Intermediate Mid or above: 10 credits. This is an option ii pathway according to the State of New Jersey. If the students wish to receive credit, this would be considered one of the two courses they are permitted to do per academic year. If students only wish to use this for placement, it will not be considered for credit.

Any student may appeal to the building Principal for exemption from the two year requirement. Students whose appeal is approved will be held to the NJDOE one year World Language requirement. Automatic exemptions (no appeal to the Principal necessary) include transfer students who enter WWPHS any time after September 30 of their 10th grade year. These students will be held to the NJDOE one year World Language requirement. Shared time students who attend Vocational-Technical School for part of the day during their 11th and 12th grade years will be held to the one year World Language requirement. Individual students with

disabilities who have irresolvable scheduling conflicts would need to fulfill the one year World Language requirement. LEP students who demonstrate proficiency in their native language, or another language, would be exempt. LEP students who take an additional English or English as a Second Language (ESL) class may use that second English class to fulfill the requirement.

⁹ **Financial, Economic Business, and Entrepreneurial Literacy:** At least 2.5 credits is required for Financial, Economic Business and Entrepreneurial Literacy. Consumer Economics, International Business and Cultures and Economics and Social Problems in American Society will fulfill this requirement. The course requirements shall include statutory mandates as follow.

Currently, these would include United States and New Jersey history in N.J.S.A. 18A:35-1 and 2; civics in N.J.S.A. 18A:35-3; agricultural science in N.J.S.A. 18A:35-4.13; health, safety, and physical education in N.J.S.A. 18A:35-5, 6, 7, and 8; the Holocaust and genocides in N.J.S.A. 18A:35-28; and credit for seniors in active military service in N.J.S.A. 18A:36-17.

The Board of Education, through the IEP process and pursuant to N.J.A.C. 6A:14-4.12, may, for individual students with disabilities as defined in N.J.A.C. 6A:14-1.3, specify alternate requirements for a State-endorsed diploma. Students with disabilities as defined in N.J.A.C. 6A:14-1.3 or eligible under Section 504 may demonstrate that they have attained State minimum levels of proficiency through the SRA process if specified in the student's Individualized Education Program (IEP) or Section 504 accommodation plan.

Or

2) The 120-credit requirement set forth above may be met in part through program completion (commonly referred to as "option ii").

The January 2004 amendment to N.J.A.C. 6A:8-5.1(a)1 clarifies that the Board of Education, in developing their graduation requirements, may use a combination rather than limiting themselves to only one of the options. Under "Option ii", the Board of Education may utilize performance or competency assessment to approve student completion of programs aimed at meeting or exceeding the Core Curriculum Content Standards at the secondary level, including those occurring all or in part prior to a student's high school enrollment. Activities and programs developed in accordance with option ii shall include appropriate assessments that ensure student achievements meet or exceed the Core Curriculum Content Standards.

The principal shall certify completion of curricular activities or programs based upon specified instructional objectives aimed at meeting or exceeding the Core Curriculum Content Standards.

The Board of Education may recognize successful completion of an accredited college course that assures achievement of knowledge and skills as delineated in the Core Curriculum Content Standards or includes learning that builds on and goes beyond the standards.

Note: Minimum graduation requirements, as prescribed in N.J.A.C. 6A:8-5.1, do not equate to college admission requirements.

WW-P Elective Courses by Graduation Requirement

College Admission Requirements:

Minimum graduation requirements should not be confused with college admission requirements. The general rule of thumb for most four-year colleges is that applicants should have completed a minimum of 16 "Academic Units" upon graduation. Normally, "Academic Units" are considered to be full year courses in college preparatory Math, Science, English, Social Studies and World Language.

WWPHS North and South courses, which count as academic units, depend upon the discretion of each individual college admissions department. Good grades in quality courses will enhance admission chances.

Admission to colleges and universities varies from easy to extremely competitive. Families should familiarize themselves with the various types of colleges and the degree of difficulty for admission.

Students should begin the planning process when selecting courses for the high school years. The college preparatory curriculum is a four-year course of study; therefore, families should design a four-year plan that is reviewed and revised annually.

Planning for the World of Work:

Students planning to enter the world of work immediately after graduation from high school may wish to concentrate on course sequences that provide some vocational preparation. In addition to the courses required for high school graduation, students are encouraged to consider elective course work in

areas of interest. All students are encouraged to take courses in computer applications.

Students wishing specific skill preparation while in high school may choose to attend Mercer County Technical School (www.mcts.edu) or Middlesex County Vocational School (www.mcvts.net). Each school has specific application procedures; consult with your counselor for more information.

Course Work Taken Prior to High School:

High school level courses taken prior to grade 9 through the Option ii process may be used to meet prerequisites or advancement in a particular subject area. However, because graduation credit requirements may only be met by courses taken in grades 9-12, high school level courses taken prior to grade 9 are not included in GPA or credits earned, nor are they listed on the high school transcript. Grade 9 begins upon graduation from grade 8.

Grade Level Promotion Requirements:

In order for students to be promoted to the next grade level, they must have successfully completed a required amount of credits during the school year (September through August). These minimums coincide with athletic and co-curricular eligibility requirements.

9th to 10th grade: 30 Credits

10th to 11th grade: 60 Credits

11th to 12th grade: 90 Credits

This is for graduation and eligibility tracking purposes only. It will not affect the student's ability to participate in grade level determined social activities.

Athletic & Co-Curricular Eligibility:

The Board of Education recognizes the primary responsibility of the school system is to educate all students to the maximum levels possible. Although the academic program has first priority, student activities are an important part of the total learning experience. The Board of Education, therefore, has an obligation to provide an opportunity for students to participate in a full range of activities, while ensuring that the student's academic progress is sufficient to support this participation. School activities are defined as:

- All interscholastic athletic teams
- All non-athletic co-curricular activities

Any student who wishes to compete in interscholastic sports must meet the minimum credit requirements established by the New Jersey Interscholastic Athletic Association (NJIAA). WWPHS North and South will also follow this policy for co-curricular activities. Eligibility for activities will be determined on a semester-by-semester basis. A student must have passed 30 credits in the previous year to be eligible for participation in activities offered in the fall and/or winter. Students who have not attained the required 30 credits at the end of the regular school year may attend an approved summer program in order to gain credits for fall/winter eligibility. To be eligible for activities offered in the spring a student must be passing 15 credits at the

conclusion of the fall semester. For full year courses, one half of the full year's credit is allocated to the first semester. Spring eligibility credit allocation is determined by looking at the fall cumulative semester grades issued by the teachers.

Participation in College Athletics:

Students intending to participate in NCAA Division I or II college athletics as a freshman must be certified by the NCAA Eligibility Center. Certain academic criteria in high school must be achieved in order to be eligible to participate in college. For a list of WW-P approved courses, go to: www.eligibilitycenter.org and click on "College-Bound Student-Athletes / Resources / US Students / List of NCAA Courses" for specific requirements, application, and a list of approved WW-P courses (formerly 48-H). The NCAA now requires all student athletes to register with the eligibility center prior to accepting offers of (official college visits).

Class/Course Transfers

Level Changes:

The deadline for level changes in a full year course is September 30. For all semester classes, the deadline is the last day of the second week. It is recommended that all level changes be made in consultation with counselor, teacher, department supervisor and parent(s). There must be an open seat in the requested course in order for the change to be made. Maintaining acceptable class size will be a priority.

In addition, the student is responsible for missed work. Grades follow the student when he/she makes a level change, with due consideration given to the weight of that grade.

Course Changes:

There must be an open seat in the requested course in order for the drop/add to be initiated. No new elective additions may be made after September 30 for full year or 1st semester courses. 2nd semester elective additions may be made no later than the last day of the second week of the 2nd semester.

Course Withdrawals

Students may elect to withdraw from a course within the timeline listed below:

Year Courses- No later than February 1.

Semester Courses- No later than the last day of the 1st or 3rd marking periods.

Quarter - No later than the fifth week of that quarter.

Effect of Withdrawal on Permanent Record:

1. A student who elects to withdraw from a year course at anytime up to November 30th is to be removed from the class roster. No record of this withdrawal shall appear on the student's permanent transcript.
2. A student who elects to withdraw from a year course at anytime after November 30th is to be removed from the class roster. A record of WP or WF is to be maintained

throughout the remainder of the year and recorded on the student's permanent transcript.

3. A student who elects to withdraw from a fall semester course at anytime prior to the last day of the 1st marking period is to be removed from the class roster. No record of this withdrawal shall appear on the student's permanent transcript.
4. A student who elects to withdraw from a spring semester course at anytime prior to the last day of the 3rd marking period is to be removed from the class roster. No record of this withdrawal shall appear on the student's permanent transcript.

Communication of Student Progress

All parents are encouraged to create an account to access the *Campus Portal* <https://sis.ww-p.org/campus/portal/wwp.jsp>

Parents/guardians should regularly check student progress, attendance, missing assignments and grades. If parents / guardians have questions concerning the academic progress of their child, the parent/guardian should first contact the classroom teacher and then, if necessary, the appropriate department supervisor. For concerns about overall progress in high school, the parent/guardian should contact the counselor.

Please note that only the final grade for each course appears on the student's permanent transcript.

Process for Resolving Incomplete Grades

1. A grade of Incomplete (I) will be given only when there is just cause, e.g., work missing due to absence or illness. Otherwise, students are expected to submit work on time. While it is permissible to accept work that is late, students are expected to complete all work prior to the end of the marking period.
2. Unless there are extenuating circumstances, students are expected to resolve incompletes no later than ten school days after the close of the marking period. Unresolved "I's" will be automatically turned into the earned grade after 10 days. If an extension is sought, a request must go through the subject supervisor.

Review for Credit / Summer School

Any student attending West Windsor – Plainsboro High School North and South who receives an "F" in a West Windsor – Plainsboro High School North or South course taken during the regular school year receives ZERO credits towards graduation for that course. Students who need the course, or want to earn the credits lost by failing a course during the regular school year, may opt to:

- a. Repeat the course during a future regular school year.
- b. Enroll in a summer school program approved by West Windsor – Plainsboro High School North or South.

Information about summer school will be posted on the district website, as it becomes available, or through the summer school office of another participating school district.

Credit may be earned in the summer for a maximum of two courses. If there are extenuating circumstances and a cogent case can be made by a parent/guardian in conference with the Director of Guidance, a third course may be taken for credit only with the approval of the Principal. A student must be enrolled for a minimum of 60 hours for a five-credit review course (a course originally failed). Review courses require 12 hours per credit. A pass/fail grade will be recorded resulting in no adjustment to the student's GPA. The appropriate credits will be awarded to those who successfully complete the course work. The original failing grade will be maintained on the student's permanent record.

Rank in Class

The academic environment in both High School North and South is very challenging. The majority of our students meet that challenge by earning exemplary grades. We believe that rank in class unnecessarily increases competition and that our students' levels of achievement are not equitably or fully communicated by this single transcript statistic. West Windsor – Plainsboro Regional School District policy, therefore, precludes the reporting of rank-in-class.

Guide to Appropriate Course Placement

A student who is eligible for an Honors level or Advanced Placement course is not required to take that course. Appropriate placement in each course warrants careful consideration during the scheduling process as future class changes may only occur if there are seats available. Honors and Advanced Placement courses differ from College Preparatory courses in terms of the level of expectations placed on the students, the amount of independent work expected, the pace of coverage of content, the expected skill level and the breadth and depth of the content covered. Therefore, consider the balance of coursework demands (for example, Honors vs. College Prep) in relation to interest, ability, and extra-curricular activities. Serious thought should be given as to what a student can handle without creating undue stress. Students who are considering an Honors or Advanced Placement course should consult with their parents/guardians, teachers and counselor before finalizing their course selections.

College Prep Courses:

CP courses follow a demanding curriculum at a moderate pace that is designed to ensure a student is ready for independent college-level work upon graduation from WWPHS. CP courses are appropriate for motivated students who need more teacher guidance to master comprehension and expand their knowledge of a particular subject. CP students are gradually introduced to conceptual, higher-order thinking (application, analysis, synthesis). Compared to assignments in Honors courses, College Prep work tends to be more manageable and given in smaller segments over shorter time frames.

Honors Courses:

Honors courses follow a rigorous curriculum at an accelerated pace that is designed to ensure a student is ready for independent college-level work upon graduation from WWPHS. Honors courses are appropriate for fairly autonomous students who are self-motivated learners, and who are ready to move quickly from lower-order thinking (knowledge, comprehension) to more conceptual, higher-order thinking (application, analysis, synthesis). Honors courses expect more work than College Prep courses and demand a stronger mastery of skills and more independent critical thinking. Assignments are often given on a longer-term basis, demanding more self-discipline from the students who must pace themselves accordingly.

Advanced Placement Courses:

AP courses offer the most rigorous curriculum at an accelerated pace for a student that is ready for independent college-level work. AP courses are appropriate for students who are self-motivated learners, and who have already developed conceptual, higher-order thinking (application, analysis, synthesis). AP courses expect more work than Honors courses and demand a stronger mastery of skills and more independent critical thinking. AP courses are tied to a standard curriculum designed by the College Board to prepare students to take a comprehensive final exam. Assignments are often given on a longer-term basis, demanding an abundant amount of self-discipline from students who must pace themselves accordingly.

Advanced Placement Program

AP courses are offered in English Language, English Literature, Studio Art, Art History, Calculus AB, Calculus BC, Statistics, Computer Science A, Biology, Chemistry, U.S. History, American Government & Comparative Politics, European History, French Language, German Language, Chinese Language, Spanish Language, and Spanish Literature.

AP courses are college level courses offered in the high school for students interested in pursuing a thorough, comprehensive program of study and research. These are courses in which the College Board determines the curriculum. Students who elect these courses are strongly encouraged to take the accompanying Advanced Placement examination given in May. If a student receives a 3, 4, or 5 on the AP exam it might be possible to:

1. Receive college credit for that particular AP course.
2. Be granted an exemption by the college or university from beginning courses.
3. Gain tuition savings – up to a year of credit may be given to students with qualifying grades.
4. Have time to explore undergraduate subject areas that the student would not otherwise be able to study.
5. Gain eligibility for honors and other special programs open to students who have received AP recognition.

The score reported on the AP examination, and each

college's AP policy, determine how the above benefits apply. For a current list of college AP policies, refer to: <http://collegesearch.collegeboard.com/apcreditpolicy/index.jsp>

Honors/Advanced Placement Eligibility and Procedures

Eligibility Criteria:

The following criteria shall apply to the determination of eligibility for Honors and Advanced Placement courses at High School North and South:

- Students who are currently in Advanced Placement and Honors courses can continue in that level as long as they are passing the course with a grade of 70 (C or better).
- Students who are currently in Honors and achieve a grade of 80 (B) can enroll in an Advanced Placement course
- Students who are in a College Prep course who achieve a grade of 80 percent or higher (A or B grade) are eligible to elect an Honors level course.
- Students who are in College Prep course, who achieve a grade of 90 percent (A) in a College Prep course are eligible to elect an Advanced Placement course
- Students enrolled in A&E Math and transitioning from 8th grade to 9th grade can continue in that level as long as they are passing the course with a grade of 70 (C or better).
- Pre-requisite courses will continue to be required as described in the program of studies.

A student who meets the above criteria shall be eligible for enrollment in the respective Honors or Advanced Placement course, but shall not be required to enroll in the course. Such a decision should be made only after consultation with appropriate parties, which may include the student, guidance counselor, parents, teacher, subject area supervisor and, in the case of a classified student, members of the IEP team. For students eligible to enroll under the above criteria, the final decision to do so is with the parents or, in the case of an adult student, the student him/herself.

Review Process:

- a) A student who does not meet the criteria for enrollment in a particular Honors or Advanced Placement course may request permission to enroll in such course, despite not meeting the criteria, by requesting an individual review of their particular circumstances.
- b) Reviews should be requested as soon as possible following communication of eligibility determinations to the student and his/her parents, but no later than April 1.
- c) In consultation with the parents, teacher, guidance counselor, subject area supervisor and such other professionals as the principal deems appropriate, an individual review shall consider the following performance data:
 - Standardized assessments such as PSAT, ERB and

- NJASK scores
 - Overall GPA
 - Mid-Year Common Assessment score
 - Department specific measures, e.g. math grades for science courses, DBQ (Document Based Question) for social studies, holistic essay score for LA and 1st two math grades
 - Third Marking Period grade (if available) or previous End of Year content area grade
- d) The final decision shall be made by the principal within 3 weeks of a request, but no later than April 15. The principal's decision shall be appealable to the Superintendent or his/her designated Assistant Superintendent, whose decision shall be final.
 - e) In the case of students who are classified as eligible for special education and related services, the individual review shall be conducted by the IEP team, with full participation by the parents and student in accordance with state and federal laws. The IEP team shall consider all information available to it, including but not limited to the criteria and circumstances set forth in this regulation, and determine the appropriate course placement for the student. If the parents disagree with the placement arrived at through the IEP process, they may file a request for mediation and/or a due process hearing in accordance with IDEA procedures.

