## **Class Expectations for AP Statistics**

Mrs. Johnson Room M-21
Email: lindsay johnson@chino.k12.ca.us

<u>Course Description:</u> This course is designed for students who wish to earn college credit by taking the Advanced Placement Examination in May. It is a non-calculus based introduction to statistics exposing students to four broad conceptual themes:

- Exploring Data: Describing patterns and departures from patterns
- Sampling and Experimentation: Planning and conducting a study
- Anticipating Patterns: Exploring random phenomena using probability and simulation
- Statistical Inference: Estimating population parameters and testing hypotheses

## **Rules**

- 1. Be on Time/Present to Class Meetings
- 2. Bring Materials
- 3. Stay on Task
- 4. No Cell Phones, Electronic Devices, Food, Drinks, or Gum (when in classroom)
- 5. Respect Yourself, Others, and School Property

## **Materials**

- a. Covered Textbook
- b. Notebook
- c. Sharpened Pencils with Erasers
- d. Graphing Calculator TI-83/TI-84 (available in Library)

<u>Classwork:</u> Students are expected to attend live classes, participate in class discussions and ask questions. Students are required to keep an organized notebook for reading & lecture notes, graded homework, quizzes and tests. In the event a student is absent, the student will be responsible to get the notes and any work assigned from a classmate.

**Homework:** Reading the textbook and independent practice complement daily class lessons and are essential for content comprehension and retention. Work will be assigned daily and checked the next day. Every assignment is worth 5 points and credit will be given only if the assignment is on time and complete. A complete assignment is one in which all the exercises are *neatly* completed and necessary work shown. Make up homework due to an excused absence must be turned in within 3 days after returning from the absence. We learn from mistakes, but it is the student's responsibility to make sure that the homework is done correctly. Students should check the answers to the odd problems when work is assigned from the textbook. If time permits we will go over questions from the previous night's homework. It is the student's responsibility to seek help when they don't understand a topic. <u>Plagiarism</u> (copying another student's work or from the internet) will result in no credit.

**Quizzes & Exams:** Quizzes may be given announced or <u>unannounced</u> several times in each unit. Tests will usually be given at the end of each unit and at the end of the semester. Make up quizzes or tests due to an <u>excused</u> absence must be completed at lunch or after school the day the student returns from the absence.

**Extra Credit:** Tests & quizzes may occasionally contain bonus questions for extra credit. Make ups will *not* contain bonus questions for extra credit.

**AP Exam:** All students are expected to prepare for and take the AP Statistics Exam scheduled in at 12 noon. Full length practice exams will be scheduled on the weekends in April & May prior to the exam. All students are expected to participate in the practice in order to be well prepared for the content and format of the exam.

## Assessment will be as follows:

Grading Scale:	Your grade will be weighted as follows:
A 90-100%	
B 80-89%	80% Exams & Quizzes
C 70-79%	
D 60-69%	20% Homework, Classwork, & Notebook
F 0-59%	

**Grades:** Grades will be available online for students and parents via Aeries Communication.

**Extra Help:** I will be available Monday through Thursday after school.
