Bill Metz Elementary School

**Educational Needs Form**

If you feel that your student has unique academic, behavioral, or social/emotional needs please complete the following form, giving as much information as possible related to your child's specific needs.

An example of an educational need might be:

- needs hands-on learning opportunities
- needs a quiet, structured learning environment
- needs academic stimulation

An example of a behavioral need might be:

- needs to be able to move frequently
- needs frequent breaks
- needs teacher prompting at regular intervals

An example of a social need might be:

- needs to be in a different class than another family member
- needs to be in the same class as another family member
- may be better supported by a male teacher or female teacher
- child and family already have an established relationship with a specific teacher because of older siblings being in his/her classroom
- would be better if separated from another student

Please complete the form on the second page and return it to the school. Please place the form in an envelope for your privacy. We ask for your understanding as we do our best to place your child in a classroom that best supports his or her individual needs, although we must balance the needs of all children in our school community as we make placement decisions.

Thank you,

Stacey Plane, Director, Marsh School

Gabe Futrell, Principal, Bill Metz Elementary School