Option ii Course Work

Option ii offers alternative paths to credits that meet or exceed the New Jersey Core Curriculum Content Standards and are based on student interest or career goals. Students may elect to apply for WW-P credit or WW-P credit and advancement of a course level through distance learning, college course work or course work taken outside WW-P. All learning opportunities as allowed by Option ii must be pre-approved by the Principal's Advisory Committee or certified by the principal under N.J.A.C. 6A:8-5.1(a) 1.ii. Several stipulations exist for students wishing to complete high school course work in an academic setting other than WPHS North and South. An overview of these requirements are as follows:

Option ii Courses Must be Pre-Approved: a completed Option ii approval form must be submitted along with syllabus/curriculum to the high school Principal's Advisory Committee. The student must have received approval prior to the first instructional meeting of the course. A completed online **Option ii Approval Form** must be submitted by May 1st for summer work, August 1st for the fall semester or January 1st for the spring semester.

Option ii Courses Must be from an Accredited Institution: the accreditation must be from a United States Department of Education recognized national, regional, specialized, and/or professional accrediting organization. For distance learning, the accreditation must be from a United States Department of Education recognized national, regional, specialized, and/or professional accrediting organization such as The Accrediting Commission of the Distance Education and Training Council.

Option ii Courses Must Meet NJ Core Curriculum

Content Standards: learning opportunities based upon specified instructional objectives must meet or exceed the NJ Core Curriculum Content Standards and be certified by the Principal. NJCCCS may be found here:

<http://www.state.nj.us/education/cccs/> Further, any option ii Advanced Placement course must be approved via an AP Audit conducted by the College Board.

Students Must Show Minimum Proficiency to Earn WW-P

Credit: a student must earn a minimum grade of a C (70%) in any option ii course and show proficiency on the designated WW-P assessment with a minimum grade of a C (70%) to earn WWP credit. If credit is awarded through Option ii, the student may not enroll in the equivalent WWPHS course. WWPHS North or South must receive an official transcript clearly showing successful completion of the course work. Final credits and a transcript grade will be awarded based on the number of instructional hours per week or by Principal certification.

Credit May be Earned for a Maximum of Two Courses in One Year (July 1- June 30)

Students May Not Take Consecutive Courses in a Sequence and/or Subject Area

The Following Subject Area Requirements Apply to All Option ii Coursework:

- World Language courses must include a regularly scheduled speaking component
- Science courses must include a regularly scheduled laboratory component
- Language Arts courses must include a regularly scheduled writing component
- Art/Music Courses must include the creation of a portfolio, including multiple works of art / music

All nontraditional courses (e.g. online) must include ongoing access between the instructor and student, as well as regular interaction for purposes of teaching, evaluating and providing assistance: This may include, for example, exchanging of emails between the student and teacher, online chats, phone calls, feedback on assignments, and the opportunity for the teacher to engage the student in individual instruction.

Successful Completion of an Option ii Course Does Not Guarantee Passing the WWP Equivalent Assessment: passing an option ii course does not guarantee that a student is well equipped to pass the equivalent district course assessment. Please be familiar with the WW-P curriculum of the content equivalent course and recognize, based on recent statistics, that not all students pass the district final exam. Please check the district web site at www.ww-p.org under guidance / option ii for assessment statistics and under departments / curriculum / curriculum documents for content area curriculums by course.

Students Should Appropriately Pace themselves to

Complete Option ii Courses: in order to sit for any necessary WW-P assessments, earn appropriate credits, complete graduation requirements and make needed schedule changes, students should complete summer option ii courses by August 15th, fall courses by January 15th and spring courses by May 15th.

Course Extensions Will Not Be Granted by WWP: the district will not grant extensions for option ii courses. All courses must be completed in the time specified by the educational service provider.

Students May Take a Higher Level Option ii Course: provided they met the criteria for that level course during the regular academic school year. For example, if a student qualified for an honors course by way of their semester one course average, or through the review process during the regular academic year, they may take an honors level option ii course in the summer.

Option ii Course Work Cannot Begin Until a Student has Successfully Completed 8th grade

Successful Completion of an Option ii Course Does Not Guarantee Placement: passing an option ii course, as well as the WW-P final exam in that course, does not guarantee that a seat will be available in the next course. It is possible for an option ii student to not have a seat in the next sequential course due to master schedule limitations.

NCAA Clearinghouse Rules have changed with regards to software based credit recovery, virtual, online, independent study and correspondence courses effective August 2010: These types of courses, which are identified by the NCAA Eligibility Center as nontraditional courses, must meet new guidelines in order to be used for college-bound student athletes who are planning to attend an NCAA Division I college or university. Please visit www.eligibilitycenter.org

Recording of Non-Traditional Coursework on the WWPHS Permanent Record (Transcript):

Students who have pursued non-traditional options for completing course work outside the parameters of the academic day, which have been approved for high school credit, will have said coursework listed on the high school transcript. The transcript will denote:

1. Name of course;
2. Institution - school/college/university where the coursework was taken;
3. Grade issued by the institution (WWPHS equivalent);
4. Credit issued by institution (at a maximum rate 35 hours per credit) **or** as certified by the principal.
5. Coursework will **not** count towards WGPA or GPA unless there is a formal articulation agreement between that institution and WWPHS.

Routes for Obtaining a State Endorsed HS Diploma

- 1. Traditional Route – 120 Credits in Four Years.**
- 2. Traditional Route – Early Graduation Option.**
(Fulfill the traditional 120-credit graduation requirement in 3 years rather than 4.)
- 3. Traditional Route – Early Departure Option.**
Withdraw from high school early if accepted into college without a high school diploma. Students could then apply college credit back in order to fulfill the traditional 120-credit requirement. The diploma would be awarded after official transcripts from the college are received and verified by the Director of Guidance and Principal if certification is required.
- 4. Alternate Route - 30 College Credits Option.**
In order for an individual to apply and qualify for a state-endorsed high school diploma through the 30 college credit route, all of the following requirements must be completed (N.J.A.C. 6:30-1.3):
 - *Statewide Assessment Test:* Documentation of passing scores on the statewide assessment (HSPA) must be presented.
 - *Transcript:* An official transcript, including at least thirty (30) general education credits leading to a degree at an accredited institution of higher education including a minimum of 15 credits with at least three credits in each of the five general education categories as follows: communications, mathematics, science, social science; and humanities must be presented. Remedial courses will not satisfy the requirement in the five general education categories.
 - *Application Form:* An application can be obtained by writing to the New Jersey State Department of Education, Office of Vocational-Technical, Career and Adult Programs, Bureau of Adult Education & Family Literacy, P.O. Box 500, Trenton, NJ 08625-0500.
 - *Verification of Age and Withdrawal from School:* Documentation of age and withdrawal from school must be presented by individuals who are 16 and 17 years of age. All of the above must be submitted to the Director of Guidance along with a check or money order for \$5 made payable to the Commissioner of Education.
- 5. Adult High School Option**
To qualify for a local district diploma, a student may elect to attend and graduate from an adult high school. Adult high schools are schools which offer supervised instruction in the day or evening and allow adults to complete the requirements for a diploma. Students must pass the statewide assessment in effect at the time they meet all other graduation requirements.

- 6. General Ed. Development Diploma (GED)**

To qualify for a GED, the student must withdraw and obtain a passing score on the General Educational Development (GED) test if 16 or older and no longer enrolled in school (N.J.A.C. 6:30-1.3(a) 1). GED's can be obtained via adult or night school.

Student Assessments

1. Beginning in the 2014-2015 school year, 11th grade students will be required to successfully complete the Partnership for Assessment of Readiness for College and Career (PARCC) exam, which will replace the HSPA. More information regarding PARCC may be found at <http://www.parcconline.org> All WWPHS students enrolled in a course designed to complete the content of Biology are required to take the New Jersey Biology Competency Test (NJBCT).
2. In addition to state and district mandated assessments, other evaluations are used to determine student proficiency in core curriculum content areas. These assessments may identify students who are not yet proficient in designated curricular areas. Also, the use of multiple indicators of a student's performance validates the student's need for additional assistance.
3. Standardized College Admissions testing is recommended for students wishing to pursue post secondary education. The College Board and ACT offer national testing programs from September through June. WW-P offers the SAT, SAT Subject Tests and ACT on site. For information about SAT testing dates and locations, go to <http://www.collegeboard.com/> . Information about ACT test centers and dates can be found at www.actstudent.org. The Preliminary Scholastic Aptitude Test/National Merit Scholarship Qualifying Test (PSAT/NMSQT) is a school-based test administered in the WW-P district only one Wednesday each year.

Course Descriptions

Art Department

These courses provide students with pre-professional and vocational art-skill development.

Please note: Students who require a portfolio for admission to architecture or art major studies should complete the full four-year sequence.

Art Foundation (Art I) **ARD100V**
Grades: 9-12 5 credits YR
Prerequisite: None

This course will teach skills in drawing with pencil, charcoal and ink. Sculpture and clay building techniques will be taught as well as learning to throw on a wheel. This course is designed to fulfill the fine arts graduation requirement. Students taking this course will receive a firm grounding in the elements of art as well as experience in drawing and painting for observation. Watercolor and acrylic painting techniques, linoleum block printmaking and three-dimensional form will be explored. This course is required as a prerequisite for all semester art courses with the exception of Photography, Ceramics and Sculpture.

Art Studio – Drawing I **ARD110V**
Grades: 10-12 2.5 credits SM
Prerequisite: Art Foundation (Art I)

Students with an interest in developing strong drawing and rendering skills should take this course. Drawing from observation of the three-dimensional form will be taught as well as drawing from the imagination. Media covered in this course will be pencil, charcoal, ink and graphite. This course will prepare students for competitive portfolios for art schools and colleges. Students who are considering taking AP Studio Art in their senior year should elect this course.

Art Studio – Painting I **ARD112V**
Grades: 10-12 2.5 credits SM
Prerequisite: Art Foundation (Art I)

Students with a serious interest in painting and color theory should elect this course. Media used in this course will be pastel, watercolor and acrylic paint. Students will paint from a model with a strong emphasis on light and shade. Students considering art competitions and advanced portfolios should elect this course. Students who are considering AP Studio Art in their senior year should elect this course.

Art Studio – Drawing II **ARD120V**
Grades: 10-12 2.5 credits SM
Prerequisites: Art I & Drawing I

Students with a serious interest in advanced drawing should elect this course. Emphasis will be placed on the unique

composition. Students will explore reflection, transparency, repetition and other advanced drawing problems as well as understanding the power of the unique viewpoint. Drawing skills will be perfected to prepare student portfolios for drawing competitions and advanced portfolios for art schools and colleges. Students who are considering AP Studio Art are strongly advised to elect this course.

Art Studio – Painting II **ARD122V**
Grades: 10-12 2.5 credits SM
Prerequisites: Art I & Painting I or by portfolio

This course will provide a strong background in color theory. Advanced skills in watercolor and acrylic painting will be taught. A strong emphasis will be on developing a painting based on individual student interest. This course will be an appropriate choice for portfolio development for colleges and art schools.

Ceramics **ARD130V**
Grades: 10-12 2.5 credits SM
Prerequisite: None

This course will provide students with skills in slab, coil and mold methods of building sculpture and containers. Instruction in the use of wheel-thrown pottery will be provided. This course may be used as a basis for work on an advanced level of sculpture. Work completed in this course may be used for the three-dimensional portion of the art portfolio for colleges and professional art schools.

Sculpture **ARD132V**
Grades: 10-12 2.5 credits SM
Prerequisite: None

This course will cover additive and subtractive forms of sculpture. Media used will be wire, clay, plaster, stone, found objects, paper and wood. Students will become acquainted with production of plaster molds from a clay form and various forms of sculpture construction. Sculpture produced in this course may be considered for the three-dimensional portion of the art portfolio for colleges and art schools.

Printmaking I **ARD140V**
Grades: 10-12 2.5 credits SM
Prerequisite: None

This course will provide a survey of various forms of printmaking. Block printing will be explored in terms of black and white and reduction printing and multiple blocks. Positive and negative space, repetition and various graphic design skills will be taught. Students will experiment with a variety of monotype techniques. Students will be encouraged to develop their individual aesthetic concerns in relation to their prints. Work completed in this course will satisfy advanced media portfolio requirements.

Book and Paper Arts **ARD142V**
Grades: 10-12 2.5 credits SM
Prerequisites: Art I & Printmaking I

This course will explore advanced printmaking techniques in etching, aquatint and silkscreen. Students will become familiar with historical and contemporary printmakers working in these mediums. Multi-colored etchings and silk screens will be another focus of this course. Students will utilize advanced color theory and mixing. Work produced in this course will satisfy advanced media portfolio requirements.

Computer Art & Design I **ARD150V**
Grades: 10-12 2.5 credits SM
Prerequisite: Art I

This course is a survey of graphic design with computer-generated images. Students will be introduced to primary concepts in computer graphics and will be required to solve basic design problems. This course is an appropriate choice for portfolio development for a graphic designs portfolio for college or art school. Students may wish to use skills learned in this course to enter a printing profession from high school.

Computer Art & Design II **ARD152V**
Grades: 10-12 2.5 credits SM
Prerequisites: Art I & Computer Art & Design I

This course provides students with a background in graphic design programs on the computer. Students will work with more advanced compositions, design exploration and experimentation. A computer-generated portfolio will be produced that will include 2-D designs, advertisements and manipulated images. This course is an appropriate choice for students who wish to present a graphic design portfolio for admission into a strong graphic design program in an art school or college.

Photography I **ARD160V**
Grades: 10-12 2.5 credits SM
Prerequisite: None

This introductory semester course will concentrate on the composition and aesthetics of photography. Students will be provided the basics of black and white photography. Students will be given a survey of photographic history and will learn the techniques of composition. This course will provide students with the technical background required to develop film and to produce a print.

Photography II **ARD162V**
Grades: 10-12 2.5 credits SM
Prerequisite: Photography I

This course is designed to assist students to perfect their skills in black and white photography. Students will build on the techniques learned in Photography I. Emphasis will be placed on the individual interests of the student photographer. Critiques will help students to discuss their ideas, intent and technical as well as aesthetic results. Work produced in this course may be used in Computer Art & Design II PhotoShop.

AP Studio Art **ARD175V**
Grade: 12 5 credits YR
Prerequisites: 3 years of art courses including Art Foundation and Drawing & Painting I

This course is comparable in content and difficulty to a freshman level college course. Students will produce a portfolio of artwork following the AP Portfolio Guidelines including a concentration essay and twenty pieces of independent artwork investigating a particular theme or visual idea. Students are strongly encouraged to submit their portfolios for review by the Advanced Placement Panel.

AP Art History **ARD185V**
Grades: 11-12 5 credits YR
Prerequisites: Evidence of academic mastery in the liberal arts & departmental recommendation

AP Art History places the study of art into the mainstream of the humanities. It provides students with the experience of looking at art and understanding the intention, purpose and style characteristics of each historical period from that of the cave dwellers to the contemporary world. Writing in the art history course allows students to display a grasp of factual knowledge and an ability to synthesize and arrange ideas into concise unified essays. AP Art History is a rigorous academic course that will prepare the committed students for the advance placement examination. Students are strongly encouraged to take the AP examination.

Business/Computer Science Department

Accounting I **CBD150C**
Grades: 9-12 5 credits YR
Prerequisite: None

Accounting I will introduce students to the field of accounting. Study focuses on the understanding of accounting and the accounting cycle, and the accounting subsystems and special procedures. Students will complete related accounting applications using a computer. The course provides students with the knowledge and skills necessary to prepare them for the further study of accounting or to obtain a basic entry-level position. Accounting I does not satisfy the high school graduation requirement for one year of mathematics.

Accounting II **CBD160C**
Grades: 10-12 5 credits YR
Prerequisite: Accounting I

Accounting II is an advanced course designed to provide a better understanding of the accounting cycle. Study focuses on managerial accounting covering the internal uses of accounting data and financial accounting covering the external uses of accounting data. Students use a computer to perform a variety of related accounting procedures. The course will provide a foundation of content for the student who wishes to pursue further studies at the college level or to obtain a basic entry-level position.

Accounting III **CBD170C**
Grades: 11-12 5 credits YR
Prerequisite: Accounting II

Accounting III is a comprehensive course designed for students who are preparing for a career in business. Study will concentrate in the advanced areas of responsibility in accounting, cost accounting, budgeting and internal reporting, accounting for assets and liabilities, accounting for partnerships and corporations, and financial reporting and analysis. Students use a computer to perform a variety of advanced accounting procedures.

