# Prepare for your exams with Paper

Helpful tips to help you tackle exam season

## Get organized

- Make a checklist of themes or concepts you need to know for your exam. This will help you stay focused and make sure you don't forget anything.
- When you are working with a Paper tutor, be sure to bookmark all questions and explanations you think will be important to review later.
- Look back to your Paper session History. Previous explanations from tutors can make a great addition to your review notes.

## Review

- Review your materials and make sure you understand all concepts that will be covered in your exam.
- You can always start a tutoring session with a Paper tutor to help you clear any doubts. For example, if you have a review sheet or old quizzes, share them with your tutor for support.

## Practice

- Solve practice problems to help you remember and get comfortable with problems you might see on the test.
- If you get stuck, Paper tutors are a great resource to work through any challenging problems and understand the "why" of each step.
