

Homewood Families!

**Build with us to Strengthen Family Relationships**

Whether you step on legos daily or you have a dusty old set in a plastic tub, pull out those little building gems and “build” some community with us! In the spirit of the current reality TV show, “Lego Masters,” we say get the family together and embark on a fun, creative, and memorable task.

- 1) Pick a theme (some from the show and some of our own suggestions are listed below).
- 2) Create your own “master build” with Legos or your preferred building blocks at home.  
Pop some popcorn, put on your favorite music, and start building with the family!

From the masterful to the ridiculously fun, we want to see your creations. Share pictures of your creation with us using **#weareHWD!** Who knows, we may be able to crown our very own “Homewood Lego Masters Family.”

**FAMILY FUN LEGO THEMES**

<b>Dream Park, Theme Park</b>	Build a themed park attraction.
<b>Space Smash</b>	Build a Lego sculpture based on space and then smash it!
<b>Cut in Half</b>	Creatively construct the other half of an ordinary household object.
