Drafting Anaphora Poems

Now it's time to draft your poem! Use the space that follows to type your poem. Remember to follow these steps:

- Make sure to use anaphora by including your phrase from question 2 at the start of at least three lines.
- Make sure to include different aspects of your personality by using some of the items you brainstormed on your lists in questions 3–6.

If you finish drafting with time remaining, go back and try to add two more details to your poem.
