# 2020 AP Exams

## Recap from last meeting

For most subjects, the exams will be 45 minutes long, plus an additional 5 minutes for uploading. Students will need to access the online testing system 30 minutes early to get set up.

- Exams will not require any test booklet shipments, external proctors, or any additional workload for schools.
- The exam content will only include topics and skills most AP teachers and students have already covered in class by early March.
- Students will be able to take these streamlined exams on any device they have access to—computer, tablet, or smartphone. Taking a photo of handwritten work will also be an option.
- Most exams will have one or two free-response questions, and each question will be timed separately. Students will need to write and submit their responses within the allotted time for each question.
