

EARLY SCHOLARS PROGRAM

STUDENT AND PARENT/GUARDIAN RESPONSIBILITY AND CONSENT FORM TO BE COMPLETED ONCE (COVERS ALL EARLY SCHOLARS ENROLLMENT)

MESA STATE COLLEGE

Admissions Office – 1100 North Avenue Grand Junction, CO 81501-3122 970.248.1875 – FAX 970.248.1973

The State of Colorado provides education for students who have met high school standards and want to begin college early and to promote content standards, provide academic challenges, and provide access to academic courses that may not be available at a local high school. All of Colorado's public four-year and two-year colleges, four area vocational schools, and three private colleges participate in the following dual enrollment programs:

- High school seniors who have completed their high school graduation requirements (approval from HS official is required) may begin college
 under the FAST TRACK program. The school district pays the <u>tuition</u> at the time the student registers and the student is limited to 15 credit hours
 per semester. Books and fees are the responsibility of the student.
- High school juniors (11th grade) and seniors (12th grade) who are ready for college work in one or more subject areas are encouraged to enroll in college under the CONCURRENT program. School districts <u>reimburse</u> students for the MSC <u>tuition</u> they pay if they pass the course with a grade of "C" or better. Students are entitled to reimbursement for two courses per semester. According to Colorado law, school districts may voluntarily agree to pay for additional courses beyond the two courses per semester. Concurrent does not include course enrollments during summer session, and home schooled students are not eligible for course reimbursement.
- High school students who are ready for college work (see admission requirements below) in one or more subject areas AND are enrolled in a participating high school may enroll in the HIGH SCHOOL SCHOLAR program. These are Mesa State College courses taught in the high school by MSC approved instructors. Offerings vary by school. Tuition is reduced in this program as the school district provides the instructional salary. These courses are offered for dual credit at the both the high school and college.
- EARLY SCHOLARS ADMISSION REQUIREMENTS: 1) Minimum 3.0 Cumulative GPA; 2) Minimum ACT score of 19 in English, math and reading or appropriate placement test score; and 3) grades of "B" or better in previous courses in the discipline area being requested for college credit.

To be completed by the Student and Student's Parent/Guardian Once (covers all Early Scholars enrollment)

I understand and agree to the following:

- 1. Upon course registration, students (or parents or legal guardian if student is a minor) incur a financial obligation to MSC.
- 2. Students participating in this program MUST apply for the College Opportunity Fund (COF) stipend. A student who fails to register for COF is responsible for payment of the COF stipend in addition to any additional outstanding tuition charges.
- 3. Course(s) taken are college-level course(s); participating students will meet the same course requirements as other college students.
- 4. Course(s) taken satisfy college graduation requirements. (**Note**: Activities ["KINA"] courses, remedial, basic skill courses, and advanced placement courses are <u>not</u> eligible under the Early Scholars program.)
- 5. Grades earned in the Fast Track, Concurrent, or High School Scholar programs are part of the student's permanent MSC record and will appear on his/her college transcript; this may affect future college admission and/or scholarships potential.
- 6. Course credits will transfer *only* if a student earns a "C" or better in the course.
- 7. Students who earn a grade of "D" or "F" in any MSC course(s) while enrolled as a Fast Track, Concurrent, or High School Scholar student are no longer eligible to participate in any future MSC Fast Track, Concurrent, or High School Scholar classes.
- 8. If students withdraw from a course after the drop/add date, they will receive a "W" or "F" on their MSC transcript and will not be eligible for tuition reimbursement (see official college academic calendar for specific dates).
- Students participating in this program are <u>not</u> eligible for the following: college activities or sports, and/or federal or state-funded financial aid, including institutional scholarships funded with general fund dollars.
- 10. This registration entitles the student to enroll as a high school Fast Track, Concurrent, or High School Scholar student and does not admit the student into a degree program.
- 11. Students may be eligible for tuition reimbursement by the school district if they meet the district's requirements.

By my signature, I authorize Mesa State College to release my transcripts to my school district at the end of the course.
