My family consists of my son Adrian, my daughter Monique and a dog named Kloe. I have a child with "Special Needs", which fuels my passion for nurturing and teaching children. REMOTE LEARNING

This is a unique time for all of us. We will experience new teaching AND new learning. We understand that this will take some time and patience as we adjust to this new style. We want to be sure that our students and their families have the tools they need to be successful. We will be working through the digital platform of Microsoft Teams. When the time is right, this is where we will be posting our digital content, live lesson, and much more.

For now, will take the much-needed time to help our students and families make this adjustment with confidence. Please be sure to check out my webpage on your remote learning days for information and updates.

I thank you all so much for your kindness and support!
