DEPARTMENT MISSION STATEMENT

The Dedham Public Schools Department of Fine and Performing Arts is a community of artists of all ages who strive for artistic growth, self-expression, and community engagement. We provide a collaborative environment in which every student can explore their artistic passion and discover their own creative process in order to instill a lifelong respect and love for the arts.

Dedham Arts Boosters

Formerly the

Dedham Music Association

Vision Statement

The Dedham Public Schools Arts Boosters is an organization committed to raising standards of achievement, engagement, and artistry for the benefit of all students K-12. We aim to elevate the goals set around funding and publicity for the arts, as well as improving and increasing communication and participation within our programs.

Mission Statement

The Dedham Public Schools Arts Boosters aim to provide a three tiered support system to the Fine and Performing Arts Department. First, we seek to increase funding to support student groups within the PK-12 arts programs in order to increase both the depth and breadth of experiences offered. Second, we seek to coordinate volunteers to engage the community in supporting the arts through donations, grants, alumni programs, and fundraising events. Third, we seek to raise the public profile of the department through use of social media and other forms of communication and outreach.

Welcoming a New Era of Elementary Band

BAND!
