

Chemistry Syllabus Agreement

Miss Syiem

We have read and understand the information in the Chemistry syllabus:

Student's printed name

Student's signature

Date

Parent's printed name

Parent's signature

Date

Parent's email address

In science we do many experiments. Some will require outdoor activity, the use of animals or various foods. If your son/daughter is allergic to anything or has limitations that will keep him/her from participating, please explain below.

Feel free to email me with questions about grades, college, or policies at any time. My email is listed at the top of the syllabus and on my SchoolWires class website. Generally email is a far better (and faster) means of getting in touch with me. You may also make an appointment to meet with me. Please give me at least 48 hours to get back to you as I cannot check email or answer phones while conducting class and students are constantly keeping me busy in one way or another!

Academic Honesty Policy

It is important to maintain academic honesty in all coursework. Academic cheating in this science course will result in a "zero" or "F" grade on the assignment, test or project in question. In addition, it is the responsibility of the student to read and become aware of the school philosophy and policy on this subject.

I HAVE READ AND UNDERSTAND THE ACADEMIC HONESTY POLICY AS OUTLINED IN THE AYALA HIGH SCHOOL HANDBOOK.

Student (print) _____
