From Dr. Padua's Desk

Now that the school year is more than half over, it is time for students and teachers to start thinking about the future. Seniors are making their final preparations for post-secondary education and careers after high school. Students in 10th and 11th grades are working toward earning the full seven credits for the year and continuing to prepare for the SATs. Ninth grade students will continue their exploratory strand classes to determine which strands they will choose as first and second choices.

February also marks Black History month, and Waterbury Career Academy will present its annual tribute to African-American culture on February 20th and 21st. I hope to see you there.

School Counseling Corner

Parents and students should log on to PowerSchool weekly to check academic progress and attendance.
