

Enlightenment / English Civil War Photo Story project Name: _____

The goals of this project are:

- To expose you to the capabilities of Photo Story
- To create a project with a theme / example of that theme
- To enhance your understanding of the connection of people and events in history

Each group will be assigned one theme of the time period. It will be the responsibility of the members of the group to equitably divide the tasks among themselves and find visual images of the people, places and things that are relevant to the group's project. In addition, group members are responsible for writing and developing the text that will serve as the narration for the images in the Photo Story production.

The Photo Story program offers many features to enhance the presentation, but they are not substitutes for the core necessities of the product on which you will be graded. Therefore do not insert any of them until the images and narration are done and checked by me.

Check list items:

point values:

Day 2
