Process and Timeline

- Reviewed the grant application submission checklist. All the items are due by June 30, 2019.
- Discussed the option of requesting that the BOF review all the previous presentations and email/come up with questions ahead of time to send to Dr. Barile prior to the next presentation.
- Next step: The goal is to get the project approved by the BOS and BOF/They have to process all of this. The town charter must be followed. This will happen through September. The BOS is meeting next Tuesday, September 4, 2018. Our goal is to hold financial meetings that answers financial questions and concerns.

-A special email will be set up to answer questions. Answers will be generated through the collaboration with the Superintendent, Board Chair and Tecton. The committee will be looped into the reply as well so committee members can field the same questions when asked in public.

-Reviewed proposed construction costs/soft and cost itemized listing

Adjournment was at 7:04 pm

Respectfully Submitted,

Lisa Gramling
Board Clerk
