

9.2

Name: _____

Date: _____

- 4. Harjo’s fourth stanza describes actions the horses take. Type in the box given below, at least two actions here that describe aspects of your personality or character. Remember that, like Harjo, you may use figurative language here.

- 5. Harjo’s eighth stanza describes how the woman feels about the horses. Type at least two different feelings you have about the character traits you have listed.

If you finish this section with time remaining, go back and try to add two more features to each of your lists. For example, for question 3, you would add two more features from nature; for question 4, you would add two more actions that describe your personality or character.
