

Rainbow Club

Our Rainbow Club has begun! These words are the Kindergarten high frequency words which need to be read by sight, not by sounding out. A new list of words will come home each week, but only the students who get 100% on their test will be moved to the next color on the class rainbow. Please work with your child on the words - making flashcards can be very effective! 😊 There will be a list with highlighted marks showing the words the students know each week. You will then need to work on the next five words with them.

Every week, please review each new and previous high frequency word list. The words will come home each Friday and the students will be tested the following Friday on their new words. Recognizing key sight words will improve your child's fluency and boost their comprehension scores! Thank you for so much for your support!

Have fun!

Mrs. Baroody and Mrs. Howe