Computer Applications **CBD100C**
Grades: 9-12 2.5 credits SM
Prerequisite: None

This course provides an in-depth investigation of the software packages Microsoft Word, Excel, PowerPoint and Explorer. Additional instructions in the Windows environment, including program management will be covered. The assignments will be project based and help students to apply appropriate technologies to school or business problems. Students will work on advanced problems with business and real world applications.

Integrated Computer Applications **CBD102C**
Grades: 9-12 2.5 credits SM
Prerequisite: Computer Applications

Integrated Computer Applications is the advanced study of previously covered software applications as well as the integration of these applications. Assignments will emphasize computing in a multi-user environment.

Graphic Computer Applications I **CBD200V**
Grades: 9-12 2.5 credits SM
Prerequisite: None

This course will cover several application programs upon which graphics are based and emphasized from paper publishing to web page publishing. The curriculum will cover skills using applications programs such as drawing/painting software, photo editing software and desktop publishing.

Graphic Computer Applications II **CBD202V**
Grades: 9-12 2.5 credits SM
Prerequisite: Graphic Computer Applications I

Graphic Computer Applications II is the advanced study of skills used in computer graphic software. Students will learn to utilize appropriate software in the creation of web pages, and graphic designs. Applications programs such as Photoshop, Illustrator and Dreamweaver will be utilized.

Digital Media **CBD210C**
Grades: 10-12 5 credits YR
Prerequisite: Graphic Computer Applications II

This course is an in-depth study of current digital media technologies. Topics include but are not limited to 2D graphic

design, advanced graphic techniques, digital video, sound recording, sound editing and 2D vector animation. An in-depth look at web design using modern HTML5 development techniques and common Content Management Systems is also included.

Intro to Computer Programming I **CBD220**
Grades: 9-12 2.5 credits SM
Prerequisite: Algebra I

Computer Programming I offers an introduction to structured computer programming in Java. Topics include computer systems components, introduction to writing programs, using loops and logical operations and designing and writing programs in structured form using modular design. Within the two-course sequence (I & II), students will apply communications and data analysis to the problem-solving and decision making processes in a variety of life situations. These courses foster the computer programming skills necessary for an effective transition into the workplace and/or postsecondary education. The career clusters of information technology, technology, computer engineering, audio/video technology and mathematics are addressed. Requirements for students include individually designed programs that require student commitment to time spent outside the classroom.

Intro to Computer Programming II **CBD222**
Grades: 9-12 2.5 credits SM
Prerequisite: Intro to Comp. Prog. I & Algebra I

Computer Programming II offers a continuation of content and procedures introduced in Computer Programming I. Problem-solving and decision making processes in a variety of life situations are again stressed throughout the course. Topics include data structure, searching and sorting, text files and graphics and sound. Requirements for students include individually designed programs that require student commitment to time spent outside the classroom.

Artificial Intelligence & Robotics Honors **CBD235**
Grades: 10-12 5 credits YR
Prerequisite: 1 yr. of computer programming

It is the goal of this course to study artificial intelligence as it applies to today's technology and to instill an understanding of knowledge acquisition, machine learning, artificial perception and action, and intelligent automation. Through the use of computer programs in various languages including Visual Basic and Java, students will be responsible for the development of advanced computational and robotic systems, aiming at a partial emulation of human intelligence. Students will also study designing and building logic boards, and programming computer chips. There will be culminating projects including designing and building robots that can discover and remember a path through a maze, find the shortest path between multiple objects and play a game. This course is part of a four-year programming sequence.

AP Computer Science A **CBD245**
Grades: 10-12 5 credits YR
Prerequisites: Geometry & Comp. Prog. II

Advanced Placement Computer Science A offers a second year of study in program design using a structured programming language. Input and output techniques, functions, and use of classes and objects will be studied using Java. Requirements for students in this course include individually designed programs that involve a time commitment outside the classroom. The curriculum offers the student preparation for the AP Computer Science A exam. Students are strongly encouraged to take the AP examination.

Advanced Topics in Computer Science Honors **CBD255**
Grades: 11-12 5 credits YR
Prerequisites: AP Comp. Science A & Alg. II

Advanced Topics in Computer Science is the second course of a two year college level sequence in program design, implementation, and testing. It is designed for students who have successfully completed AP Computer Science A. The course extends the concepts of AP Computer Science, incorporating such topics as recursion, algorithm efficiency, data structures, sorting and searching, networking, graphical user interfaces, security, robotics, artificial intelligence, and parallel programming.

Health & Physical Education Department

Physical Education 9, 10, 11, 12 **PED009,PED010,
PED011, PED012**
Grades: 9-12 3.75 credits 3 QT
Prerequisite: None

The physical education program dedicates its efforts to provide an environment in which students can participate in meaningful and enjoyable activities. The activities may be team-oriented so that the students learn to observe rules; share a competitive spirit; accept each other's strengths and shortcomings; foster an appreciation of sport as its own entity; learn to follow rules and regulations; become aware of safety procedures; develop an awareness and acceptance of their own abilities; and recognize that many of these skills can be utilized in post-school years. In addition, the students may also participate in activities such as Project Adventure, aquatics, rhythmic experiences, and individual and dual sports.

As a major component, fitness activities will be fostered by all other elements of the program, and by specific training in aerobics and strength developing activities. An emphasis will be placed upon improving the student's physical conditioning, as well as developing a positive attitude toward the importance of remaining physically fit for life.

The freshman physical education program will concentrate on team sports and will include conflict resolution skill training for students. The core of the sophomore program will consist of Project Adventure, and the junior and senior physical education programs will emphasize lifetime activities at the

individual, dual, and team levels. During all four years, physical fitness will be stressed. The program's activities will be coeducational, as mandated by federal Title IX and New Jersey Title VI.

Health Education 1, 3, 4 **PED001, PED003, PED004**
Driver's Education 2 **PED002**
Grades: 9-12 1.25 credits QT
Prerequisite: None

During one marking period each year, every student is required to take a health course (9, 11, and 12) or driver education (10). These courses replace the physical education class and are taught by the student's health education teacher. The health and physical education grades are separate and will not be averaged together. Therefore, a student must receive a passing grade in both health AND physical education.

The physical education grade will be an average of the three marking periods, while the health grade will reflect only one marking period. By state regulations, a student must pass four (4) years of physical education and health. All sophomores are required to participate in Project Adventure when assigned.

Physical education and health are courses required by the State of New Jersey and must be passed each year. If a student fails physical education and/or health for the year he/she is strongly encouraged to take and pass the course in summer school.

Fundamentals of Sports Medicine **PED020**
Grades: 10-12 5 credits YR
Prerequisite: None

This elective course introduces the student to the allied health care fields involving athletic participation at all levels. Students will analyze measures in preventing injury through strength, conditioning and nutritional methods.

Students will develop skills through text, visual aids and supplemental materials to identify injuries and understand the human body's response to injuries, specific treatments and rehabilitation techniques that are used in various allied health care fields. This course will provide students with the necessary knowledge and certifications to seek community service opportunities in health care settings, such as the student athletic training program, emergency medical services, and entry-level college/university degree programs in allied health care fields. Please note that students will be required to attend one practice or game per semester (outside of school hours) to obtain a visual understanding of human movement and injury mechanics.

Language Arts Department

LA Program Requirements

Grade 9: LA I or LA I HNS

Grade 10: LA II or LA II HNS

Grade 11: AP Language & Composition, LA III or LA III HNS

Grade 12: AP Literature & Composition or AP Language & Composition or two semester classes from the below list.

Art of the Essay (CP or HNS)
Pol. & Govt. in Lit. (CP or HNS)
Rebellion & Conformity (CP or HNS)
Passport to World Lit. (CP or HNS)
Gender Roles in Lit. (CP or HNS)
Monsters in Lit. (CP or HNS)
Search for Self in Lit. (CP or HNS)
Shakespeare (CP or HNS)
Art of the Short Story
Art of Poetry

Please note:

Any class of 2015 student who does not take AP Literature & Composition or AP Language & Composition must take the Art of the Essay class and one of the semester classes listed above.

Language Arts I		LAD100
Grade: 9	5 credits	YR
Prerequisite: None		

Language Arts I provides rigorous instruction in all aspects of language skills, including reading, writing, speaking, listening, viewing, and thinking. Students are introduced to formal expository writing, placing an emphasis on inferential and analytical thinking. The course is divided into four sequential thematic units through which the students explore a variety of literary genres, such as short stories, novels, biographies, drama, essays, and poetry. Each unit integrates literary study, the writing process, grammar, mechanics, and vocabulary.

Language Arts I Honors		LAD105
Grade: 9	5 credits	YR
Prerequisite: IRLA 8		
Course Criteria: Minimum 80% Sem. 1 Course Avg. in Grade 8 IRLA		

The LA I Honors curriculum involves more reading and writing, literary analysis, and careful exploration of style and thought than LA I. Students should develop higher-level reading, writing, speaking, listening, viewing, and thinking skills and write skillful and analytical essays throughout the year. As with LA I, students are introduced to formal expository writing and an emphasis is placed on the development of inferential thinking. Such literary genres as short stories, novels, biographies, drama, essays and poetry are explored. Language study also includes

vocabulary, grammar, mechanics, usage, self and peer editing. The writing process is incorporated into each literary genre. However, at the HNS level, students will examine these areas in greater depth.

Language Arts II		LAD200
Grade: 10	5 credits	YR
Prerequisite: LA I		

Language Arts II introduces the student to representative works of American writers who reflect the enduring traditions and styles of American Literature. Students continue the study of vocabulary, grammar, mechanics and usage. The development of writing skills is a high priority for students. The essay and expository writing forms are studied and correlated with skills in organization and logic.

Language Arts II Honors		LAD205
Grade: 10	5 credits	YR
Prerequisite: LA I		
Course Criteria: Minimum 80% Sem. 1 Course Avg. in LA I or 70% in LA I Honors		

LA II Honors is a challenging, course that introduces the student to representative works of American writers who reflect the enduring traditions and styles of American literature. Students continue the study of vocabulary, grammar, mechanics and usage. The development of writing skills is a high priority for students. The essay and expository writing forms are studied and correlated with skills in organization and logic. However, at the HNS level, students will examine these areas in more depth.

Language Arts III		LAD320
Grade: 11	5 credits	YR
Prerequisite: LA II		

LA III introduces the student to representative works of literature from around the world that reflect enduring traditions and universal themes. Students will also study informational text that illuminates and enhances their understanding of the literature. The development of writing skills is a high priority for LA III students as they prepare for college and the workplace. Students will continue the study of vocabulary, grammar, mechanics and usage as it relates to the reading and analysis of complex text and the writing of arguments, informative/explanatory essays and narratives.

Language Arts III Honors		LAD325
Grade: 11	5 credits	YR
Prerequisite: LA II		
Course Criteria: Minimum 80% Sem. 1 Course Avg. in LA II or 70% in LA II Honors		

LA III HNS introduces the student to representative works of literature from around the world that reflect enduring traditions and universal themes. Students will also study informational text that illuminates and enhances their understanding of the literature. The development of writing skills is a high priority for LA III HNS students as they prepare for college and the workplace. Students will continue

the study of vocabulary, grammar, mechanics and usage as it relates to the reading and analysis of complex text and the writing of arguments, informative/explanatory essay and narratives. At the HNS level, students will examine the components of literacy in more depth.

Language Arts IV - Art of the Essay LAD300
Grades: 12 2.5 credits SM
Prerequisite: LA III

The Art of the Essay is a course designed to prepare students to write for a variety of real audiences and purposes. The course promotes the use of the writing process while addressing such forms as persuasive, expressive, research and reflective writing. Students will be engaged in a variety of writing activities including timed and untimed writing, conferencing and revising and editing. At the end of this course students will have the tools to continue to write in meaningful and purposeful ways addressing lifelong writing situations. Students who take AP Literature or AP Language are not required to take this course (or its honors equivalent).

Language Arts IV - Art of the Essay Honors LAD305
Grades: 12 2.5 credits SM
Prerequisite: LA III
Course Criteria: Minimum 80% Sem. 1 Course Avg. in LA III or 70% in LA III Honors

The Art of the Essay Honors is a more challenging course designed to prepare students to write for a variety of real audiences and purposes. The course promotes the use of the writing process while addressing such forms as persuasive, expressive, research and reflective writing. Students will be engaged in a variety of writing activities including timed and untimed writing, conferencing and revising and editing. At the end of this course students will have the tools to continue to write in meaningful and purposeful ways addressing lifelong writing situations. Students who take AP Literature or AP Language are not required to take this course (or its honors equivalent).

Language Arts IV - The Art of Poetry LAD330
Grades: 12 2.5 credits SM
Prerequisite: LA III

The Art of Poetry is a course designed to engage the student in reading and writing poetry. The course will promote an understanding and appreciation of poetry. Students will read, analyze, listen to, and compose a variety of poems while focusing on the course's essential questions. At the end of this course students will have the tools to read, write, and appreciate poetry.

Language Arts IV - Art of the Short Story LAD350
Grades: 12 2.5 credits SM
Prerequisite: LA III

The Art of the Short Story is a course designed to allow students to discover the appeal and the structural elements of the short story. Since all the basic elements of literature can be found in short stories, this course will serve as a guide to

literary analysis and to creative and responsive writing. Students will be presented with a wide variety of stories while focusing on the course's essential questions. They will read the text and analyze both the story and the tools the author used to create the work. In addition, the students will write their own short stories. At the end of this course, students will have the tools necessary to read, analyze, evaluate, and respond in writing to short stories and novels.

Language Arts IV - Pol. and Govt. in Lit. LAD370
Grades: 12 2.5 credits SM
Prerequisite: LA III

Politics and Government in Literature is a course designed to challenge students to use literature to examine the volatile political world around them. "Those who do not understand the past are doomed to repeat it" will become more than just a saying as students examine novels, short stories, plays, essays, poetry, journals and films focusing on the course's essential questions. Students will engage in reading, self-reflection, analytical, and creative writing. At the end of this course, students will have the tools to understand and analyze, through literature, the overreaching influence politics plays in many aspects of their lives.

LA IV – Pol. and Govt. in Lit. Honors LAD375
Grades: 12 2.5 credits SM
Prerequisite: LA III
Course Criteria: Minimum 80% Sem. 1 Course Avg. in LA III or 70% in LA III Honors

Politics and Government in Literature Honors is a more demanding course designed to challenge students to use literature to examine the volatile political world around them. "Those who do not understand the past are doomed to repeat it" will become more than just a saying as students examine novels, short stories, plays, essays, poetry, journals and films focusing on the course's essential questions. Students will engage in reading, self-reflection, analytical, and creative writing. At the end of this course, students will have the tools to understand and analyze, through literature, the overreaching influence politics plays in many aspects of their lives.

LA IV - Rebellion and Conformity in Lit. LAD380
Grades: 12 2.5 credits SM
Prerequisite: LA III

Rebellion and Conformity in Literature is a course designed to expose students to literature which allows them to question and define their increasing roles in society, assist them in determining the costs and rewards of their choices and actions as they are poised to enter adulthood. The literature will reveal the confrontation and struggle against established authority, such as parents, teachers, government, and peers. The course requires students to examine novels, short stories, plays, poetry, essays, and films focusing on the course's essential questions. Students will engage in reading, self-reflection, analytical, and creative writing. At the end of this course, students will have the tools to question and determine the personal and societal cost of rebellion and conformity.

LA IV - Rebellion and Conformity in Lit. HNS LAD385

Grades: 12 2.5 credits SM

Prerequisite: LA III

Course Criteria: Minimum 80% Sem. 1 Course Avg. in LA III or 70% in LA III Honors

Rebellion and Conformity in Literature Honors is a more challenging course designed to expose students to literature which allows them to question and define their increasing roles in society, assist them in determining the costs and rewards of their choices and actions as they are poised to enter adulthood. The literature will reveal the confrontation and struggle against established authority, such as parents, teachers, government, and peers. The course requires students to examine novels, short stories, plays, poetry, essays, and films focusing on the course's essential questions. Students will engage in reading, self-reflection, analytical, and creative writing. At the end of this course, students will have the tools to question and determine the personal and societal cost of rebellion and conformity.

LA IV - Passport to World Literature LAD400

Grades: 12 2.5 credits SM

Prerequisite: LA III

Passport to World Literature (World Passport) is a course designed to teach students what culture is and what a cultural interpretation of literature is. First, students will examine the characteristics of their own culture. Then, as they examine the culture of each piece of literature, they will learn to separate their perception of culture from the author's. The students will be required to examine novels, short stories, plays, poetry, and films focusing on the course's essential questions. At the end of the course, students will have the tools to define culture and be able to approach literature from both a literary and a cultural perspective.

LA IV - Passport to World Literature Honors LAD405

Grades: 12 2.5 credits SM

Prerequisite: LA III

Course Criteria: Minimum 80% Sem. 1 Course Avg. in LA III or 70% in LA III Honors

Passport to World Literature Honors (World Passport Honors) is a more challenging course designed to teach students what culture is and what a cultural interpretation of literature is. First, students will examine the characteristics of their own culture. Then, as they examine the culture of each piece of literature, they will learn to separate their perception of culture from the author's. The students will be required to examine novels, short stories, plays, poetry, and films focusing on the course's essential questions. At the end of the course, students will have the tools to define culture and be able to approach literature from both a literary and a cultural perspective.

LA IV - Gender Roles in Literature LAD410

Grades: 12 2.5 credits SM

Prerequisite: LA III

Gender Roles in Literature (He Said, She Said) is a course designed to challenge students to use literature to recognize

and understand the shifting perceptions of gender roles and how those assumptions have an impact on our lives. Students will engage in close reading, self-reflection and analytical writing. This course requires students to examine novels, short stories, plays, poetry, essays, and films focusing on the course's essential questions. At the end of this course, students will have the tools to analyze, discuss, and write about literature which reflects the theme of evolving gender roles.

LA IV - Gender Roles in Literature Honors LAD415

Grades: 12 2.5 credits SM

Prerequisite: LA III

Course Criteria: Minimum 80% Sem. 1 Course Avg. in LA III or 70% in LA III Honors

Gender Roles in Literature Honors (He Said, She Said Honors) is a more demanding course designed to challenge students to use literature to recognize and understand the shifting perceptions of gender roles and how those assumptions have an impact on our lives. Students will engage in close reading, self-reflection and analytical writing. This course requires students to examine novels, short stories, plays, poetry, essays, and films focusing on the course's essential questions. At the end of this course, students will have the tools to analyze, discuss, and write about literature which reflects the theme of evolving gender roles.

Language Arts IV - Monsters in Literature LAD430

Grades: 12 2.5 credits SM

Prerequisite: LA III

Monsters in Literature (The Monster Show) is a course designed to challenge the students' perception of man's dual nature and the concepts of good and evil. Students will study how a variety of authors and filmmakers have translated these theories into "flesh". Students will examine novels, short stories, plays, poetry, essays, and films focusing on the course's essential questions. Students will engage in reading, self-reflection, and analytical or creative writing. At the end of the course, students will have the tools to formulate and justify their own depiction of monstrosity in all its complexity.

LA IV - Monsters in Literature Honors LAD435

Grades: 12 2.5 credits SM

Prerequisite: LA III

Course Criteria: Minimum 80% Sem. 1 Course Avg. in LA III or 70% in LAIII Honors

Monsters in Literature Honors (The Monster Show Honors) is a more demanding course designed to challenge the students' perception of man's dual nature and the concepts of good and evil. Students will study how a variety of authors and filmmakers have translated these theories into "flesh". Students will examine novels, short stories, plays, poetry, essays, and films focusing on the course's essential questions. Students will engage in reading, self-reflection, and analytical or creative writing. At the end of the course, students will have the tools to formulate and justify their own depiction of monstrosity in all its complexity.

Language Arts IV - Shakespeare **LAD440**
Grades: 12 2.5 credits SM
Prerequisite: LA III

Shakespeare (Much Ado About Something) is a course designed to challenge students to examine the universality of Shakespeare's works. The course requires students to read and perform Shakespeare's plays, analyze his works, and view both films and live drama focusing on the course's essential questions. Students will engage in reading, self-reflection, analytical, and creative writing. At the end of this course, students will have the tools to better understand the relevance and art of Shakespeare's works to both modern society and their lives.

Language Arts IV - Shakespeare Honors **LAD445**
Grades: 12 2.5 credits SM
Prerequisite: LAIII
Course Criteria: Minimum 80% Sem. 1 Course Avg. in LA III or 70% in LA III Honors

Shakespeare (Much Ado About Something) Honors is a more demanding course designed to challenge students to examine the universality of Shakespeare's works. The course requires students to read and perform Shakespeare's plays, analyze his works, and view both films and live drama focusing on the course's essential questions. Students will engage in reading, self-reflection, analytical, and creative writing. At the end of this course, students will have the tools to better understand the relevance and art of Shakespeare's works to both modern society and their lives.

LA IV - Search for Self in Literature **LAD450**
Grades: 12 2.5 credits SM
Prerequisite: LA III

Search for Self in Literature (The Search for Self) is a course designed to challenge students to use literature to examine who they are as individuals and as members of society. The course requires students to examine novels, short stories, plays, poetry, essays, and films focusing on the course's essential questions. Students will engage in reading, self-reflection, analytical, and creative writing. At the end of this course, students will have the tools to better understand themselves and literature as a vehicle to illuminate life's journey.

LA IV - Search for Self in Literature Honors **LAD455**
Grades: 12 2.5 credits SM
Prerequisite: Successful completion of LAIII
Course Criteria: Minimum 80% Sem. 1 Course Avg. in LA III or 70% in LA III Honors

Search for Self in Literature Honors (The Search for Self Honors) is a more demanding course designed to challenge students to use literature to examine who they are as individuals and members of society. The course requires students to examine novels, short stories, plays, poetry, essays, and films focusing on the course's essential questions. Students will engage in reading, self-reflection, analytical, and creative writing. At the end of this course, students will have

the tools to better understand themselves and literature as a vehicle to illuminate life's journey.

AP Language and Composition **LAD510**
Grades: 11-12 5 credits YR
Prerequisites: LA II or LAII HNS
Course Criteria: Minimum 90% Sem. 1 Course Avg. in LA II or 80% in LA II Honors

Students in grade 11 or 12, who meet the prerequisites, may select AP Language and Composition to fulfill the English requirement during the junior or senior year. The course is conducted at a college level. Only students who have read widely and enjoy analytical reading should select this course.

AP Language and Composition is designed to prepare the student for the CEEB Advanced Placement test. Following the recommended course of study from the College Board, the course emphasizes expository, analytical and argumentative writing. Students will read complex texts with understanding and write prose using content, purpose and audience as a focal point for organization. Students are strongly encouraged to take the AP examination.

AP Literature and Composition **LAD515**
Grade: 11 - 12 5 credits YR
Prerequisites: AP Language and Composition or Art of the Essay or Art of the Essay HNS and one other semester course.
Course Criteria: Minimum 70% Sem. 1 Course Avg. in AP Lang or 80% final grade in Semester LA III Honors or 90% final grade in first semester LA III.

Students in grade 12, who meet the prerequisites, may select AP Literature and Composition to fulfill the English requirement during the senior year. The course is conducted at a college level. Only students who have read widely and enjoy analytical reading should select this course.

AP Literature and Composition is designed to prepare the student for the Advanced Placement test. Following the recommended course of study from the College Board, the course offers the study of fiction, poetry, and drama with a high degree of incisiveness and penetration. Writing, mainly exposition, forms a significant part of the course work. Students are strongly encouraged to take the AP examination.

Reading **LAD520**
Grades: 9-11 2.5 credits SM
Prerequisite: Students who have not met state and district minimal levels of proficiency in reading are required to enroll in Reading

Reading provides individualized and group attention for students in need of basic skills instruction, English as a second language, and developmental reading opportunities. Units of study are designed to promote the development of critical reading, writing and communication skills in narrative, persuasive, work place, and informational texts. Literature is selected as appropriate to student needs.

Reading AHSA**LAD531**

Grade: 12 2.5 credits SM
 Prerequisite: Senior students who have not met state and district minimal levels of proficiency in reading are required to enroll in Reading AHSA

Seniors who have not passed the Reading portion of the HSPA are required to enroll in Reading AHSA in order to receive the necessary services and instruction. Students enrolled in this class must successfully complete the October HSPA or the AHSA process with further testing on designated dates in order to be eligible for high school graduation.

Alternate High School Assessment (AHSA) provides individualized and group attention for students in need of basic skills instruction, English as a second language, and developmental reading opportunities. Units of study are designed to promote the development of critical reading, writing and communication skills in narrative, persuasive, work place, and informational texts. Literature is selected as appropriate to student needs.

Broadcast Writing**LAD600C**

Grades: 9-12 5 credits YR
 Prerequisite: None

Students with a genuine interest in the art and techniques of broadcasting will learn production, performance and writing for television and radio. The “hands on” course involves working with video and audio technology to further develop communication and technical skills. The course focuses on independent and collaborative advanced television production, and also introduces radio production and broadcast journalism. Students have the opportunity to produce and perform for the high school television and radio stations. Student work may also be featured through internet broadcasting and through the district’s educational cable access channel.

Advanced Broadcast Writing for Radio and TV LAD610C

Grades: 10-12 5 credits YR
 Prerequisites: Demonstration of strong competency in Broadcast Writing.

Advanced Broadcast Writing offers a student the opportunity to play a major role on the high school FM radio and TV stations. Students create and produce television and radio programs through application of previously learned broadcasting production techniques and writing strategies. Advanced skill building along with a professional process and approach are integral components of the course. Television and radio roles may include: producer, director, editor, show host, newscaster, sportscaster, reporter, engineer, talent, etc. The course also introduces students to movie screenwriting and video movie production. Due to the advanced nature of the coursework, involvement is required beyond the regular class period and beyond regular school hours. Students must apply for admission to the course and must demonstrate mastery of the established criteria for admissions. Demonstrated responsibility, a strong work ethic and the ability to work both independently and collaboratively are

mandatory requirements. Students may apply for more than one year of Advanced Broadcast Writing.

TV Production**LAD630C**

Grades: 9-12 5 credits YR
 Prerequisite: None

TV Production focuses on the intricacies of television. Students will survey the art of television production and develop a more critical awareness of the workings of mass communication media. Students will become knowledgeable about the visual art of television through a “hands-on” approach to video fundamentals, applying visual concepts, techniques and aesthetics to a variety of pre-production, production and post-production activities. Working in front of and behind the camera, students will create television programs for class viewing that are designed to entertain and inform. Some student productions may also be selected for public presentation on the district educational access channel or the high school broadcasting program’s online television station, WWPH—TV.

Speech/Drama**LAD640V**

Grades: 9-10 5 credits YR
 Prerequisite: None

Speech and Drama offers the student opportunities to practice in all areas of public speaking, including demonstration speeches and oral interpretation. Through the study of drama, the student will learn theater history, stagecraft and acting techniques. A performance assessment for all students will be conducted.

Dramatic Arts**LAD650V**

Grades: 10-12 5 credits YR
 Prerequisite: Speech and Drama

Drama and theater practice is studied in Dramatic Arts. Students will read, discuss and perform representative plays and scenes from theatrical history. Fundamental speaking and listening skills are incorporated with units of study. The basic traditional genres of expression – the play, monologues and poetic forms – are practiced. Students will demonstrate knowledge of these genres through written compositions, oral and dramatic presentations. A performance assessment for all students will be conducted.

Advanced Drama**LAD660V**

Grades: 11-12 5 credits YR
 Prerequisites: Dramatic Arts, Speech/Drama and teacher recommendation or by audition

Students will be required to study and perform in assigned dramatic productions. All aspects of the theater are emphasized, including set design, production, and performance. A performance assessment for all students will be conducted.

Journalism

Grades: 9-12
Prerequisite: None

5 credits

LAD670C

YR

Journalism provides an introduction to the essentials of writing with an emphasis on journalistic style. Content study includes the investigation of the communication processes, contemporary challenges to the First Amendment, and the Hazelwood decision. Emphasis is placed on newspapers as the “fourth estate” indispensable to continuing freedom and responsible citizenship. Oral and written assignments, the analysis of style and the application of approved techniques are an integral part of the course. Included in units of study are research into the history of journalism and journalists, and newspapers as the first rough draft of history. *Students with an interest in participating in school publications are encouraged to select Journalism.*

Advanced Journalism Honors

Grades: 10-12
Prerequisite: Journalism
Course Criteria: Minimum 80% Sem. 1 Course Avg. in Journalism.

5 credits

LAD675C

YR

Production Journalism is designed for editors and senior staff writers of the school newspaper. The course permits editors in charge of producing the school newspaper to refine and expand a knowledge base of newspaper design. Editors develop policy, resolve ethical dilemmas that arise during the course of a year, and plan issues from artistic meetings to deadline. Editors are trained as leaders for the newspaper staff. Students in this course will design modes of communication, plan and conduct writing and layout workshops for the student body, and represent the newspaper with administrators and the community. Senior staff writers explore more challenging, investigative journalism and are expected to develop contacts with journalists in the professional community.

Writing Laboratory

Grades: 9-12
Prerequisite: Students who have not met minimum levels of proficiency in writing

2.5 credits

LAD700

SM

The Writing Laboratory offers students individualized instruction for remediation of deficiencies in writing skills. While instruction in writing is provided in all language arts courses, the Writing Laboratory permits directed guidance in many discrete as well as general skills. *Seniors who have not passed the Writing portion of the HSPA are required to enroll in Writing Lab in order to receive the necessary services and instruction. Students enrolled in this class must successfully complete the October HSPA or the AHSA process with further testing on designated dates in order to be eligible for high school graduation.*

Life Skills Department**Fashion Strategies**

Grades: 9-12
Prerequisite: None

5 credits

LSD100

YR

Fashion Strategies offers the student the opportunity to explore the ever-changing world of fashion. Students will study color, line and design, fabrics and textiles, care and storage of clothing, effective wardrobe planning techniques and overall grooming skills. The history and psychology of fashion is examined and applied to modern day design and current fashion trends are explored. Students will learn needlework skills, sewing machine maintenance and operation and will complete a garment construction project.

Advanced Clothing Construction

Grades: 10-12
Prerequisite: Fashion Strategies

5 credits

LSD110

YR

Advanced Clothing is designed for students who have demonstrated clothing construction skills. Advanced clothing construction techniques such as tailoring, fashion sewing, garment and pattern alteration, creative stitchery and textiles are taught.

Culinary Arts

Grades: 9-12
Prerequisite: None

5 credits

LSD120

YR

Culinary Arts is designed for students with limited experience in food preparation. The course introduces the preparation of baked products, dairy foods, protein foods, and fruits and vegetables, with the emphasis upon making healthy food choices. Special attention is placed on safe and sanitary food handling, the development of basic techniques and skills necessary in food preparation, and time management and organization in the kitchen. Implications for vocational choices are included with instruction. Students considering a career in the foods industry should consider taking this course during freshman or sophomore year to allow time for taking both of the advanced courses available in their junior and senior years. The advanced courses are International Foods and Creative Cooking and Catering. Both require Culinary Arts as a prerequisite.

International Foods

Grades: 10-12
Prerequisite: Culinary Arts

5 credits

LSD130

YR

International Foods offers the student an opportunity to explore daily food choices and nutritional needs of cultures worldwide as well as the opportunity to creatively prepare dishes of regional American cuisine and cuisines of nations throughout the world. Some of the cultures explored include those of Europe, Asia, Africa, Australia, Latin America, and North America. Emphasis is placed on safety, sanitation, food preparation, time management, and appreciation of our culturally diverse heritage. This course will be offered on alternate years beginning in 2011-2012.

Creative Cooking and Catering **LSD140**
 Grades: 10-12 5 credits YR
 Prerequisite: Culinary Arts

Creative Cooking and Catering provides students with the opportunity to gain greater self-confidence in meal planning and food preparation with an emphasis on foods for entertaining and career exploration. Units explored include garnishing and food presentation, appetizers, herbs and spices, beverages, soups, casseroles, specialty baking, cake decorating, and the catering business. Critical thinking and creativity are encouraged. Time management, food preparation skills, and consumer skills are sharpened. This course will be offered on alternate years beginning in 2014-2015.

Child Growth and Development **LSD150**
 Grades: 9-12 5 credits YR
 Prerequisite: None

Child Growth and Development is designed for students who have an interest in studying the growth and development of children from conception to age 5. Those electing this course are exposed to the world of children through the study of the developmental principles and theories that can be applied on a practical level to various stages of the life cycle. Students study the physical, emotional, social and intellectual development of young children and participate in class lectures and discussions, written and research assignments, projects and practical experiences to train them in preparation for parenting, actual parenting, and childcare skills. A special emphasis is placed on career possibilities in early childhood education and child care as the students prepare for, organize and actually operate a pre-school program within the high school classroom from November to May. In addition, special units on teen pregnancy and birth defects are explored.

Youth Teaching Youth **LSD160**
 Grades: 11-12 5 credits YR
 Prerequisites: Teacher recommendation and interview

Youth Teaching Youth provides students the opportunity to work closely with school age children in a classroom environment and exposes them to the field of education as a possible career choice. The high school juniors and seniors electing to take part in this unique program will each work directly with a regular classroom teacher in a grade level or special area of interest from September to June in a WW-P school. Through observation and participation students will be able to experience the role of teacher from “the other side of the desk” partaking in the many responsibilities required of a teaching professional. Students are required to participate in periodic feedback sessions with their classmates and to complete a variety of practical and written projects and assignments, which enhance and enrich their experience in the assigned classroom environment. The student, the cooperating teacher, and the Youth Teaching Youth Coordinator develop details of each assignment. Particular interests of the students are taken into consideration before placements are made. Students who have not taken Child Growth and Development

must have an interview before placement. Students who participate in this program are graded on a Pass/Fail basis.

