Exploring the Paths to **YOUR FUTURE**
The 16 Career Clusters

Does the phrase "Your choices will affect the rest of your life" sound familiar? It's no exaggeration to say the elective choices you make in high school could pave a gratifying path to your future. As you begin to plan your academic pathway you will need to make important decisions on what training you want to receive in high school. Educational opportunities in Wythe County can prepare you for your ideal career path. Good careers don't just happen. Careful planning along with good choices and hard work will lead you to a happy and productive adult life as well. The first step on this journey is understanding what your options are and how to make your personal interests fit in the options you have in high school when it comes to coursework.

To simplify this decision making process, the US Dept. of Education developed 16 Career Clusters with their own instructional focus and skill requirements clearly defined.

The Career Cluster framework is useful for students to help connect their required course work towards a career interest.

Since you are required to take a certain amount of credits in high school, you might as well use your time effectively to obtain the basic skills needed to put you on the path towards a productive career.

Within each cluster, there are elective courses that correspond to a collection of educational opportunities to prepare you for your chosen career.

RRHS Electives

◎ **ELECTIVES:** Students will choose more electives than they need. The extra choices will be used as alternates if first choices are no longer available and/or conflict with your required courses.

- > Fine Arts
- > Career & Technical Courses
- > Foreign Language

◎ Descriptions of all electives can be found online in the WCPS Program of Studies.
