Color Ready-to-print Graphics

These are color versions of black-line masters for a wide array of graphic organizers. To use these, print the black-line copy, and then use a writing implement to record information on them.

Before printing, you will need to go to "File", then "Print-set-up" to ensure that the printed version of your graphic fits the page.

When saving your document, go to "File", then use the "Save as…" feature to re-name your document and save it in your preferred location.

To access the type of graphic you wish to use, click on any pink item.