Consumer Economics **LSD170**
 Grades: 10-12 5 credits YR
 Prerequisite: Basic Geometry, Geometry or Hon Geometry

Consumer Economics offers the student the study of our economic system with an emphasis on the role and influences of consumers. Areas of study include banking, the stock market, consumer assistance, credit, federal taxes, money management, decision-making, goal setting/budgeting, values and the relationship of the consumer with the government. Career opportunities, entrepreneurship, career preparation, job success and satisfaction are also covered. Students will develop skills and become more efficient in handling personal business affairs and develop more understanding of economic issues and problems.

Mathematics Department

Geometry	Advanced Algebra II	Pre-Calculus	Calculus Honors
Geometry Honors	Advanced Algebra II Honors	Pre-Calculus Honors	AP Calculus AB
Geometry Honors & ACC	Pre-Calculus Honors & ACC	AP Calculus BC	Multivariable Calculus HNS & ACC

Mathematics Lab 12 **MAD102**
 Grade: 12 2.5 credits SM
 Prerequisite: Seniors who have not met state minimal levels of proficiency in math will be enrolled for at least one semester

Seniors who have not taken or passed the mathematics portion of the HSPA are required to enroll in this course for at least one semester. Seniors enrolled in this class must take the HSPA prior to successfully completing the Alternative High School Assessment (AHSA) process. Seniors are required to either meet state proficiency levels on the HSPA or to successfully complete the AHSA process in order to be eligible for high school graduation. Students receive instruction in mathematics outlined in the NJ Core Curriculum Content Standards as well as instruction in skills assessed on the SAT and ACT exams.

Algebra I, Part 2 **MAD150**
Grades: 9-12 5 credits YR
Prerequisite: Algebra I, Part 1

Algebra I, Part 2 is the second part of a two-year Algebra I sequence. Topics studied include powers and roots, polynomials, factoring, quadratic and exponential functions, systems of equations and inequalities, and radical expressions. Applications of concepts are utilized throughout the course. The development of problem-solving skills is emphasized.

Algebra I **MAD160**
Grades: 9-12 5 credits YR
Prerequisite: Pre-Algebra
Course Criteria: Minimum 80% Sem. 1 Course Avg. in Algebra I

Algebra I provides instruction for basic operations with real numbers, exponents, polynomials, fractions and irrational numbers. Course content also includes coordinate geometry, factoring of polynomials, solving of linear, quadratic, and systems of equations and inequalities. Verbal problems are integrated with units of study to emphasize the development of problem-solving abilities.

Basic Geometry **MAD170**
Grades: 9-12 5 credits YR
Prerequisite: Algebra I or Algebra I, Part 2

Basic Geometry offers instruction in the fundamentals of plane geometry. Topics for study include inductive reasoning, angles, parallel and perpendicular lines, congruent and similar triangles, quadrilaterals and other polygons, circles, right triangles, areas and volumes. The course includes a review of skills, strategies, and problem solving techniques to prepare for standardized and required tests. Real life applications of concepts are integrated within each unit of study. Scientific calculators are used throughout the course.

Geometry **MAD180**
Grades: 9-12 5 credits YR
Prerequisite: Algebra I or Algebra I Honors
Course Criteria: Minimum 70% Sem. 1 Course Avg. in Algebra I

Geometry is a course emphasizing Euclidean geometry. The course includes a study of inductive and deductive reasoning, properties of segments, angles, perpendicular and parallel lines, triangles, quadrilaterals, circles, transformations, similarity, congruence, perimeter and area of two-dimensional figures and volume of solids. Real-world problem solving is emphasized in the study of each topic. Proofs are incorporated throughout the course. Geometer's Sketchpad and scientific calculators are used regularly.

Geometry Honors **MAD185**
Grade: 9 5 credits YR
Prerequisites: Algebra I or Algebra I Honors
Course Criteria: Minimum 80% Sem. 1 Course Avg. in Algebra I or 70% in Algebra I Honors

This course extensively covers the topics studied in geometry. See the "Geometry" course description for these topics.

Additional topics include symbolic logic, the use of geometry software, formal proof and fractals. The honors section stresses analytical thought and problem solving with an emphasis on formal proof.

Geometry Honors & Accelerated **MAD195**
Grade: 9 5 credits YR
Prerequisites: Successfully meet the criteria for the Honors & Accelerated Mathematics Program

Geometry Honors & Accelerated is a course for ninth grade students who were enrolled in the Accelerated and Enriched Mathematics Program in grade eight. The course focuses on traditional Euclidean plane and solid geometry, with coordinate and transformational approaches considered as well. Non-Euclidean concepts are also studied. Course topics include: properties of angles, parallel lines, triangles, quadrilaterals, polygons, circles, solids, algebra review, coordinate geometry, transformations, constructions, area, perimeter, volume, congruence, similarity, inductive and deductive reasoning, logic, and axiomatic systems. This course will emphasize detailed analysis and proof. Introductory topics in trigonometry will be explored in depth. Learning methods include use of computer software, small-group work, discovery, and project work.

Algebra II **MAD210**
Grades: 10-12 5 credits YR
Prerequisites: Geometry or Basic Geometry

Algebra II is a second year algebra course that provides a review and reinforcement of the skills and concepts from Algebra I and Geometry. Topics for instruction also include: polynomials, linear equations, inequalities, systems of linear equations, problem solving, factoring, exponents, radicals, quadratic equations, coordinate geometry, graphing conics, exponential functions, and basic operations with logarithms.

Advanced Algebra II **MAD220**
Grades: 10-12 5 credits YR
Prerequisites: Geometry or Geometry Honors
Course Criteria: Minimum 70% Sem. 1 Course Avg. in Geometry or complete Geometry Honors

Advanced Algebra II is a second year algebra course for students with a strong background in both Algebra I and Geometry. The course extensively covers linear and quadratic functions and relations, factoring, rational algebraic expressions, complex numbers, conics, logarithms and linear programming. An emphasis is placed on graphing, applications, and problem solving throughout the units of study. Advanced Algebra II prepares students for the study of Pre-calculus. Graphing calculators are used extensively. (The TI 83/ TI 84 family of graphing calculators are used exclusively.)

Advanced Algebra II Honors MAD225
 Grades: 10-12 5 credits YR
 Prerequisites: Geometry or Geometry Honors
 Course Criteria: Minimum 80% Sem. 1 Course Avg. in Geometry or 70% in Geometry Honors

This course extensively covers linear, quadratic and exponential functions and relations, factoring, rational algebraic expressions, complex numbers, conics, logarithms, regression equations, series and sequences, and probability. The honors section stresses analytical thought and problem solving through extended study of topics. Graphing calculators are used extensively. (The TI 83/ TI 84 family of graphing calculators are used exclusively.)

Pre-calculus Honors & Accelerated MAD235
 Grade: 10 5 credits YR
 Prerequisites: Geometry H&A

Pre-calculus H&A is a continuation of the District's A&E Mathematics program. Areas of study will include (but not be limited to) trigonometry, inverse trigonometry, polar coordinates, vectors, number theory, limits and an introduction to differential calculus. Topics from matrix algebra and analytical geometry will be incorporated. This course emphasizes critical and analytical thought processes, theory and applications. Students must have a strong background in Algebra I and must have successfully completed an Advanced Algebra II course as well as the requirements of Geometry H&A. Graphing calculators will be used throughout the course. (The TI 83/ TI 84 family of graphing calculators are used exclusively.)

Algebra and Trigonometry MAD240
 Grade: 11 & 12 5 credits YR
 Prerequisites: Algebra II or Advanced Algebra II

Algebra and Trigonometry is a course which incorporates the study of extended algebra topics with the study of introductory trigonometry. Topics studied include function theory, trigonometric, linear, exponential, rational, polynomial, logarithmic functions, and the conic sections. Equation solving, problem solving and graphing are stressed throughout the course. Students who have demonstrated strong competency in Algebra II and those students who have experienced difficulties with Advanced Algebra II may select Algebra and Trigonometry.

Pre-calculus MAD250
 Grades: 11-12 5 credits YR
 Prerequisite: Advanced Algebra II, Advanced Algebra II Honors or Algebra and Trigonometry
 Course Criteria: Minimum 70% Sem. 1 Course Avg. in Advanced Algebra II or complete Advanced Algebra II Honors

Pre-calculus emphasizes the study of functions including polynomial, rational, logarithmic, exponential and trigonometric. Analytic trigonometry and additional topics in trigonometry are studied in depth. The studies of polar coordinates, sequences, series and probability are

incorporated. Problem solving and graphing are stressed throughout the course. Graphing calculators are used throughout the course. (The TI 83/ TI 84 family of graphing calculators are used exclusively.)

Pre-calculus Honors MAD255
 Grades: 11-12 5 credits YR
 Prerequisites: Advanced Algebra II or Advanced Algebra II Honors
 Course Criteria: Minimum 80% Sem. 1 Course Avg. in Advanced Algebra II or 70% in Advanced Algebra II Honors

This course extensively covers the topics studied in Pre-calculus. See the "Pre-calculus" course description for these topics. Additionally, this course will focus on the underpinnings of calculus to provide students with the depth of knowledge needed to be successful in Advanced Placement Calculus AB. Graphing calculators are used throughout the course. (The TI 83/ TI 84 family of graphing calculators are used exclusively.)

Calculus Honors MAD265
 Grades: 11- 12 5 credits YR
 Prerequisites: Pre-calculus Honors or Pre-calculus

Calculus Honors begins with a review of pre-calculus concepts followed by an introduction to limit theory and continuity. This is followed by an in-depth study of techniques of differentiation and integration. Throughout the year, application of differentiation and integration will be emphasized, including examples of optimization, related rates, area, and volumes of solids. Graphing calculators are used throughout the course. (The TI 83/ TI 84 family of graphing calculators are used exclusively.)

AP Calculus AB MAD275
 Grades: 11-12 6 Credits YR
 Prerequisites: Pre-calculus, Pre-calculus Honors or Calculus Honors
 Course Criteria: Minimum 80% Sem. 1 Course Avg. in Pre-calculus Honors or 90% in Pre-calculus or complete Calculus Honors

Advanced Placement Calculus AB is designed to prepare students for the Advanced Placement Calculus AB Examination of the College Boards. Topics of study include differentiation and integration, with emphasis on application. Students are strongly encouraged to take the AP examination. Additional topics will extend beyond the scope of the Advanced Placement Calculus exam. Graphing calculators are used throughout the course. (The TI 83/ TI 84 family of graphing calculators are used exclusively.)

AP Calculus BC

Grades: 11-12 6 Credits YR
 Prerequisites Pre-Calculus H&A or AP Calculus AB

This curriculum is designed to prepare students for the Advanced Placement Calculus BC Examination of the College Board. Topics studied include applications of differentiation and integration, sequences and series, and special equations that include vector, polar, exponential, logarithmic and differential. Students are strongly encouraged to take the AP examination. Additional topics will extend beyond the scope of the Advanced Placement Calculus exam.

Multivariable Calculus Honors & Accelerated

MAD295
 Grade: 12 5 Credits YR
 Prerequisites: AP Calculus BC

Multivariable Calculus is the final course in the college preparatory mathematics sequence for students in our Honors and Accelerated Program. The concepts learned in single-variable calculus will be extended to three dimensions. Topics studied include vector valued functions, partial derivatives, multiple integrals, and vector calculus. Toward the end of the course, additional topics will be explored including differential equations and the theorems of Gauss and Stokes. Computer and calculator technology will be used to enhance understanding of concepts.

Statistics

MAD300
 Grades: 11-12 5 credits YR
 Prerequisite: Algebra II or Advanced Algebra II

This introductory statistics course is an elective that focuses on applied statistical techniques. The topics covered include techniques of probability, descriptive statistics, and inferential statistics, as well as, how these concepts are used to describe and predict events. The course culminates with a 4-week extensive project utilizing concepts covered throughout the year. This course is excellent for students interested in business, the social sciences or mathematics. Graphing calculators are used throughout the course. (The TI 83/ TI 84 family of graphing calculators are used exclusively.)

AP Statistics

MAD305
 Grades: 11-12 5 credits YR
 Prerequisites: Advanced Algebra II, Advanced Algebra II Honors, or Algebra and Trigonometry

Advanced Placement Statistics is designed to prepare students for the Advanced Placement Statistics Examination of the College Board. The topics of a one-semester college statistics course are covered, including descriptive statistics, collection of data, the normal distribution, basics of probability, inference, confidence intervals, tests of significance and regression. Significant written analysis of data is required on a regular basis. Students electing AP Statistics should have had a high level of success in past mathematics courses. Students are strongly encouraged to take the AP examination. Use of the TI 83/84 graphing calculator is a major requirement of the course and AP exam.

Music Department**Music Theory I**

MUD100
 Grades: 9-12 5 credits YR
 Prerequisite: None

Music Theory I, designed to introduce students to knowledge of music rudiments through hands-on learning, is offered to all students interested in understanding the fundamentals of music theory. All participants should expect to improve skills in reading, writing, and composing music. The course offers students an opportunity to improve their musicianship. It develops rhythm, melody, ear-training, major and minor tonalities, treble and bass clef, basic keyboard skills, choral structures, and experience in computer assisted programs.

Music Theory II

MUD110
 Grades: 10-12 5 credits YR
 Prerequisite: Music Theory I or its equivalent

Music Theory II is designed for the musician who would like further study of music and/or for those planning a career in music. The course includes the study of complex rhythm, melodic dictation, voice leading, four part vocal writing, figured bass, basic composition, further development of keyboard skills, a study of basic musical forms and training. This course incorporates composition and performance to assist learning and strengthen musicianship. Computer programs will be used to assist students in their training.

Chorale

MUD120
 Grades: 9-12 5 credits YR
 Prerequisite: None

Chorale is a performing ensemble available to any student interested in singing in a choir. The choir performs in concerts and for special events in the school and community. The members are trained in vocal technique and musicianship and perform a variety of major vocal works

Concert Choir

MUD130
 Grades: 10-12 5 credits YR
 Prerequisite: Audition

Concert Choir is an advanced performing ensemble selected by audition. The choir performs in concerts and for special events in the school and community. The members are trained in vocal technique and musicianship and perform a variety of major vocal works. Students who are not selected for Concert Choir may elect to enroll in Chorale.

Symphonic Band

MUD 135
 Grade: 9 5 credits YR
 Prerequisite: Offered to all students who have experience with a wind or percussion instrument

Symphonic Band (often referred to as "Freshman Band") is designed to offer freshman wind and percussion instrumentalists the opportunity to experience traditional band literature of the highest quality. The course prepares members to participate in either the Concert Band and/or Wind

Ensemble in grades 10-12. The band performs in concerts, local concert band festivals, and for special school and community events.

Concert Band **MUD140**
Grades: 9-12 5 credits YR
Prerequisite: Offered to all students who have experience with a wind or percussion instrument

Concert Band is designed to offer wind and percussion instrumentalists the opportunity to continue their training in traditional band literature. The band performs and experiences music of the highest quality.

The band performs in concerts, local concert band festivals, and for special school and community events.

Advanced Concert Band **MUD150**
Grades: 10-12 5 credits YR
Prerequisites: Minimum of one year in concert band and audition

The Advanced Concert Band is designed to offer advanced wind and percussion instrumentalists the opportunity to continue their training with students of similarly advanced ability. The students perform advanced band literature. The bands perform at concerts, festivals, and for various school and community events. The most advanced students from this group also perform with the orchestra.

String Ensemble **MUD160**
Grades: 9-12 5 credits YR
Prerequisite: Offered to all students who have experience with a stringed instrument

String Ensemble is designed to offer any student grades 9-12 the opportunity to experience string literature of the highest quality. The course prepares members to perform with the Symphony Orchestra. A number of performances are scheduled for this group throughout the year.

Symphony Orchestra **MUD170**
Grades: 10-12 5 credits YR
Prerequisite: Minimum of one year in String Ensemble and audition

Symphony Orchestra is designed to offer instrumentalists the opportunity to experience orchestral literature of the highest quality. Wind and percussion musicians are selected from the concert band and advanced concert band to perform full symphonic works on a regular basis. There are several performances scheduled for the school and community throughout the year.

