Course Description	<p>“7th Grade Honors Language Arts is an accelerated learning environment, which requires students to work more independently in class and at home. Students are required to read at and above grade-level texts independently and at an accelerated pace. Along with this, grammar and writing are also learned and practiced at and above grade level to prepare students for 8th grade Honors Language Arts. Standards for this class are based on the 7th Grade Language Arts Alabama College and Career Ready Standards. These standards are focused on reading, writing, speaking, listening, and language. The reading standards will require students to read and analyze a variety of fiction and nonfiction texts to determine how literary devices interact, identify central themes, examine the author’s craft, and support these findings with textual evidence. Students will be guided through the research and writing process to produce writing in the narrative, expository, and persuasive modes along with guiding and implementing the Madison City writing curriculum, Claim-Data-Commentary. In addition, students will engage effectively in a variety of collaborative discussions and adapt speech to a variety of contexts and tasks along with building on and responding to the ideas of others. Outside reading and summer reading are required” (Madison City Schools MS Course Catalog, p. 7).</p>
Course Objectives	<p>Students will develop and strengthen critical thinking skills by reading, comprehending, and engaging with both literary and informational texts. Students will make text-to-text, text-to-world, and text-to-self connections. Students will be able to identify, define, and duplicate examples of figurative language found in texts. They will demonstrate their understanding of the text through various formative and summative assessments. Students will display the convergence of their independent thoughts and textual examples in the writing of paragraphs and essays, as well as develop clear and concise writing skills through the execution of writing assignments and the application of proofreading and editing skills. Students will also improve their writing through the increased understanding and application of grammar, mechanics, and vocabulary skills.
