

# AP Computer Science Summer Assignment 2015

Mr. Hoffman

## Welcome to AP Computer Science!

The purpose of the AP Computer Science (AP CS) summer assignment is to prepare the student for the challenges in AP CS and to ensure the student is aware of the content and commitment level involved in this college level course.

The assignment is due the first day of school. If you have questions, please email [rhoffman@north-reading.k12.ma.us](mailto:rhoffman@north-reading.k12.ma.us) and I will reply as soon as possible.

"Please choose a card game or board game of your choice, and write a program to implement that game in Java. The code should be written by the student, including comments, and as such the student will be expected to present both the program and the code for it to the Academic Computer Programming students in the fall.

Other projects may be approved with the consent of the AP Computer Programming teacher."

This project, along with the presentation of it, will count as a test, which will largely affect the first Quarter grade.

Good luck!