Science Department

Biology **SCD110**
Grades: 9-10 5 Credits YR
Prerequisite: None

Biology is a laboratory course designed to meet the needs of all students. The course of study takes the student through three major areas of study. In Chemical and Biological Basis

of Life, students will study topics such as biochemistry, cell biology and the flow of energy through the biosphere. Continuity of Life focuses on patterns of genetic inheritance, the structure and function of DNA and patterns of reproduction. In Perpetuation of Life students will study principles of modern taxonomy, evolution and ecology. The nature of scientific inquiry is threaded throughout the course as students engage in problem solving, data analyzing, observing, inferring, summarizing and communicating.

Biology Honors **SCD115**
Grades: 9-10 6 Credits YR
Prerequisites: Concurrent enrollment in Geometry or higher.
Course Criteria: Minimum 80% Sem. 1 Course Avg. in Previous College Prep Science Course or 70% in previous Honors Science Course. OR "B" or higher in 8th grade science.

Note that the Biology Honors course differs from the regular college preparatory courses in terms of the level of expectations placed on the students, the amount of independent work expected, the pace of coverage of content, the expected skill level and the breadth and depth of the content covered.

Chemistry **SCD170**
Grades: 10-12 6 Credits YR
Prerequisite: Algebra I

Chemistry is a laboratory course designed to introduce and explore inorganic, organic, and nuclear chemistry topics. Within these units, students will study matter, solutions, formulas, bonding, atomic structure, the mole concept, equations, and gases. General concepts are emphasized with real world examples, as the content is spiraled throughout the course. Laboratory experiments, problem solving and group activities are included.

Chemistry Honors **SCD175**
Grades: 10-12 6 Credits YR
Prerequisites: Concurrent enrollment in Advanced Algebra II or higher
Course Criteria: Minimum 80% Sem. 1 Course Avg. in Previous College Prep MATH Course or 70% in previous Honors MATH Course.

Note that the Chemistry Honors course differs from the regular college preparatory courses in terms of the level of expectations placed on the students, the amount of independent work expected, the pace of coverage of content, the expected skill level, the breadth and depth of the content covered, and the degree to which Algebra is applied in problem-solving.

Conceptual Physics **SCD153**
Grades: 9-10 5 Credits YR
Prerequisite: None

Conceptual Physics is a laboratory course that meets the needs of all students and in which students explore energy, properties of matter, kinematics, dynamics, wave motion,

electricity, electromagnetism, and optics. Students will engage in significant laboratory-based experiential learning coupled to practical problem solving. Students are expected to work collaboratively as a member of a team, communicate their thoughts and ideas effectively, and reflect on their own learning.

Physics **SCD180**
Grades: 10-12 6 Credits YR
Prerequisite: Concurrently enrolled in Advanced Algebra II or higher

Physics is a laboratory course covering the topics of kinematics, dynamics, wave motion, and light. The course also introduces the student to electricity, electromagnetism, and modern physics concepts. Students are expected to apply algebra to solve problems.

Physics Honors **SCD185**
Grades: 10-12 6 Credits YR
Prerequisites: Concurrently enrolled in Pre-calculus or higher math course.
Course Criteria: Minimum 80% Sem. 1 Course Avg. in Previous College Prep MATH Course or 70% in previous Honors MATH Course.

Note that the Physics Honors course differs from the regular college preparatory courses in terms of the level of expectations placed on the students, the amount of independent work expected, the pace of coverage of content, the expected skill level, and the breadth and depth of the content covered. Physics Honors is a more mathematically rigorous physics course than is Physics.

Environmental Science **SCD186**
Grades: 9-12 5 Credits YR
Prerequisites: None

Environmental Science is a course designed for students with a wide variety of interests and academic ability. Students explore many issues and topics including global economics, structure and function of ecosystems, world food and water supplies, impact of pollution, biodiversity, alternative energy sources and sustainability. Students engage in laboratory work, fieldwork, computer exercises, analytical writing, debate, discussions and group projects.

Forensic Sciences **SCD190**
Grades: 11-12 5 Credits YR
Prerequisites: Biology and one other full year of science.

Forensic Sciences involves the application of scientific principles and analyses to criminal and other legal investigations. Students apply scientific concepts in genetics, chemical analysis, the laws of force and motion, and environmental relationships. Laboratory procedures from biology, chemistry, physics and earth science are used to solve a variety of hypothetical crimes. Coursework includes group activities, problem solving, and laboratory work, and may include outside readings, field trips, and guest speakers. After completing basic information and skills, students become

involved in a variety of activities or projects based on interest and ability.

Human Anatomy & Physiology **SCD200**
Grades: 11-12 6 Credits YR
Prerequisites: Biology and Chemistry

This course is designed for students who may be interested in a career in health-related fields, and are interested in learning more about how the human body works. HA&P will review basic cellular biology, chemistry and the context of the overall levels of biological organization of the human body. HA&P will explore various body systems and investigate how they maintain homeostasis, as well as coordinate and control important physiological functions. In addition, students will have an opportunity to investigate human reproduction and developmental embryology. The course will include extensive laboratory work, library and electronic research, and guest speakers.

Advanced Topics in Physics Honors **SCD195**
Grade: 12 7 Credits YR
Prerequisite: Concurrent enrollment in Calculus or higher math course.
Course Criteria: Minimum 90% Sem. 1 Course Avg. in Previous College Prep Physics or 80% in previous Honors Physics.

NOTE: If this course is selected after the student has completed an entire year of the foundation course, then the course grade and NOT the semester grade will apply.

This course is a study of physics of the twentieth century. The course develops the content of the dual nature of light as students study such properties as thin film interference, diffraction, and the photoelectric effect. Students then study the dual nature of matter, which leads to the quantum idea, atomic structure, the Compton Effect, the electron, the Heisenberg Uncertainty Principle, and relativity. The next major unit of study includes condensed matter electronics and complex circuitry. The fourth major unit of study is nuclear physics including radioactivity, isotopes, nuclear structure, nuclear energy and forces, and application. The final component of the course addresses elementary particles. Topics include classification, detection, analysis, and interaction forces.

AP Biology **SCD205**
Grades: 11-12 7 Credits YR
Prerequisites: Biology or Honors Biology and Chemistry or Honors Chemistry.
Course Criteria: Minimum 90% Sem. 1 Course Avg. in Previous College Prep Biology and Chemistry or 80% in previous Honors Biology and Honors Chemistry.

NOTE: If this course is selected after the student has completed an entire year of the foundation course, then the course grade and NOT the semester grade will apply.

AP Biology is a rigorous course meeting the same requirements found in a first year college biology course. This

course is designed to give students an opportunity to study the biological and chemical aspects of cellular biology, Mendelian and molecular genetics, anatomy and physiology of plants and animals, evolution and environmental science. Appropriate lab work as well as enrichment activities are included. Students are strongly encouraged to take the AP examination.

AP Chemistry **SCD215**
Grades: 11-12 7 Credits YR
Prerequisite: Chemistry or Honors Chemistry and Advanced Algebra II or higher.
Course Criteria: Minimum 90% Sem. 1 Course Avg. in previous College Prep Chemistry or 80% in previous Honors Chemistry.

NOTE: If this course is selected after the student has completed an entire year of the foundation course, then the course grade and NOT the semester grade will apply.

AP Chemistry is a rigorous course meeting the same requirements found in a first year college chemistry course. Students will attain a depth of understanding of fundamentals and a reasonable competence in dealing with chemical problems. The course stresses the student's ability to think clearly and express his/her ideas, orally and in writing, with clarity and logic. This course differs qualitatively from the first year secondary course in chemistry with respect to the kind of textbook used, depth of topics covered, the emphasis on chemical calculations and the mathematical formulation of principles, and the kind of laboratory work done. Topics include: Atomic Theory and Structure, Periodicity, Chemical Bonding, Nuclear Chemistry, Gas Laws, Kinetic Molecular Theory, Solutions, Reactions, Equilibrium, Kinetics, Electrochemistry, Thermodynamics, and Organic Chemistry. Students are strongly encouraged to take the AP exam.

Descriptive Astronomy **SCD250**
Grades: 11-12 2.5 credits SM
Prerequisites: Any two full-year science courses.

In Descriptive Astronomy, students investigate the Earth's place in the universe by following the development of observations and ideas of the cosmos over past centuries leading to and including current thought. Topics include the sun, moon, Earth, planets, comets, stars, galaxies, black holes and the relationship between science and technology. Attention is given to the impact of astronomy on society. Some nighttime observations are required.

Genetics **SCD260**
Grades: 11-12 2.5 credits SM
Prerequisites: Any two full-year science courses.

This course encompasses the basic principles and concepts of genetics. Topics include the structure and function of DNA, protein function, genes and chromosomes. Special attention is paid to karyotyping, genetic testing, DNA electrophoresis, and the polymerase chain reaction and how each of these is used in modern genetic analysis.

An additional segment of the course is devoted to the techniques used in forensic science and paternity testing.

A variety of laboratory procedures are conducted that represent common methods used in genetic analysis. Labs include DNA isolation and analysis, studies of cell division, and genetic crosses. Students conduct genetic crosses using organisms such as bacteria, *Drosophila*, and the mustard plant to demonstrate patterns of inheritance. An independent research paper in genetics is assigned to provide students the opportunity to pursue their own individual interests. Suggested topics include genetic engineering, cloning, gene therapy, genetic testing, and medical genetics.

Meteorology **SCD 265**
Grades: 11-12 2.5 Credits SM
Prerequisites: Any two full-year science courses.

Meteorology is a semester laboratory course designed to meet the needs of all students. Although this course is a study of the unique characteristics of the atmosphere, the curriculum builds on essential concepts of chemistry and physics. Laboratory activities lead the students to an understanding of weather systems, climates, composition and dynamics of the atmosphere, water in the atmosphere, atmospheric interaction of land and water masses, and life cycles of storms such as hurricanes and tornadoes. Additionally students investigate optical phenomena such as rainbows and mirages and apply their understanding of weather and climate to discuss global climate change.

Oceanography **SCD 267**
Grades: 11-12 2.5 Credits SM
Prerequisites: Any two full-year science courses

Oceanography is a semester laboratory course designed to meet the needs of all students. Although this course is a study of the unique characteristics of the oceans, the curriculum builds on essential concepts of chemistry and physics. In Oceanography, students complete laboratory activities leading to an understanding of ocean profiles, causes of currents, current patterns, waves, tides, beach erosion, oceanic circulation, transport of sediment, ocean chemistry, ocean geology, and the effect of water masses on weather.

Social Studies Department

World History **SSD100**
Grade: 9 5 credits YR
Prerequisite: None

World History provides a survey of the significant time periods of human development from the Renaissance to the present. Focusing on the basic elements of all societies through the study of institutions of civilizations-family, religion, education, economics and government-the course offers an historical perspective for today's world. This historical perspective is presented chronologically. Skills are reinforced and developed using historical content. Current events are integrated into the curriculum in order to bridge past and modern events.

World History Honors **SSD105**
Grade: 9 5 credits YR
Prerequisite: None
Course Criteria: Minimum 80% Sem. 1 course average in 8th grade Social Studies.

As a more challenging course, its concepts and skills are developed and reinforced using historical content with scholarly and primary source materials.

World History Honors provides a survey of the significant time periods of human development from the Renaissance to the present. Focusing on the basic elements of all societies through the study of institutions of civilizations-family, religion, education, economics and government-the course offers an historical perspective for today's world. This historical perspective is presented chronologically. Skills are reinforced and developed using historical content. Current events are integrated into the curriculum in order to bridge past and modern events. The ultimate goal is to give students a framework so that they may use the past to develop insights that will allow them to deal with issues they will encounter today and in the future. Students who have developed strong proficiencies in social studies skills, including reading, research, writing and inference skills may select World History HNS.

American Studies I **SSD200**
Grade: 10 5 credits YR
Prerequisite: World History

American Studies I examines the rich cultural, economic, historical, and social heritage of this country as it has developed from the origins of the American Revolution, governmental and constitutional development, westward territorial expansion, the crisis and challenges of the Civil War and Reconstruction eras, the rise of American industrial and urban development, overseas expansion, and international power, and two decades of Progressive reform in the early 20th Century. The outbreak of World War I and entry of the United States into this global conflict is the connecting point with American Studies II and modern history. This course also focuses on class, gender and racial issues and their significance in our nation's history, the placement of American history in its global context, the constant dialectic of change and continuity, and the rights and responsibilities of citizenship in our democratic society. This course is required for graduation and provides students with essential knowledge and insights to better understand the significant issues that face American society today.

American Studies I Honors **SSD235**
Grade: 10 5 credits YR
Prerequisites: World History
Course Criteria: Minimum 80% Sem. 1 course average in World History.

As a more challenging course, its concepts and skills are developed and reinforced using historical content with scholarly and primary source materials.

Firstly, this course examines the rich cultural, economic, historical, and social heritage of this country as it has developed from the origins of the American Revolution,

governmental and constitutional development, westward territorial expansion, the crisis and challenges of the Civil War and Reconstruction eras, the rise of American industrial and urban development, overseas expansion, and international power, and two decades of Progressive reform in the early 20th Century. The outbreak of World War I and the United States' entry into this global conflict is the connecting point with American Studies II and modern history. Secondly, this course also focuses on class, gender, and racial issues and their significance in our nation's history, the placement of American history in its global context, the constant dialectic of change and continuity, and the rights and responsibilities of citizenship in our democratic society. The ultimate goal is to give students a framework so that they may use the past to develop insights that will allow them to deal with issues they will encounter today and in the future. Students who have developed strong proficiencies in social studies skills, including reading, research, writing and inference skills may select AS I HNS.

American Studies II **SSD300**
Grade: 11 5 credits YR
Prerequisite: American Studies I or American Studies I, Honors.

American Studies II integrates a chronological and thematic study of the significant cultural, economic, historical, and social issues encountered by the United States from the outbreak of World War I through the 20th Century to today. Specific units of study will focus on important cultural, economic, historical, and social events that have shaped the United States government's domestic, economic, and foreign policies during this period. This course examines the rich historical and multicultural heritage of this nation, the expanded role of the government in domestic matters and its pivotal role in world affairs, and the rights and responsibilities of American citizenship.

American Studies II Honors **SSD305**
Grade: 11 5 credits YR
Prerequisites: American Studies I or American Studies I, Honors.
Course Criteria: Minimum 80% Sem. 1 course average in American Studies I (College Prep) or 70% Sem. 1 course average. in American Studies I, Honors.

American Studies II Honors integrates a chronological and thematic study of the significant cultural, economic, historical, and social issues encountered by the United States from the outbreak of World War I through the 20th Century to today. Specific units of study will focus on important cultural, economic, historical, and social events that have shaped the United States government's domestic, economic, and foreign policies during this period. This course examines the rich historical and multicultural heritage of this nation, the expanded role of the government in domestic matters and its pivotal role in world affairs, and the rights and responsibilities of American citizenship. Students who have demonstrated strong proficiencies in social studies skills including reading, research, writing, and inference skills may select American Studies II Honors.

International Business and Cultures **SSD400C**
Grades: 10-12 5 credits YR
Prerequisite: None

International Business and Cultures is a full year elective course focusing on global marketing, cultures, customs, and telecommunications. Students will learn about international trade and finance, economics, communications, travel and money around the world. A variety of learning opportunities linking other educational disciplines, business, and industry will be incorporated to provide a realistic approach. Students will learn about career opportunities relating to international business in industry, business, government, and other professions. The skills and knowledge students acquire in this course will prepare them for life in an international environment.

Human Behavior **SSD410**
Grades: 11-12 5 credits YR
Prerequisite: None

Human Behavior is an introduction to sociology and psychology, its foundations, history and methods. Students apply what they have learned in discussions of current issues and dilemmas, psychological research studies, in addition to mental health topics. The course helps to prepare students for future classes in sociology and behavioral sciences. Success in human behavior requires active participation. Students are also required to complete a survey experiment in sociology and a research paper in psychology.

Legal and Political Experiences (IPLE) **SSD420C**
Grades: 11-12 5 credits YR
Prerequisite: None

Legal and Political Experiences offers an opportunity to examine political concepts and practices on the federal, state and local government levels. Participatory experiences in law-related activities are essential components of the curriculum. Students are required to become involved in community projects, voter registration, observe court and municipal proceedings and contribute to legal and political workshops. Topics for study are based on historical landmark Supreme Court decisions as well as contemporary political and legal trends. The award winning text "Street Law" is used as a practical guide to individual rights and the law. Students selecting Legal and Political Experiences should be prepared to enter performance contracts with the teacher.

Economics/Social Problems in American Society **SSD430C**
Grades: 11-12 5 credits YR
Prerequisite: None

This course takes an analytical approach to the study of public policy in the United States and the economic and social forces that shape them. Emphasis is foremost on economic analysis through a look at the allocation of resources in our society. In order to provide a more thorough understanding of public policy, related topics such as law, ethics, sociology, and politics are addressed. Additional topics include discrimination, economic growth, crime, health care, big

business, and sports. Emphasis is on research and presentation, both in writing and orally. Projects will be presented in groups and individually. A case study approach is taken in each unit. College level texts are utilized, in addition to academic journals and magazines.

