WHAT DO WE WANT OUR STUDENTS TO LEARN?

<p>AL College & Career Standards: Engage in argument from evidence to evaluate how biological or physical changes within ecosystems (e.g., ecological succession, seasonal flooding, volcanic eruptions) affect the number and types of organisms, and that changing conditions may result in a new or altered ecosystem.</p>
<p>Learning Goals:Students will understand the ways in which humans have altered our environment over the course of history</p>
<p>Quality Questions?</p>

HOW ARE WE GOING TO GET THERE?

DAY	CHUNK	CHEW	RECORD	ASSESS
MONDAY	Whole group disc 1.1	Turn and Talk	Notes	
TUESDAY	Whole group disc 1.1	T and T	Notes	Quiz 1.1
WEDNESDAY	Whole group disc 1.2	T and T	Notes	
THURSDAY	Whole group disc 1.2	T and T	Notes	
FRIDAY	Whole group disc 1.2	T and T	Notes	Quiz 1.2

HOW WE WILL WE KNOW THEY HAVE LEARNED THE STANDARD? ATTACH UNIT TEST
