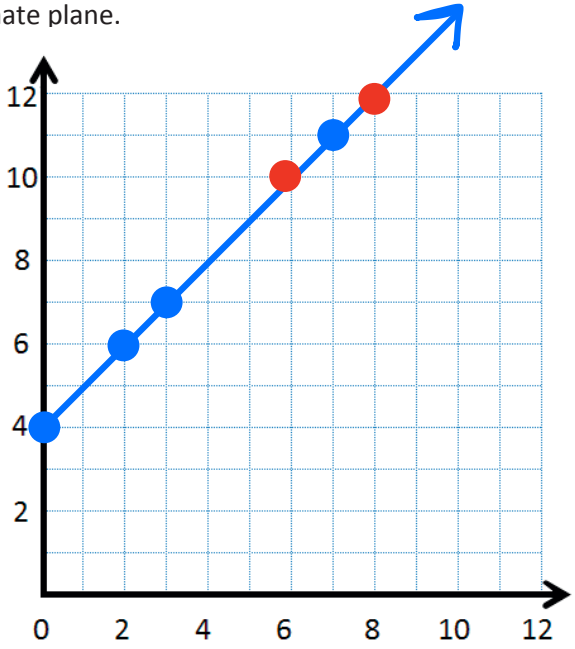
Name _____ Date _____

Complete the chart. Then, plot the points on the coordinate plane.

x	y	(x, y)
0	4	(0,4)
2	6	(2,6)
3	7	(3,7)
7	11	(7,11)



1. Use a straightedge to draw a line connecting these points.

2. Write a rule to show the relationship between the x- and y-coordinates for points on the line.

   X+4=Y

3. Name two other points that are also on this line.

   (6,10) (8,12)

Answers will vary.

Any x and y values as long as y is 4 more than x.

For example, (23,27).