Multicultural Studies **SSD440**
Grades: 11-12 5 credits YR
Prerequisite: None

This course offers students an opportunity to investigate and learn the significant aspects of the history, culture, and contemporary experiences of a variety of racial and ethnic groups of people. Its primary purpose is to promote an appreciation of unity and diversity within the American society. An emphasis is placed on the universals of all cultures. Through investigative study, the student will be expected to analyze and interpret contributions to society by such diverse groups as Asians, Islanders, Native American, African Americans, Latinos, Middle Easterners, and others. Attitudes and values as appropriate within the context of the study of multiculturalism will be examined.

AP United States History **SSD455**
Grades: 11-12 5 credits YR
Prerequisite: Successful completion of at least one full-year course in American Studies I or American Studies 1, Honors.
Course Criteria: Minimum 90% Sem. 1 course average in American Studies I (College Prep) or 80% Sem. 1 course average in American Studies I, Honors.

AP US History offers the student a college level experience in an academic pursuit. Through an examination of primary and scholarly historical source materials, students are required to critically analyze and assess historical documents and information, weigh evidence, interpret cause and effect relationships, and make conclusions on a variety of economic, historical, and social issues, based upon informed and well-reasoned judgments. Students must have demonstrated superior proficiencies in language and social studies. The curriculum and course are designed to prepare students for the College Board's Advanced Placement United States History Exam. Students are strongly encouraged to take the AP examination.

AP European History **SSD465**
Grades: 11-12 5 credits YR
Prerequisite: Successful completion of at least one full-year course in American Studies I or American Studies 1, Honors.
Course Criteria: Minimum 90% Sem. 1 course average in a previous American Studies (College Prep) course or 80% Sem. 1 course average in a previous American Studies, Honors course or 70% Sem. 1 course average in a previous Advanced Placement Social Studies course.

Students will study European History from the Renaissance to the present with an emphasis on providing the student with

challenging and stimulating learning experiences to prepare them for the College Board’s Advanced Placement European History Examination and enhance their critical thinking, document analysis, inference, and writing skills. Students are strongly encouraged to take the AP examination.

AP Am. Government & Comparative Politics SSD475

Grades: 11-12 5 credits YR
 Prerequisite: Successful completion of at least one full-year course in American Studies I or American Studies 1, Honors.
 Course Criteria: Minimum 90% Sem. 1 course average in previous American Studies course (College Prep) or 80% Sem. 1 course average in a previous American Studies , Honors course or 70% Sem. 1 course average in a previous Advanced Placement Social Studies course.

Students electing this course will study both the governmental concepts and constitutional principles used to interpret American politics and the analysis of specific case studies. A familiarity with the various institutions, groups, beliefs, and ideas that make up the American political reality will be acquired. Comparative Government and Politics offers students the unique opportunity to examine, in depth, other nations’ governmental and political institutions and principles. Designed to offer students a critical perspective on politics and government in the United States and influential nations in the world, these courses will prepare students for the College Board Achievement Examinations in American and Comparative Governments and Politics. Students are strongly encouraged to take the AP exam.

World Languages Department

West Windsor-Plainsboro High School North and South offer sequential study in Mandarin Chinese, French, German, Latin, and Spanish. Listening, speaking, reading, writing, and culture are integral parts of each course.

Students who began French, German, Spanish or Chinese in grade six of the middle school may be eligible to enroll in Advanced Placement French, German, Spanish or Chinese. There are prerequisites noted above the course descriptions. In order to be well prepared for a Subject Test in any world language, students should complete at least the 4 honors level. Students who begin the study of a world language in grade nine will take level one. They will be able to complete a full four-year sequence of study in one language. Please note that a language level is not specific to a grade. For example: Level 1 classes can include students from different grades who are beginning language study late or are beginning the study of a second or third world language.

For Honors courses in Spanish, French, German and Chinese, a program has been designed to lead to Advanced Placement courses. Typical sequences are indicated, though placement may be based on other factors, such as heritage speakers, course approval, etc. Courses will be offered on a campus in

years when enrollment so justifies or they may be combined with another level of the same language.

An Intro to Spanish Communication & Culture WLD100

Grades: 9-12 5 credits YR
 Prerequisite: None

This is an introductory course with a focus on oral proficiency and cultural study. This is a special course with a hands-on, concrete approach for different learning styles. Techniques for the differentiation of instruction are utilized. The basic skills of reading, writing, speaking and listening are incorporated into the course, yet the emphasis is on the skills necessary for effective communication, especially in reference to communication in the work place. This two-year sequence fulfills the graduation language requirement.

Spanish Language & Cultural Study WLD105

Grades: 9-12 5 credits YR
 Prerequisite: Completion of An Intro to Sp. Comm. & Cul. or completion of at least one year of Middle School Spanish.

This is the second year of the series beginning with Intro to Sp. Comm. & Culture. The emphasis is on the skills necessary for effective communication, especially in reference to communication in the work place.

Spanish for Heritage Speakers I WLD110

Grades: 9-12 5 credits YR
 Prerequisite: None

This course is for students who speak Spanish at home, but were either born in the United States or moved here at a very young age. This is a special course, which emphasizes the reading and writing skills necessary for heritage speakers to become educated Spanish speakers.

Spanish for Heritage Speakers II WLD115

Grades: 9-12 5 credits YR
 Prerequisite: Sp. for Heritage Speakers I

This course is for students who speak Spanish at home, but were either born in the United States or moved here at a very young age. This is a special course, which emphasizes the reading and writing skills necessary for heritage speakers to become educated Spanish speakers. This is the sequel to Sp. for Heritage Speakers I and will focus on the heritage speaker’s role in society, the issues facing today’s world, the global community and the realities of Hispanics in the US.

Spanish 1 WLD120

Grades: 9-12 5 credits YR
 Prerequisite: None

Spanish 1 is a course in the basic skills of listening, speaking, reading, and writing Spanish as it is used throughout the Spanish-speaking world. Culture study will provide the student with information on life in Spanish-speaking countries.

Spanish 2 **WLD130**
Grades: 9-12 5 credits YR
Prerequisite: completion of Spanish 1 or completion of at least two years of Middle School Spanish.

This course will continue to develop the basic skills of listening, speaking, reading and writing practical Spanish. Culture study will provide the student with information on life in Spanish-speaking countries.

Spanish 3 **WLD140**
Grades: 9-12 5 credits YR
Prerequisite: Completion of Spanish 2 or completion of 3 years of Middle School Spanish.

Spanish 3 strengthens the facility with the language through the review of basic communication skills and the introduction of new material needed for communication. Culture study is an integral part of the course.

Spanish 3 Honors **WLD146**
Grades: 9-12 5 credits YR
Prerequisite: Spanish 2 or 3 years of Middle School Spanish
Course Criteria: Minimum 80% Sem. 1 Course Avg. in High School or 8th grade Spanish (3 year middle school sequence) with 80% combined average for marking periods 1 and 2.

Spanish 3 Honors offers the highly motivated student of Spanish the opportunity to begin a sequence of rigorous studies of the Spanish language and the cultures of the Spanish-speaking people. Students should plan to continue the course sequence to Advanced Placement Spanish Language.

Spanish 4 **WLD150**
Grades: 10-12 5 credits YR
Prerequisite: completion of Spanish 3

Spanish 4 is a course designed to further individual development of the essential communication skills. Oral proficiency is emphasized. Students read and discuss short stories and selections from contemporary articles on topics of cultural interest. Projects and other hands-on assessments are an integral part of the course. Grammar will be studied to facilitate accuracy of self-expression.

Spanish 4 Honors **WLD155**
Grades: 10-12 5 credits YR
Prerequisite: Spanish 3 Honors
Course Criteria: Minimum 70% Sem. 1 Course Avg. in Spanish 3 Honors.

Spanish 4 Honors is a continuation of the sequence begun in Spanish 3 Honors. (See that description.) This is a course for students who are planning to continue the sequence to AP Spanish Language.

Spanish 5 **WLD160**
Grade: 11-12 5 credits YR
Prerequisite: Spanish 4

This course is for the students who wish to continue studying the language and work on oral proficiency, which is emphasized. Assessments will be in the form of hands-on projects, as well as presentations and written assessments. Topics of cultural interest are studied and grammatical structures are reviewed to facilitate the communication skills of the students.

Conversations in Spanish **WLD165**
Grade: 12 5 credits YR
Prerequisite: completion of Spanish 5

This course allows students to continue to work on their oral proficiency and conversational skills. Emphasis is placed on the cultural aspects of the Spanish speaking world. Music, art, short stories and some contemporary films are an integral part of the course, as well as the study of the traditions and society of Spain and Latin America. Projects and other hands-on assessments are an important part of the course.

Honors Spanish Cultural Studies **WLD175**
Grades: 11-12 5 credits YR
Prerequisite: Spanish 4 Honors or Spanish 5
Course Criteria: Minimum 70% Sem. 1 Course Avg. in Spanish 4 Honors or Minimum 90% Sem. 1 Course Avg. in Spanish 5.

This course offers students the opportunity to investigate and learn about significant aspects of the Spanish speaking world. The Spanish language will be used as a tool to explore and acquire a cultural, social, political and historical perspective of Spain and Latin America through music, art, literature, and film. Conversation will be an integral part of the course, as well as reading and writing. Students will be expected to actively participate in discussions concerning the varied topics.

AP Spanish Language **WLD185**
Grade: 11-12 5 credits YR
Prerequisite: Spanish 4 Honors or Honors Spanish Cultural Studies
Course Criteria: Minimum 85% Sem. 1 Course Avg. in Spanish 4 Honors or Honors Spanish Cultural Studies

This course is comparable in content and in difficulty to a course in Advanced Spanish Composition and Conversation at the third year college level. It consists of an intensive review of all structure, considerable vocabulary building, and speaking exercises to improve pronunciation and language facility. In addition to the text, materials may be chosen from literature, magazines, newspapers and a variety of authentic audio-visual selections. There is frequent composition work and students are expected to participate actively in listening comprehension exercises and oral presentations. Concentrated

practice to develop the abilities required for the Advanced Placement exam will be an integral part of the course. Students are strongly encouraged to take the Advanced Placement examination.

AP Spanish Literature **WLD195**
Grades: 12 5 credits YR
Prerequisite: AP Spanish Language
Course Criteria: Minimum 80% Sem. 1 Course Avg. in AP Spanish Language.

This course is the equivalent of a third year college Introduction to Spanish Literature course. It is designed to prepare the students for the Advanced Placement test. Following the recommended course of study from the College Board, the course covers selected authors and works from the literature of Spain and Latin America and centers on the understanding and analysis of literary texts. The goals of the course are to prepare the student to read literary texts of all genres in Spanish; to analyze critically the form and content of literary works (including poetry) through the use of appropriate terminology; and to participate actively in discussions on literary topics in Spanish.

French 1 **WLD200**
Grades: 9-12 5 credits YR
Prerequisite: None

French 1 is an introductory course in the basic skills of listening, speaking, reading and writing elementary French. Culture study will provide the student with information on life in French-speaking countries.

French 2 **WLD205**
Grades: 9-12 5 credits YR
Prerequisite: completion of French 1 or completion of 3 years of Middle School French

This course will continue to develop the basic skills of listening, speaking, reading, and writing practical French. Culture study will acquaint the student with contemporary life in French speaking countries and regions in North America.

French 3 **WLD210**
Grades: 10-12 5 credits YR
Prerequisite: French 2

French 3 consists of four integrated areas of study: culture, grammar, conversation, and composition. This course will strengthen the four skills through the review of basic grammar concepts and the introduction of new material needed for more precise communication. Attention will be given to the different French-speaking peoples. Emphasis is upon spoken, as well as written communication.

French 3 Honors **WLD212**
Grades 10-12 5 credits YR
Prerequisite: French 2
Course Criteria: Minimum 80% Sem. 1 Course Avg. in French 2.

French 3 Honors offers the highly motivated student of French the opportunity to begin a sequence of the rigorous studies of the French language and the cultures of the French-speaking people. Students should plan to continue the sequence to Advanced Placement French.

French 4 **WLD215**
Grades: 11-12 5 credits YR
Prerequisite: French 3

French 4 is a course designed to further individual development of the essential communication skills. Oral proficiency is emphasized. Students read and discuss short stories and selections from contemporary articles on topics of cultural interest. Grammar will be studied to facilitate accuracy of self-expression. Projects and other hands-on assessments are an integral part of the course.

French 4 Honors **WLD225**
Grades: 11-12 5 credits YR
Prerequisite: French 3 Honors
Course Criteria: Minimum 70% Sem. 1 Course Avg. in French 3 Honors

French 4 Honors is a course designed to further individual development of the essential communication skills. Students will read and discuss short stories and selections from contemporary articles on topics of cultural interest. Grammar will be studied to facilitate accuracy of comprehension and self-expression. Extemporaneous discussion, as well as writing skills, will be incorporated into each unit of study. Supplemental units encouraging oral proficiency in basic travel, social and career situations will also be included. Students should plan to complete the course sequence to Advanced Placement French Language.

French 5 **WLD230**
Grades: 12 5 credits YR
Prerequisite: completion of French 4

This course is for the students who wish to continue studying the language and work on oral proficiency, which is emphasized. Assessments will be in the form of hands-on projects, as well as presentations and written assessments. Topics of cultural interest are studied and grammatical structures are reviewed to facilitate the communication skills of the students.

AP French Language **WLD235**
Grade: 12 5 credits YR
Prerequisite: French 4 Honors
Course Criteria: Minimum 85% Sem. 1 Course Avg. in French 4 Honors

This course is comparable in content and in difficulty to a course in Advanced French Composition and Conversation at the third year college level. It consists of an intensive review of all structure, considerable vocabulary building, and speaking exercises to improve pronunciation and language facility. In addition to the text, materials are chosen from contemporary literature, magazines, newspapers, and a variety

of authentic audio-visual selections from different French-speaking countries. There is frequent composition work, and students are expected to participate actively in listening comprehension and speaking exercises. Concentrated practice to develop the abilities required for the AP exam will be emphasized. Students are strongly encouraged to take the AP examination.

German 1 **WLD300**
Grades: 9-12 5 credits YR
Prerequisite: None

German 1 is an introductory course in the four basic skills of listening, speaking, reading and writing, with special emphasis on pronunciation and conversational patterns. The study of holidays, geography, history, and everyday life in German-speaking countries will be an integral part of the course.

German 2 **WLD305**
Grades: 9-12 5 credits YR
Prerequisite: German 1 or 3 years Middle School German

This course will continue to explore the language in terms of the development of communication skills. The study of culture will continue to acquaint the student with contemporary life in German-speaking countries.

German 3 **WLD310**
Grades: 10-12 5 credits YR
Prerequisite: German 2

German 3 will strengthen the four skill areas developed in German 1 and 2. Special emphasis will be placed on the development of conversational skills and a review of grammar concepts. Students will begin reading contemporary German short stories. The reading and discussion of these stories will increase vocabulary and improve oral expression. Cultural topics will be an integral part of the course.

German 4 Honors **WLD315**
Grades: 11-12 5 credits YR
Prerequisite: German 3
Course Criteria: Minimum 80% Sem. 1 Course Avg. in German 3

German 4 Honors is designed for the student who has completed three years of study of the language and would like an introduction to contemporary German literature. Conversational skills will be refined with special emphasis on pronunciation, idiomatic expressions and grammatical structures. Students will research individually chosen topics to broaden their knowledge of Germanic cultures.

German 5 Honors **WLD325**
Grade: 12 5 credits YR
Prerequisite: German 4 Honors
Course Criteria: Minimum 70% Sem. 1 Course Avg. in German 4 Honors

German 5 Honors is an advanced level course designed to further develop the essential communication and critical-

thinking skills. An important part of the course will be literary analysis of short stories representative of German, Austrian, and Swiss authors. Students will also study drama, the German novella and the Germanic cultures reflected in the various genres. Grammar review, extemporaneous discussion and advanced composition will be integral components of the course.

AP German Language **WLD335**
Grade: 12 5 credits YR
Prerequisite: German 4 Honors
Course Criteria: Minimum 85% Sem. 1 Course Avg. in German 4 Honors or German 5 Honors.

This course is comparable in content and in difficulty to a course in Advanced German Composition and Conversation at the third year college level. It consists of an intensive review of all structure, considerable vocabulary building, and speaking exercises to improve pronunciation and language facility. In addition to the text, materials are chosen from contemporary literature, magazines, newspapers, and a variety of authentic audio-visual selections from different German-speaking countries. There is frequent composition work, and students are expected to participate actively in listening comprehension and speaking exercises. Concentrated practice to develop the abilities required for the AP exam will be emphasized. Students are strongly encouraged to take the AP examination.

Latin 3 and Latin 4 Honors will be offered as On-line Courses in the 2014-15 school year.

