

# Fused Glass Camps

## (Gr 5-8)

\$185/ WEEK  
ALL  
MATERIALS  
INC

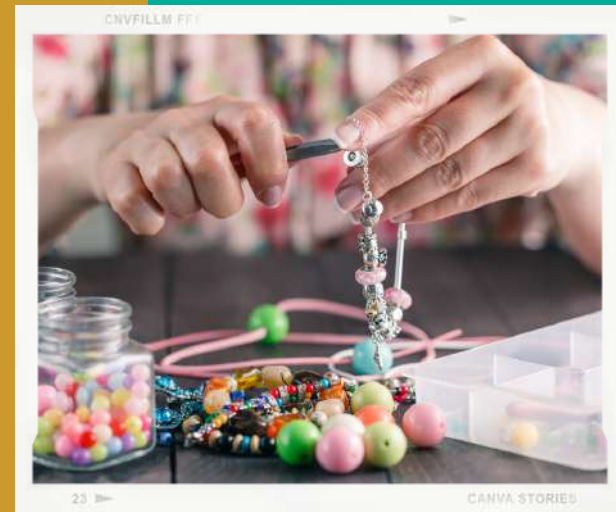

**Robots/Aliens: Out of This World**  
July 18 - July 22 | 9 a.m. - 12 p.m.

In this workshop you will draw, design, prototype, and tinker while exploring the art of glass fusing! Students will learn to cut their own glass and how to safely use common glass studio tools. We will use fusible metal, glass, wire, and maybe even a few recycled objects to create your outstanding-standing robot/alien. Creativity, brainstorming and problem solving will make this class memorable! If time allows, we will also create other small items or critters, as well as fused glass pendant and cabochons, some of which could be incorporated into pieces created during the Fused Glass, Mosaics and Jewelry session being offered the following week!

**Mosaics & Jewelry: Intro to Ancient Art**  
July 25 - July 29 | 9 a.m. - 12 p.m.

Stroll back in time and visit Ancient art forms together. Fused glass, mosaics and jewelry-making played important cultural roles in past civilizations and remain extremely popular mediums for artists today! You'll learn how to cut glass, create fused glass cabochons, and fuse glass beads to use as components in some of your jewelry designs, while incorporating others in a mosaic frame. Fundamental metalsmithing/jewelry making techniques will be taught. You'll form and forge various base metal wires creating your own unique pieces. Proper use and safety of all materials and tools will also be taught.
