Daleville High School Closure Google Classroom/Remind Codes

Google Classroom Information

On your computer go to www.google.com and login using your school email account. Use the class codes from the link above to sign into your classes.

On your mobile device search for Google Classroom in the Play Store on Android or in the App Store on your IOS (Apple Device).

Remind.com Information

If you have not signed up for the grade level remind groups please do so, they are listed below. We are asking that only one member of each family join due to the limited number of spots that Remind allows for each group. We also ask that the person joining be a parent or guardian.

On your computer go to www.remind.com

On your I-Phone search for Remind in the App Store

On your Android Device search for Remind in the Google Play Store

Algebra II, Algebra II with Trig, and Pre-calculus will all be using the same code for google classroom. These three classes will be strengthening their algebra skills. Should the absence extend to a time that I feel I need to separate the

classes, I will stream a message to them with individual codes for different classes. All of my students should have already received an invite for this class and most have already signed in.

My AP calculus students should all use their current google classroom. They are all signed in already and know how to use it.

For all of my classes, students may turn in their work through google classroom as they do it (picture of work from phone probably) or they may turn in all of their work when they return to school if there are technical difficulties.