Latin 3 **WLD410**
Grades: 11-12 5 credits YR
Prerequisite: Latin 2

The Latin 3 course presupposes student mastery of most grammatical forms. The course contains grammar review and emphasizes the refinement of the students' reading and translation skills. A variety of Roman authors are introduced and discussed, further developing critical-thinking and knowledge of Roman literature. History and mythology units and projects are integral parts of the course.

Latin 4 Honors **WLD415**
Grades: 12 5 credits YR
Prerequisite: Latin 3
Course Criteria: Minimum 80% Sem. 1 Course Avg. in Latin 3.

Latin 4 Honors is designed for the student who has mastered three years of Latin and who would like to study selected poetry and/or prose in depth. Roman history, culture, and mythology are treated as they relate to the literature studied. Latin grammar is reviewed and taught as it applies to the literature read. Special emphasis is given to the Roman influence on English literary tradition.

Chinese 1 **WLD500**
Grades: 9-12 5 credits YR
Prerequisite: None

Chinese 1 is an introductory course in Mandarin designed for students having no previous knowledge of the language. Emphasis in this course is on the basic skills of listening, speaking, reading and writing Chinese. Culture studies are an integral part of the course.

Chinese 2 **WLD505**
Grades: 9-12 5 credits YR
Prerequisite: Chinese 1 or 3 years Middle School Chinese

Chinese 2 is designed for the students who have fulfilled the requirements of Chinese 1. The course emphasizes the improvement of oral expression and the development of vocabulary through activities integrating listening comprehension, speaking, reading and writing. Special attention is given to the reading of Chinese characters. A study of Chinese culture is an integral part of the course.

Chinese 3 **WLD510**
Grades: 10-12 5 credits YR
Prerequisite: Chinese 2

Chinese 3 is designed for the students who have fulfilled the requirements of Chinese 2. The course emphasizes and further advances the students' oral and written communicative abilities. Based on their prior knowledge in Chinese, students are guided to study the basic Chinese grammar in a systematic manner. Some simple social correspondence, as well as narrations and descriptions, are the goals for writing. Cultural awareness focuses on the interdependence of language, thought and culture.

Chinese 4 Honors **WLD515**
Grades: 11-12 5 credits YR
Prerequisite: Chinese 3
Course Criteria: Minimum 80% Sem. 1 Course Avg. in Chinese 3.

Chinese 4 Honors is designed for the students who have fulfilled the requirements of Chinese 3. Conversational skills are refined with special emphasis on idiomatic expressions and sentence structures. Students read and discuss cultural features such as important figures, historical events, and major sites both in the People's Republic of China and in Taiwan. Open-ended answers and creative composition are incorporated into each unit of study.

Chinese 5 Honors **WLD525**
Grades: 11-12 5 credits YR
Prerequisite: Chinese 4 Honors
Course Criteria: Minimum 70% Sem. 1 Course Avg. in Chinese 4 Honors

Chinese 5 Honors is designed for the student who has finished Chinese 4 Honors. Classroom activities are organized to meet individual student's needs. Students have the opportunity to

engage in classroom discussion and research projects which allow them to use the language to explore in depth certain topics relating to Chinese literature and history.

AP Chinese Language **WLD535**
Grade: 12 5 credits YR
Prerequisite: Chinese 4 Honors
Course Criteria: Minimum 85% Sem. 1 Course Avg. in Chinese 4 Honors or Chinese 5 Honors

This course is comparable in content and in difficulty to a third year college level. It consists of an intensive review of all structure, considerable vocabulary building, and speaking exercises to guide the students in their achievement of oral language proficiency. In addition to the text, materials may be chosen from contemporary literature, magazines, newspapers and a variety of authentic audio-visual selections. There is frequent composition work and character reading. Students are expected to participate actively in debating exercises, classroom discussions and oral presentations. Concentrated practice to develop the abilities required for the Advanced Placement exam will be an integral part of the course. Students are strongly encouraged to take the AP examination.

Additional Academic Programs

WWPHS offers educational programs designed to extend the learning opportunities beyond courses offered in the standard curriculum. The programs described in this section offer students the chance to participate in specialized support classes, community-based experiential learning, independent study, enrichment activities, Princeton University courses, vocational/technical programs, internships and mentorships.

English as a Second Language

ESL, or English as a Second Language, is a multi-level course for teaching English to non-native speakers. Its primary goal is communication in English. In this program students are helped to use English actively in speaking and writing and to comprehend English that is spoken and written. The four skills a student must develop in the language curriculum are listening, speaking, reading and writing. ESL takes the place of Language Arts and counts as Language Arts credit. When the student passes a state mandated English assessment test, he/she will then be scheduled into the mainstream Language Arts program. A component of the ESL program is a Bilingual tutorial. The purpose of this class is to help students in content area classes via small group or individual instruction with the bilingual teacher.

Courses in this program:

World History ESL	5 credits	SSD150E
American Studies I ESL	5 credits	SSD280E
American Studies II ESL	5 credits	SSD340E
Language Arts ESL I	10 credits	LAD150E
Language Arts ESL II	5 credits	LAD240E
Language Arts ESL III	5 credits	LAD500E
Science I ESL	5 credits	SCD100E
Science II ESL (Biology)	5 credits	SCD140E
Bilingual Study Skills/Chinese	2.5 credits	WSD300
Study Skills/ESL	2.5 credits	WSD340E

Independent Study Programs

Independent Study (dept code)950
Grades: 10-12 maximum 5 credits YR
1 credit per 35 hours

The Independent Study Program is available for those juniors or seniors who are looking for an additional academic opportunity for in-depth study beyond the WWPHS course offerings or have a desire to fulfill a course need that is not available in the current WWPHS curriculum. An Independent Study may not be employed to replace a course that is offered in the current WWPHS curriculum.

The following steps are required for the proper completion of an Independent Study (I.S.):

1. A West Windsor-Plainsboro High School faculty member must serve as the I.S. advisor. Please understand that faculty members are under no obligation to serve as an I.S. advisor; they do so voluntarily.

2. The student and his/her advisor must collaborate on the work to be completed and grades, the credits to be awarded, and the time to be allotted. An Independent Study Contract (available in guidance), listing the appropriated details, must then be completed. The student is then responsible for getting the contract approved and signed by his/her parent or guardian, the department supervisor, his/her school counselor, the director of guidance, and the principal. The contract is kept on file in guidance until the completion of the I.S.

3. Credits will be awarded upon completion of the I.S. course or project. One credit will be granted for every 35 hours of project work or the course is certified by the principal under 6A:8-5.1(a)1.ii. A time log must be maintained, verified and presented when the I.S. is completed. All evaluations must be reviewed and approved by the I.S. advisor. A grade of pass or fail will be issued for all independent studies.

Princeton University

Princeton University Course	XXD(course code #)
Grades: 11-12	3 credits SM
Prerequisites: See below	

High school students may apply for courses in mathematics, biology, physics, chemistry, foreign languages, computer science and music (when special talent can be demonstrated) if they meet all of the following requirements:

Note: Princeton University has clarified their stance on District procedures which allow our students to take outside course work. Princeton University provides WWPHS students with the opportunity to take their courses as a courtesy. The intent is to offer courses to a limited number of exceptional students who meet their criteria and follow the application procedures.

The student must have completed all the courses that WWPHS has to offer in the subject they are applying to take at Princeton. Princeton University has made it clear that they will not allow our students to circumvent that rule by taking outside course work. Therefore, PU will not accept a WWPHS student who has accelerated past the last course in the WWPHS curricular sequence by taking outside course work.

Students may not contact Princeton University directly. Information and applications for this program are coordinated through WWPHS Guidance Department and approved by the Director of Guidance. Applications outlining specific requirements for inclusion in the program as established by Princeton University are available in the Guidance Office for fall courses in April and for spring courses in November.

The University does not issue transcripts to high school students. WWPHS North and South award high school credits for these courses. Grades are calculated into the student's grade point average.

Research Courses

Student Research in the Humanities **XXD125** Grades: 11-12 2.5-5 credits YR

Student Research provides opportunities for students to design and implement original research projects under the guidance of a faculty mentor. Students are expected to perform literature searches, analyze published research articles, develop relevant and testable questions, consult experts in their field of study, design and carry out research plans and analyze results. In addition, they may learn and use basic quantitative and qualitative research techniques, conduct ethnographic research and form partnerships with experts in industry or academia. Students will share their progress with one another and the teacher-mentor at periodic seminars, and will communicate with other students who are working on similar projects. As a culminating experience, students will create a formal research project summarizing their findings, present their results at a seminar session, communicate their results through oral presentations, and, where appropriate, submit their research in competition.

Student Research in the Sciences **SCD270** Grade: 10-12 5 credits YR Prerequisites: One year of a lab science course

Student Research provides opportunities for students to design and implement original scientific research projects under the guidance of a faculty mentor. Students are expected to perform literature searches, analyze published research articles, develop relevant and testable questions, consult experts in the field, learn basic lab techniques, form partnerships with scientists in industry or academia, design and carry out experiments to test hypotheses, and analyze results. Students will share their progress with one another and the teacher-mentor at periodic seminars, and will communicate with other scientists who are working on similar problems. As a culminating experience students will write a formal research paper summarizing their findings, present their results at a poster session, communicate their results through oral presentations, and, where appropriate, submit their research to science competitions.

Senior Option Program

Senior Option **CBD260** Grade: 12 10 credits SM

The Senior Option is a program that provides an opportunity for eligible WWP seniors to spend a portion of their last semester of high school in professional internships with local companies or in service learning experiences. To be eligible, the senior must have passed the High School Proficiency Assessment (HSPA), be in good academic standing, and have a 3.0 GPA or better. Students who elect the Senior Option experience will receive a pass/fail grade and ten credits.

The student must agree to meet attendance and punctuality requirements when scheduled to report to the work/service site. The Senior Option Program is subject to the attendance policies and procedures of the West Windsor-Plainsboro Regional School District.

Students who elect to participate in the Senior Option Program must:

1. Complete the application packet and interview process;
2. Arrange his/her school schedule to facilitate leaving campus during the afternoon session of the second semester; and
3. Be able to provide his/her own transportation to the work/service site.

In addition, the following requirements are part of the student's responsibilities:

- A weekly journal outlining the activities of the past week. (This may be submitted by either print or electronically).
- A culminating presentation at the end of the internship documenting the practices observed and learned; an assessment of this career pathway for future interns; and an evaluation of the experience.
- Attendance at a seminar every Friday at the high school for group interaction, and a series of discussions on a variety of professional practices. These discussions could include, but are not limited to, professional ethics, résumé construction and interview skills.

Special Education

Special education services are provided for those students that are eligible for classification under IDEA. Services include, but are not limited to, self-contained classes, learning & language disabilities (LLD) classes, resource center (RC) classes, in-class resource (ICR), support provided by inclusion consultants (IC) and in-class assistants (ICA). Specialized programs for students with behavioral disabilities, learning and language disabilities, and multiple disabilities are also provided in accordance with Individualized Education Programs (IEPs). Appropriate services are determined annually in the IEP meeting.

Mathematics (Grades 9-12)

This program is designed for students with special needs in mathematics skills – computation, number concepts, measurement, algebra, geometry, and consumer related skills. Emphasis is placed on the practical application of these skills to daily living situations. The program is adapted to the student's specific learning needs as identified in the Individualized Educational Program.

Language Arts (Grades 9-12)

This program is designed for special needs' students and will follow the mainstream curriculum at a modified and individualized pace. The program is adapted to the student's learning needs as identified in the Individualized Educational Program.

History (Grades 9-12)

This program is designed for special needs' students and will follow the mainstream curriculum at a modified and individualized pace. The program is adapted to the student's learning needs as identified in the Individualized Educational Program.

Science (Grades 9-12)

This program is designed for special needs' students and will follow the mainstream curriculum at a modified and individualized pace. The program is adapted to the student's learning needs as identified in the Individualized Educational Program.

Study Skills (Grades 9-12)

This program is designed for students with special needs. Emphasis is upon monitoring of academic progress, study skills and self advocacy skills.

Larks

The Larks program is designed for students with multiple disabilities to provide appropriate programming and services aligned to a student's IEP.

Academy

The Academy program is designed to provide a positive educational environment for students with behavioral disabilities.

Learning and Language Disabilities

The LLD course of study offers students the opportunity to focus on transitional skills in an educational program.

Special Needs Supported Employment Program

This special education program for high school students emphasizes the functional, adaptive, and vocational skills necessary to assist students with a transition into community life and employment.

Student Assistant Program

Students with an interest in learning the functions of various HS departments can elect to become a student assistant. This is an alternate educational program which will permit students to engage in volunteer work for academic credit. Grading is on a pass-fail basis (credits are to be determined). Students may serve as assistants in the following areas:

Departmental or Guidance Assistant XXD200
Grades: 9-12 2.5 credits YR
1.25 credits per semester

Students enrolled as departmental assistants will be assigned to that department's supervisor and be given a variety of duties. These may include: tutoring, assisting with clerical work, assisting on class projects, typing and setting up equipment. Students who choose to be departmental assistants must have the written permission of a supervisor.

Media Assistant XXD205
Grades: 9-12 2.5 credits YR
1.25 credits per semester

First year students will learn about media software (books, audio-visual materials, and audio-visual production), media hardware (audio-visual equipment) and basic theater equipment operation. Students will assist in the circulation of materials and equipment, process new materials, and assist with in-service activities for students and staff. Information inquiry skills, preventive equipment maintenance skills, and technical skills are emphasized. 2nd & 3rd year students must specialize in either advanced technical or information skills. Students who choose technical skills will be rotated between AV equipment responsibilities and theater responsibilities. Students who choose information skills will pursue advanced reference, cataloging, and research skills.

Resource Room Assistant XXD210
Grades: 9-12 2.5 credits YR
1.25 credits per semester

Selected students will tutor students working on individual assignments in reading, language arts, or mathematics. Other requirements include the preparation of lesson plans and the completion of an observation log which is kept on a regular basis. The assistant will also participate in an annual art contest and the Special Olympics.

Student Trainer XXD220
Grades: 9-12 maximum 5 credits YR
1 credit per 35 hours

Students selected as student trainers will work with the high school trainer and assist with general training activities. They will be available for athletic team support and help the athletic director, trainer and coaches with general troubleshooting.

Technical Schools

Mercer County Technical Schools (Grades 11-12)

Mercer County Technical Schools (www.mcts.edu) offer three distinct programs at three campuses for our students. At the Performing Arts High School located at Mercer County Community College (MCCC), a student may study dance, drama and/or vocal music. Also at MCCC, students enrolled in certain programs may earn dual credit towards both a high school diploma and an associate's degree in eight different disciplines. Sypek and Assunpink campuses are host to our more traditional vocational training. All of the programs offered through Mercer County Technical Schools are shared time, meaning the students will take their academic classes at West Windsor High School North or South for approximately three hours (either am or pm) and then will be bussed to the county school for their technical training. Students will receive 20 credits toward their high school diploma for each successful year at one of the technical schools. Interested students and their parents should contact their school counselor for further information, tours and/or an application to the career program of their choice. Additionally, an audition is required for the Performing Arts High School.

Course Offerings

Sypek Campus: (Lawrence, NJ) Automobile Collision Technology, Automobile Technology**, Commercial Art Technology**, Cosmetology*, Graphic Arts Technology***.

Assunpink Campus: (West Windsor, NJ) Architectural/Engineering Design***, Cosmetology*, Diesel Technology**, Electrical Construction, General Building Construction, Health Occupations (1 year program), Heating, Ventilating and Air Conditioning Technology***, Medical Office Assistant (1 year program), Network Engineering/Computer Technology***, and Health Occupations.

Also at Assunpink Campus:

Health Sciences Academy is a full-time, school program for self-motivated students interested in health and medical sciences. The Academy offers preparation for a career in the healthcare field. Students study in a creative environment enhanced by contact with specialists in the medical arts healthcare fields. Classes consist of advanced and specialized courses.

Dual Credit Programs (MCCC): (West Windsor, NJ) Computer Systems and Networking Technology, Criminal Justice, Fire Science/Emergency Medical Technology, Ornamental Horticulture and Landscape Designs, Professional Cooking, Radio and Television Production, and Business Foundations as well as Dance, Vocal Music, Theatre/Drama and Entertainment Technology.

*Certification/licensure is available.

** College credit offered.

*** Certification/licensure and college credit available.

Middlesex County Technical School

Students are also eligible to attend Middlesex County Vocational School. This is a four-year, full day vocational program hosted at four different locations throughout Middlesex County. Students interested in attending one of these programs should apply at the end of grade 8 for entrance in grade 9 since admittance for upper grade students is based on availability. Interested students and their parents should contact their school counselor. Additional information, as well as programs offered, can be found at their website: www.mcvt.net.
