

Dear future AP Chemistry Student,

Congratulations on choosing the most amazing class on campus...Advanced Placement Chemistry! I am excited to teach you all of the amazing aspects the world of chemistry has to offer. In accordance with most Advanced Placement classes, students enrolled in this course are required to complete a summer assignment to help prepare. Please review the information below carefully and notify me with any questions.

1. Pick up **TWO THINGS BEFORE SUMMER**: the textbook AND the active reading guide from Mrs. Lopez in the B building.
2. Complete the Active Reading Guide questions (workbook) as you read chapters 1-3 of the textbook. **THIS ASSIGNMENT IS DUE THE FIRST WEEK OF SCHOOL!** Do not write in the Active Reading Guide. Please write only your answers on separate sheets of paper.
3. Memorize the first 20 elements on the periodic table (name and symbol) (attached)
4. Memorize the polyatomic ions...there is about 60 that are commonly used (attached)

I am so excited for this class! See you soon :)

Mrs. Appleby
