

## Online textbook access for Holt McDougal Calculus, Precalculus and Statistics

Please pass this information along to all schools/textbook coordinators/math dept chairs. For all Holt McDougal Calculus, Pre-calculus and Statistics textbooks ( for your convenience I have listed them below) when the student editions ship from the textbook depository each student edition will also include an Online E-Book Printed Access Card. Please have the schools distribute these out when they assign the textbooks in August as this will grant the students their free access to the online textbook.

For teacher access each individual teacher has to make a simple request to Cengage. Here are the details that outline the process:

To get a free passkey for the site, please email:

[validate\\_requests@cengage.com](mailto:validate_requests@cengage.com)

Please provide for them in the body of the email:

Your name and position

Your school's name and contact info

The title, edition number, and ISBN

Just request a passkey for the Instructor's Companion Site. They do a quick validation to insure it's not a student, and then they will email you a passkey with a link to the teacher resources.

Please note: This does not apply to the Holt McDougal Burger and Larson Alg 1 & 2 and Geometry textbooks. They use an entirely different system and I will take care of making sure each district has the appropriate access to these textbooks. On a different note I have had both the Holt McDougal Burger and Holt McDougal Larson Common Core textbooks correlated to the current SC Academic Math Standards so you will have a guide for next year before we shift to the common core standards in 2013-2014. If you would like either or both of these correlations just send me a quick email and I will send them over to you.

Feel free to distribute this email to all appropriate contacts.

As always let me know if you have questions or need anything.

### **Calculus:**

Holt McDougal – Calculus: An Applied Approach, 8<sup>th</sup> ed

Holt McDougal – Calculus of a Single Variable, 9<sup>th</sup> ed

Holt McDougal – Calculus , 9<sup>th</sup> ed

Holt McDougal – Single Variable Calculus: Early Transcendentals , 7<sup>th</sup> ed
