

District STUDENT Survey and Data Use Plan 2022-23

Survey/Owner	Dates	Time	Participants	Opt Out Link included	What is the purpose of this survey? How is will the data be used
Panorama Wellness Survey	Yearly Fall: August	10 min	Students Grades 3-12	Opt out form	<p>The Panorama Wellness Survey is designed to assess and support the individual needs of students in grades 3-12. Students are asked questions regarding their feelings of safety, positive and difficult emotions, coping skills including trusted adults, concerns about resources, etc. This is not an anonymous survey. Because it is not anonymous, we are able to assess immediate needs for students and respond. For students with non-emergent support needs, this survey allows us to know what resources to provide. This data is only seen by mental health staff and administration.</p> <ul style="list-style-type: none">  Mental Health and Wellness 3-5 (1).pdf  Mental Health and Wellness 6-12 (2).pdf
Panorama School Culture & Climate Perception	Yearly Fall: mid September Spring-Late March	10 min	Students Grades K-12	Opt out form	<p>Panorama Student Perception Survey is a research backed process for students, families, teachers and staff to better understand and build positive school climate in the schools and the district. The surveys assess: School Climate and Culture- Social and learning climate of the school environment, including rules and norms, behaviors, student engagement, and physical facilities. Positive Relationships- Social connections and interpersonal relationships between students and teachers, like a sense of belonging and valuing of school. School Safety- Physical psychological climate and safety at school including bullying, violence and availability of support for students.</p> <p>District 51 uses this data to assess our work on students’ sense of belonging, one of the threads throughout the Strategic Plan and the platform identified to measure success. Individual schools use the data to plan for and improve the climate in their buildings.</p> <p>The survey is completely anonymous and allows all students to have a voice and a personal assessment of the safety and relationships in the school. The data we get allows us to watch progress on individual measures over time, allows schools to compare themselves to each other, the district and the nation through national norms.</p> <p>Link to Panorama Ed. COMING FALL OF 2023

Gifted Program Perception Survey	Yearly in Nov (Nov 2022 will be skipped due to state audit and surveys in the spring)	15 min	Students Grades K-12	Opt Out Form	Provides perceptual information about the gifted education program. Provides data for district self-assessment as a part of CDE's Gifted Education Monitoring . Provides evidence of continuous program evaluation and monitoring required by CDE. Used at the district level to determine overall communication and professional learning needs. Used at the school level to determine areas for needed support. Elementary Student Survey Middle School Student Survey High School Student Survey
Capturing Kids' Hearts Student Survey	quarterly	10 min	Students in grades 6-12	Opt out form	The Capturing Kids' Hearts (CKH) survey is to help leaders determine the level of implementation of the Capturing Kids' Hearts elements that, when implemented, lead to improved relationships, increased sense of belonging and decreased discipline. The district uses this as one piece of data to measure progress towards the goals on the Strategic plan as well as school goals around relationships, belonging and overall school culture. 
Surveys NOT administered during the 2022-23 SY					
Healthy Kids	Every other year Oct 2022 - Off year Next Administration Oct 2023	20 min	Students Grades 6th-12th State selects randomly the schools to participate.	Opt Out Form	Healthy Kids Colorado Survey (HKCS): This confidential student survey collects anonymous information from students in 6th-12th grades about health-related attitudes and behaviors which includes unintentional injuries and violence; mental health; school safety and physical fighting; tobacco and other substance use; physical activity and nutrition; sexual behaviors; basic demographic info such as age; and risk and protective factors. The survey is administered every two years to randomly selected schools. Fall of 2023 will be the next administration of the HKCS. The data from this survey benefits both the school district and the community. The results can be used to support grant applications and needs assessment; program planning to focus on prevention; and to provide data to the D51 Strategic Plan . Healthy Kids Colorado Survey (HKCS)FAQ More information about Healthy Kids Colorado Survey can be found on the Colorado Department of Public Health and Environment (CDPHE)
