

International Baccalaureate (IB) Exam Cut Scores for Colorado Public Colleges & Universities for GT Pathways General Education Credit (effective for new students starting class on or after July 1, 2016)

Students who have successfully completed the International Baccalaureate (IB) diploma programme shall, at a minimum, receive 24 semester credits (or their equivalent), which shall apply to general education, elective or major requirements (at the public institution's discretion), for IB exams administered as part of the diploma programme on which the student received a score of 4 or higher, per §23-1-13.3, Colorado Revised Statute.

If you did not complete the diploma programme, you can still earn college credit for the IB exams listed in this table on which you score a 4 or higher. The credit is guaranteed to transfer but it's not guaranteed to apply to degree requirements. For instance, if you take two different IB History exams, you could potentially get 6 credits in college-level history. However, if your degree program only requires 3 credits of history (which most do), then only 3 of those 6 credits will apply to the degree and you will be only 3 credits closer to graduation, not 6 credits closer. Most degree programs have the same [GT Pathways general education requirements and are listed in this link](#). A list of degrees that do not contain the GT Pathways curriculum and to which these courses may not apply is listed [in this link](#). Also, Colorado School of Mines has different requirements and students should refer to the [Colorado School of Mines website](#) to determine how IB credits will apply. Students should consult with academic advisors to determine how credit for IB exams can be used most effectively in meeting degree requirements. Please also note:

1. The statewide minimum cut score for awarding GT Pathways credit for both the Standard Level (SL) and Higher Level (HL) IB exams listed below is 4 (except in the case of GT-AH4: World Language). It is anticipated that more IB exams will continue to be added to this list. Institutions may award credit for IB exams not listed here but are required to award credit at least for these exams. IB exams taken more than 10 years ago may not be worth credit.
2. At least 3 credit hours shall apply first to the appropriate GT Pathways content area requirements until the amount of credit has been met for that GT Pathways content area. Once a GT Pathways content area requirement has been met, any additional credit may be awarded to fulfill other degree requirements, such as general education, elective or major/prerequisite credit. For example, the GT Pathways history requirement is 3 credits. If a student brings passing cut scores on two different history exams (such as US History and also World History, which qualifies the student for at least 6 credits), then the student shall receive 3 credits applied towards the GT Pathways history requirement. Any additional credits may be awarded to fulfill other degree requirements, such as general education, elective or major/prerequisite credit at the institution's discretion.
3. Institutions determine the amount of credit to award for IB scores of 5, 6 & 7 but they must award at least 3 credits, or at least 4 credits for GT-SC1 (science courses with labs).

4. Credit awarded shall be transcribed as a course satisfying the appropriate GT Pathways category at the institution. When there is no equivalent, the institution shall create a generic transfer equivalency for a course in that GT Pathways content area (i.e., GT-AH1, GT-AH2, and etc.).

A key to the institutions' abbreviations is included at the end of this document. Questions may be directed to the appropriate institution or to the Division of Academic Affairs at the Colorado Department of Higher Education, 1560 Broadway Suite 1600, Denver, CO 80202 or 303-862-3001.

How to Read This Table

The IB exams are arranged by content area—for instance, English exams are listed first. The various IB exams are listed down the left-hand column, along with the GT Pathways/general education requirements they satisfy. Next to that are the scores and it should be noted that in some cases, the higher one scores on an exam the more credit may be awarded. The institutions and the credit they award are listed in the rows. The legend below illustrates in black font the information contained in each column and row. The red, underlined font explains what the information means.

Legend:
