How will the LEA determine the most important educational needs as a result of COVID-19?

Lee County Schools contacted every student's parent or guardian to determine the technology needs for every student. Based on schools' technology logs, it was determined that it is imperative that Lee County Schools designate CARES Act Funds to provide the number of devices necessary to become a 1:1 school system, as well as, ensure connectivity for remote learning through enhanced wi-fi devices for all students. Investments in specific online learning tools, remote learning packets (postage) and mental health services were considered high priority, as well. Lastly, it was considered critical to address the safety of students and staff through investments in personal protective equipment, enhanced cleaning activities and specific building renovations and enhancements to address building traffic considerations.

How does the LEA intend to assess and address student learning gaps resulting from the disruption in educational services?

Lee County Schools has developed formative assessments that address the critical standards identified by the Alabama State Department of Education. These formatives will be given as soon as possible once students return to school. Data will be collected and walk to reading and math will take place in every school. Students will also be offered before and after school tutoring.
